COMPLETE OUTFIT—8 h.p. Engine, 28 in. Separator
All Fittings, Belts and Truck with 16 ft. reach. Cash \$670.50
28 inch Separator alone, all fittings. Cash, \$317.00
24 inch Separator alone, all fittings. Cash, \$284.00

FREIGHT PAID IN MAN. AND SASK.

AS USED BY
Norman M. Ross, Superintendent of the Government Farms, Indian Head.
Paul Gerlach, Allan, winner of the World's Prize Wheat in 1913.
W. S. Simpson, Pambrum, winner of the World's Prize Flax. See prices in my catalogue.
John Hillingworth, Roscliff, who came within 1/4 point of Senger Wheeler in 1914.
Also see the Official Government Report on my machine given by the government expert. All in my catalogue.

Many Improvements. Order Early—Most Important
My price for cash this year is the same as last and my time price is only 2 per cent. more. Other com-
panies have advanced from 10 per cent. to 25 per cent. You will notice I publish all my prices plainly
in my advertising and my catalogue and do not have two or three different prices for the same article.

You need a New DE LAVAL SEPARATOR NOW

1st If you are still using some gravity or set-
ting process of creaming—

BECAUSE YOUR WASTE IS
greatest and quality of product
poorest in mid-summer when the
milk supply is heaviest.

BECAUSE TIME IS OF GREAT-
est value on the farm at this
season and the time and labor
saving of the good separator
counts for most.

2nd If you have a very old De Laval or an
inferior separator of any kind—

BECAUSE THE LOSSES OF
the poor separator from incom-
plete skimming and the tainted
product of the hard-to-clean and
insanitary separator are greatest
at this season.

BECAUSE OF THE GREAT
economy of time at this season
in having a separator of ample
capacity to do the work so much
more quickly.

BECAUSE AN IMPROVED DE
Laval is so much simpler and

BECAUSE THE SKIM-MILK IS
poorest without a separator in
hot weather and often more
harmful than helpful to calves.

BECAUSE THE WORK OF AN
improved De Laval Cream Sep-
arator is as perfect and its pro-
duct as superior with one kind of
weather as with another.

more easily handled and cared
for than any other, and you can-
not afford to waste time these
busy days "tussling" with a ma-
chine that ought to have been
thrown on the junk pile long ago.

BECAUSE THE DE LAVAL SEP-
arator of to-day is just as super-
ior to other separators as the best
of other separators to gravity
setting, and every feature of De
Laval superiority counts for most
during the hot summer months.

These are all facts every De Laval local agent is glad of the opportunity to
prove to any prospective buyer. If you don't know the nearest De Laval
agency simply write the nearest main office, as below.

DE LAVAL DAIRY SUPPLY CO. LTD.

LARGEST MANUFACTURERS OF DAIRY SUPPLIES IN CANADA.
Sole distributors in Canada of the famous De Laval Cream Separators
and Alpha Gas Engines. Manufacturers of Ideal Green Feed Silos.

Automobile Owners!

Here is one of the Handiest Tools ever invented

L. & L. HANDY TIRE TOOL

There is one job every automobile owner hates and that is to take his tires
off. Here is a tool which will perform this operation in less than two minutes.
Experienced men do it in one minute. The L. & L. tire tool will not only
take your tires off, but will put them back again in every case where
the manufacturer uses split demountable rims.
Why not do this work yourself and save money and time?

Every Farmer Needs One

An automobile has become one of the principal factors in the farmers' business. You don't
want to haul your car miles to the garage any more. Neither do you want to experience again
the old back breaking job when time compels you to do the job yourself. The modest sum
of \$3.00 will relieve you from all expense and worry.

It Takes the Place of Five Ordinary Rim Tools

Its quick service in handling any number of punctures on the road will prove it to be the best
asset of your tool box. The "L. & L." handy tire tool requires no attachments for operating
the various kinds of rims, since it handles either clincher or straight side rims of any kind and
all sizes, by the instantaneous adjustment of a sliding notched bar. No bolts, nuts, pins
or other attachments to become loose or get out of order. Easily operated by man, woman
or child.

The stiffest rim, or "iron rim" is a mere trifle to this speedy and handy tool. Further
particulars will be gladly furnished free on request. Price \$3.00 f.o.b. Winnipeg. Send your
order today and join thousands of satisfied and enthusiastic owners.

Auto Tongue Truck on Deering and McCormick Binders SELF-STEERING FEATURE

The binder is purposely thrown out of square
in this illustration in order to show clearly the
steering action of the tongue truck wheels.

When the outer end of a binder platform
starts to hang back, it pulls the tongue truck
toward the grain.

Any movement of this tongue truck toward
the grain turns the truck wheels in the opposite
direction and at so great an angle that they
automatically steer the binder back to its proper
square cutting position, with the horses moving
steadily straight ahead.

The binder cuts a full 8-foot swath with less
work for both driver and horses.

For A Sure Harvest

If your Deering or McCormick binder is in
good condition when it goes into the field the
chances are all in favor of its finishing the job without
trouble. Should you have an accident, both repairs
and extra help are within calling distance. The
farmer who uses a Deering or McCormick binder is
safe as can be. He can depend upon it to harvest his
crop with the least possible work and trouble.

There are some Deering and McCormick features it will pay
you to know about even if you do not need a binder this season.
You will want to see the new auto tongue truck that shortens
the work by hours and eases the strain on horses and driver.
The wide, deep-plugged steel main wheel with its 10-inch face;
the strong, well-braced reel with its outside reel support; the
equalizer that keeps the canvases running true; the three handy
levers for tightening and loosening the canvases; are all
important features because they help in the work of harvesting
your grain.

Visit the local agent soon and see these machines. It will pay
you. Would you like to read about them in the quiet of your
home—then drop us a line at the nearest branch house.
