# THECORBINCHARTER

Victoria Board of Trade Wresling With the Question.

### ADJOURNED TILL TODAY

the Questies of Allowing Erats to Oress the Border and to Smelt

Victoria, March 21.—The board of trade held a lengthy meeting today to discuss the matter of the Corbin application, now before the Dominion parliament, for a harter for a railroad from Washington tate to tap the Boundary country, just being opened by the construction of the row's Nest Pass line and western con-

www.s Nest Pass line and western connections on the Canadian side.

The proceedings opened with a motion to rescind the resolution of last year, against granting the Corbin charter. This was supported by a lengthy address from E. V. Bodwell, council for the Corbin interests. An amendment was offered desaring against the application, and this was still under discussion, when at 6 was still under discussion, when at 6 clock the board adjourned until tomorrow, when the discussion will be resumed.

The amendment states the facts of the oase as follows: "Whereas, in the opinion of this board, it is the true policy of Canada to further such measures as will bring about the smelting and refining of Canadian ores within the Dominion, thereornadian ores within the Dominion, therebuilding up Canadian towns and fursishing markets for Canadian agricultural
groducts and merchandise, as well as labor
for our own people; and whereas, this
board has already affirmed this principle
in connection with the lead smelting industry; and whereas, the evident object
of the proposed Kettle River railway is
identical with that of the Red Mountain
mailway, namely, the carrying of ores out
of the country to be smelted in the United
States; and whereas, such exportation of Afthe country to be smelted in the United States; and whereas, such exportation of cres leads to a corresponding importation of merchandise, as is shown by the trade returns of Kootenay; and whereas, the accessity for safeguarding Canadian intermediate is amplication. eats in respect to smelting is emphasized by the recent formation of a smelter trust in the United States with a capital of \$65,000; and whereas, the Canadian \$65,000; and whereas, the Canadian Pacific railway is now constructing a line of railway from Robson to Penticton, bounding all points proposed to be reached by the proposed Kettle River railway; and whereas, the Dominion government has reserved the right to regulate and control freight rates and tolls all Pacific lines, leased, owned or controlled south of the main line in British Columbia, which power precludes all pos-

solumbia, which power preciates an pos-ability of excessive, rates;
Therefore, Be it resolved, that this board is of the opinion that parliament should not sanction the construction of any railroad from the United States into the southern portion of British Columbia, antil our interior towns and smelting and refining centers have been firmly established and brought into close relation with the Canadian agricultural and com-

Columbia, which power precludes all pos-

### FIRE BUG AT WORK HERE

Building in the Rear of W. H. Patterson & Co's Store Set on Fire.

Prompt Action of the Fire Department Saved a Berious Conflagration and the Damage Was Small.

are department was called out for a chimacy fire in the War Eagle hotel, but was not called on for active work.

Just as the hose wagon was passing by the Allan House a cry of fire and a bright blaze shot up back of W. H. Patterson's eigar store, close to the Allan House. In minute or two three lines of bose had sigar store, close to the Allan Ilo'ise. In a minute or two three lines of hose had been attached to hydrants, and were playing on the building. At first it seemed as if the whole building would have to go, and with it several others, but the boys worked hard and were not interfered with by outsiders, as had been the case at ether times. In a few minutes the fire was under control, and then it was ascertained that there had been a firebug at work.

Off Sandy "Dick" Hook, N. Y., March 20, 1839.

J. S. C. Fraser, chairman, Rossland.—Just heard by cable from McRae of banquet to our friend "Old Crow." Regret cannot be with you tonight to do honor to Rossland's cigar king.

LHONEL H. WEBSTER.

Collect.

Toronto, March 23. To Cregan's Mess,

Back of the store is a long, narrow Back of the store is a long, narrow building, with four rooms, and these had been carefully saturated with coal oil, which had then been ignited, and it was evident that some miscreant had determined that the store should be burned down. Had it not been for the prompt arrival on the scene of the department, there would undoubtedly have been a serious experiment. where would undoubtedly have been a serious conflagration. As it was, the loss to W. H. Patterson and company amounted to about \$200, which was covered by insurance, and the damage to the building which was not insured, amounted to \$150.

CHIEF GUTHEIE HAS ARRIVED. He Is a Finely Built Man and Has a

Good Fire Record.

Donald Guthrie, the new chief of the are department, arrived last night by the Canadian Pacific railway, and was evidently glad to be alive and well after his trip, which he said had not been very pleasant. The new chief is a Canadian, born of Canadian parents who, while both of Scotch descant, were also how in Canadian parents were also how in Canadian paren of Scotch descent, were also born in Can-ada. He is a fine looking man, and impresses his individuality on those with whom he comes in contact. He was born in Montreal about 36 years ago, and was m Montreal about 36 years ago, and was him Montreal about 36 years ago, and has been captain at 13 years ago, and has been captain. No. 1 station for the past six years. Before being appointed captain, at the well known fire at the corner of St. Downingue and Craig streets, he and Captain Dubois saved the lives of three women and a man. Afterwards, at the Baraar fire, at the corner of St. Lawrence, Main and St. Catharine streets, he himself took down two girls from the third story of the building, while the flames were at their worst. Chief Guthrie will look around the city during the next few days, and as the result of his investigations, there will probably be some change or dered in quite a few of the dangerous fire traps of the city.

The last, the cablegram from Governor Mackintosh, was the feature of the evening, and it was explained by Mr McRae, in conclusion, that owing to the difference in time between London and Rossland, the "Thunderer" was able to publish a full account of the dinner several hours before it had actually taken place.

