The ledge across the Granby group has already been partially strip ped, but it will be stripped for an additional length of 1500 feet and for a width averaging 200 feet. This, of course, is quite independent of the underground development work directhave let a contract to the Canadian Rand Drill company of Sherbrooke for the building of two compressor electrically driven plants, each with a capacity of 30 drills, the size of the drills being three and one-quarter inches. In order to compensate for the loss of power, owing to the elevation of 5000 feet, the plants will be built 40 per cent larger, thus bringing thei efficiency up to that of a similar plant of normal size at sea level. The double plant will probably be the largest of its kind ever built in Canada, and with the present equipment will give us a total of 80 drills. The Cascade Power

company has contracted to furnish us with a maximum of 1500 horse power, with a provision to supply us with an extra 500 horse power for proposed enlargemenments, including two additional furnaces for the smelter at Grand Forks as contemplated. Electrical power will also be supplied by the Phoenix Water & Light company. We are now employing 400 miners a Phoenix and there are 250 names or our smelter payroll. When the new The Ship Laborers' Society Demand plant is installed we can produce a tonnage of from 2500 to 3000 tons daily. Our mines," said Mr. Graves, in conclusion, "are looking better than I ever saw them look before. After examining the underground development and inspecting the surface exploration

PROVINCIAL LEGISLATURE. Houston to the Fore Once More-Re-

fused to Sit Down. (Special to the Miner.)

VICTORIA, B. C., May 6 .- Shortly after midnight last evening the government was defeated by a vote of 17 to 16 on the budget debate on a motion of Houston to adjourn the debate. McBride insisted on their re signing, but the government refused, and later on had a majority of two. The railway bill was submitted by the message, which provides for the Coast-Kootenay to be built by McLean Bros. of Vancouver for from \$4000 to \$4800 pe mile and a land subsidy of 1,000,000 acres. After 10 years it is to give two per cent of the gross earnings in lieu of taxation. The conditions are for Dominion aid.

There were few alterations in the Canadian Northern bill. Today the opposition obstructed, the object being to prevent the estimates from being voted on until the objec-

ionable, railway bill was dropped. Houston of Nelson refused to take his seat when ordered by the speaker, and held the floor silently for 20 min utes, while the speaker was consulting the authorities how to remove him. He defied the speaker to do so. Finally he went out, and previous to doing so the speaker ineffectually appealed to the government for protec tion from insult. Houston withdraw ing, the opposition moved a vote of to protect the chair, but the discussion was blocked by the previous question, which was carried.

LINE TO THE YUKON.

Distance From Ashcroft to Dawson Is 2135 Miles.

VANCOUVER, B. C., May 6.-A spec ial from Ottawa says: In the house of commons this afternoon the public consideration. The total length of the Ashcroft-Dawson telegraph line was stated to be 2135 miles, and the cost \$786,224, not including \$94,000 for supplies and recognized and recognize plies and provisions. The average cost her home in Republi per mile was \$368. The gap fillel last tended visit in Trail. was formally opened today.
