

NAVIGATION NOW DIFFICULT.

Zealandian Blocks Hellgate Channel and Delays Traffic.

Other Steamers Glide From Bar to Bar—Heavy Storm on Lebarge in Which Many Scows Are Wrecked.

The Klondike Corporation Co.'s steamer Nora, in charge of Capt. Cox, with Capt. Gardner as master, arrived at 9 o'clock last evening with a full cargo of freight and the following passenger list: Mrs. R. S. Heuteheva, Mrs. E. Scott, Leo Hartstead, Ole Hartstead, Sam P. Oien, R. B. Woodward, F. Walch, W. Screddri, P. G. Morew, F. Matna, Messrs. Broome, J. Patterson, Trite, H. Jay and Barringer. The Nora left Whitehorse on the 6th, running night and day, made the trip in two and a half days. Capt. Gardner reported the following steamers: Zealandian on a bar at Hellgate, blocking the channel; the Gold Star on her way down and the Canadian on her way up are tied up waiting an opportunity to get by the Zealandian. The Bonanza King was also stranded at Hellgate, but succeeded in getting off and passed Selkirk this morning on her way down. The Anglian, which for some time has been piloting scows from Whitehorse to Hootalinqua, was to have left Whitehorse with freight for Dawson on the 7th. The Joseph Closset is engaged in pulling scows off sand bars on Lake Lebarge and Thirty-mile. The Pelly and Stewart rivers have begun spouting ice, which the captain says is coming down in large quantities.

The following is the position of the boats as reported by the government telegraph: Five Fingers, Columbian 11 p. m., Sybil 11:30 p. m., Bailey 4 a. m., Ora 4:30 a. m., all going up. Bonanza King at Selkirk coming down; Monarch still on a bar at Selkirk and the Eldorado on her way down passed Hootalinqua at 10 a. m.

About a dozen of the many hundred scows that are on the way from Bennett and Whitehorse arrived last night and today. Two of Orr & Tukey's scows carrying about 40 tons of hay and grain, in charge of Tom McGuire, arrived last night and are unloading on the beach this morning. They started with three scows, but one dropped behind and landed on a bar 15 miles this side of Hellgate.

Messrs. Hatch and Burkhard also arrived last night with two scows. They report having experienced a very severe storm on Lake Lebarge, and during which one of their scows was completely wrecked. Fortunately no lives were lost, but the scow and contents are a total loss. Hilcher and Hemple are also reported as having lost two large cattle scows in the same storm. It will be a hard matter to ascertain the extent of the damage caused, but it is supposed to be very heavy.

The steamer Joseph Closset arrived this afternoon 19 days out from Whitehorse, where she left conveying 16 scows for the railroad company. She arrived here with 13 of the fleet, having lost three on the way. These are the first of the large fleet of scows which are said to be among those listed for late arrival this fall.

MCKINLEY OR BRYAN.

(Continued from page 1.)

glance at the ticket as printed elsewhere in this paper will show the form of the ballot.

The object of having each ballot signed by the voter is to prevent repeating and stuffing of the ballot box.

Only ballots clipped from the Daily or Semi-Weekly Nugget will be "official" or will be counted. Each ballot must, after being correctly marked and signed, be placed in an envelope, sealed and directed to the Nugget and marked "vote." These envelopes will be dropped in a ballot box which has been provided and which will not be opened until after 6 o'clock of the evening of November 6th, when to three competent judges and two clerks, carefully selected from the ranks of the two parties, will be delegated the task of opening the ballot box and next the envelopes, counting the votes and announcing the result and certifying to the same.

Mr. J. L. Sale, the popular jeweler and "compiler" of Klondike souvenirs, will prepare a suitable souvenir which, with the certificate of election duly attested by the judges and clerks will be forwarded to the candidate who is the choice of American voters of Dawson and the surrounding country, no matter what the general result on the outside may be. The candidate who carries the Klondike vote will receive the souvenir and certificate of election.

ceive the souvenir and certificate of election.

Every man in the Yukon who, if on the outside would be entitled to vote, is urgently requested to bring in or send in either by carrier or mail his vote. Clip out the ballot from either the Daily or Semi-Weekly and vote early but only once; and which the result will not in any way effect the general result so far as the candidates are concerned, it will indicate the political complexion of the American contingent in the Klondike.

All Dogs at Large.

Since last Saturday Dawson has been seen in all her numerical strength, dog-matically speaking. On that date the last dog auction of the season was held at the pound after which the animals were taken away by their owners, given their freedom and are monarchs of the streets.

It was conceded last spring that fully 2000 dogs were taken over the ice from Dawson to Nome and yet who will dare jeopardise his reputation for truthfulness by asserting that there are not now as many dogs in Dawson as at this time last year. But "dog days" are almost here when those present street obstructions will realize why they have been fed for the past six months.

COMING AND GOING.