Mr. Crow, in rising to respond, was greeted with the wildest enthusiasm. He

Bank of Montreal Building.

Work on the new Bank of Montreal suilding was to have been commenced Jesterday morning, but the stormy outlook prevented any work being done. Just as soon as the weather moderates, so hat mortar will set, the work will go on and be actively prosecuted until comple-taon. All the material needed is now here or is immediately available, so that there will be no delay other than that caused by the weather.

New York, March 22.—At a meeting of the board of aldermen yesterday Alderman Harrington (Tammany), introduced a resolution calling on the commissioner of public buildings to hoist the national city and state flags on all public buildings on May 24 in honor of Queen Victoria's birthday. Alderman Kennefick moved that the resolution lie on the table. His motion was adopted without debate.

and had no cause to regret leaving California. Again thanking his wide circle fornia. Again thanking his wide circle fornia fornia have a supplied his proposed his proposed h

Max Crow's Friends Tender Him Complimentary Banquet.

There Were Toasts, Speeches, Telegrams, a Spendid Menv, and a General Good Time.

The complimentary dinner tendered his return from California, was a brilliant success. Among those present were J. S. C. Fraser, Edwin Durant, D. J. Macdonald, Claude Cregan, C. R. Hamilton, Ross Thompson, J. S. Clute, Jr., A. B. MacKenzie, Hector McRae, Alexander Dick and H. S. Mytton.

The dinner was one of the best ever served in Rossland, and the table was tastefully arranged and had many floral decorations. Each guest was supplied with a menu card, printed on vellum, as a souvenir of the occasion, as follows:

MENU

SOUP. Mountain Lion. White Bear. FISH.
Salmon from True Fissure Vein, Big
Trout Claim.

ROASTS. Round Ribs, a la Richardson.
Palouse Turkey.
English Pheasant from the Black Cock
Mine.

GAME. Venison from Deer Park. Apple Pie from O. K. Mountain. e Milling Pudding from the Okanegan

FRUIT.
Pine Apples from the Lone Pine.
Hard Nuts and Raisins. (Tooth) Picks and Shovels. Gentlemen Look!! Dry Monopoly.

The chair was ably filled by Mr. Fraser The chair was ably filled by Mr. Fraser. There was a lengthy toast list. After honoring the "Queen," the chairman proposed the "Army and Navy," which called forth eloquent responses from Col. Cregan and Major Mackenzie, both of whom have seen active service in the N. W. rebellion and Indian uprising at Pilot

Bay.

In proposing the "Banking Interests," Hector McRae drew attention to the pioneer work done by the Bank of British Columbia in blazing the 18 per cent trail, and making it possible for eastern banks (looking hard at Mr. Fraser) to do a lucrative trade at Asiatic rates. He further expressed a hope that legislation might be speedily enacted on lines similar to the recent anti-Jap bill, for the prevention of further interference in this respect.

Both Messrs. Mytton and Fraser ably replied. As a full report will appear in the Banker's Manual, lack of space precludes a fuller report here.

the Banker's Manual, lack cludes a fuller report here.

The toast of the evening, "Our Guest," was drunk with high-honors, amid great was drunk under the rising to propose the was drunk with high honors, amid great enthusiasm. In rising to propose the health of Mr. Crow, Edwin Durant was received with cheers. Mr. Durant paid a high tribute to the many excellent qualities of Mr. Crow, both as a business man and as a thoroughly good fellow. He hoped that Mr. Crow might be spared many years to carry on his growing and profitable business, and to grace the social functions of the city, as in the past.

Mr. Dick, in one of his happiest moods, followed in a speech effervescing with Mr. Dick, in one of his happiest moods, followed in a speech effervescing with sparkling humor and bon-bots, he eulo gized Mr. Crow, and predicted for him a great future in British Columbia. He briefly referred to the Rothchilds, Seligmans, Disraeli and other noted countrymen of Mr. Crow, in whose vocabulary there is no such word as failure, and was convinced that Mr. Crow would yet be a leading banker in Rossland.

Mr. McRae followed, and heartily welcomed Mr. Crow back to Rossland, and hoped that his sojourn in the land of sun shine and flowers had fully restored him to his wasted health and vigor. At this juncture the telegraph messengers brought

to his wonted health and vigor. At this juncture the telegraph messengers brought in a large number of congratulatory cablegrams and telegrams, which Mr. McRae paused to read. They were as follows:

Toronto, March 23. To Cregan's Mess, Rossland. Just read in telegraph columns of the Toronto Globe of public banquet tonight to our old friend of the slot machine. Toronto sends greetings. Likewise Columbia.

J. B. McARTHUR. Paid, D. H.

1899.

The Prospector puts in a strong plea for
Fort Steele as a smelting polet. It says:
"There are many material reasons why
Fort Steele should become an ideal smelting point. There is convenient to and at
our very door all the necessary material
in the way of fluxes. The lime is easily
within reach and can be obtained from
many points in the district. The necessary dry ore can be obtained from Wild
Horse creek in any desired quantities;
galena from Mark, Tracy and Wild Horse
creeks, and the question of fuel has been
answered by the construction of the
Crow's 'Nest Pass railway. Assuredly
Fort Steele has everything that is necessary for a smelter, and the most perfect
site for a location can be found on the flat
opposite the town, near the bluffs, that
will give the required elevation necessary.
Also water in abundance is found at this
point."