Chas. Lamb of No. 3 Eldorado, came down from his claim yesterday and will remain in the city a day or two on business.

Frank Burkhard and Ed Hatch, of Skagway, are late arrivals by scow from the head of navigation. They expect to winter in Dawson, having landed with two scows laden with supplies.

Let it should be forgotten, it is in order to state that the election at which two members of the Yukon council will be chosen takes place one week from tomorrow; no preventing Providence, Rhode Island.

Thos. J. Worthington and C. W. M. Brocker are recent arrivals from Vancouver, who have come to Dawson to look into commercial conditions and prospects with a view to possible investment.

In mentioning the departure yesterday of Mr. Isom for the outside he was referred to as the general manager of the A. C. Co., when it should have been general manager of the N. A. T. & T. Co. Mr. Wilson, who also but recently left for the outside, is general manager of the A. C. Co. Both gentlemen will spend the winter on the outside.

Rudolph Rissmoussen, was one of the steamer Hamilton's passengers from below on her last trip. Mr. Rissmoussen has spent the summer in Nome and while glad to get away from there, is still of the opinion that the country surrounding the city of present desolation is all right, and will prove a good mining country some time in the future. At present he admits that it is not good to be there.

Alleged Prizefighter Mansen, who is wanted on a charge of complicity in the matter of the gold dust and nuggets for the theft of which his wife, the Mrs. Margaret Mansen of many aliases was recently convicted, is said to have been captured at Grand Forks this morning, and to be on his way to Dawson this afternoon. Mansen is the man who played a brief engagement in the arena with Frank Slavin during the past summer.

A Heavy Loss.

When the steamer Gustin landed her cargo of freight for the A. E. Co. here, she landed what was perhaps one of the greatest damaged cargoes, where there had been no wreck, that ever went off a boat at a Dawson dock. The principal damage was caused by defective kerosene cans which leaked and allowed the oil to escape in all directions.

On the beach between the company's warehouses may be seen an immense pile of empty oil cans which stand as a monument to the loss their leakage occasioned.

When the leaking cases were piled up on the beach the oil ran down in streams to the river below, where it floated upon the water and was dipped up and saved by some men who were fortunate enough to be on hand and in a position to take advantage of the proverbial ill wind. One man dipped up and saved 75 gallons, and another got 50 gallons, while several others saved enough to furnish light for the winter.

What the amount of the company's loss will be is not stated, but that it will foot up enough to be considered a comfortable fortune by many, is quite evident.

Married.

At the residence of the officiating minister, Rev. A. E. Heatherington, Mr. Ole Finstad and Miss Amanda C. Burt were quietly made man and wife yesterday evening. The groom has been here for some time and has hosts of friends among the miners. The bride is but a late arrival.

Attention Voters.

A meeting of the ward committees of the O'Brien-Noel clubs will be held in the committee room tomorrow (Wednesday) evening at 8 p. m.

A. M. TAYLOR, Secy.

Special Power of Attorney forms for sale at the Nugget office.

POLICE COURT NEWS.

It was a small house that greeted Magistrate McDonnell in police court this morning and the session was of short duration.

The appearance of Thos. Conner, a tall, dark complexioned man, on the front row of benches was the only visible evidence that the boycott on lemon is still on. Thomas had devoted himself most assiduously to the cultivation of a lurid jag in which effort he succeeded beyond his most sanguine expectations. While in the full effervescence of his libations his pugnacious spirit asserted predominance and Thomas longed for trouble to such an extent that people paused on the street to see what his attitude would lead to. About that time Constable Stutt hove in sight and the belligerent attitude of Thomas led him to the barracks. A fine of \$10 and costs or ten days in the fuel refinery was imposed. A friend present came down with the lucre and Thomas went forth rejoicing in his freedom.

Muir Glacier Is Intact.

Alaskan and northern tourists will learn with delight that Muir glacier has not been damaged, but stands today, as for ages past, grand and majestic, the great king of glaciers. Among the passengers on a recent excursion trip was William E. Pearce, of the Pacific Coast company, and in speaking of the glacier, he said:

"The statement that Muir glacier was seriously damaged by the earthquake of a year ago is untrue. It is just as grand as ever, but the trouble this season has been that vessels have not been able to get close enough for passengers to see it. On August 8 we got within four miles of it and I can say it is the same old glacier. The earthquake did take off large masses of ice from the face, and these floating in the bay appear as huge icebergs and block the passage of vessels, but next season the bay will be clear and the glacier can be approached as in former years. The damage by the earthquake is but as a drop in the bucket, or I can better explain its work by saying that it took off the face probably 50 feet, while the main body extends back, visible to the eye, 20 miles.

"The report of its destruction is all wrong. The glacier extends from its face on Glacier bay back to the head of Davidson glacier, which faces on Lynn canal, a distance of 45 miles. All this season Muir inlet has been full of small bergs so that vessels after proceeding as far as they can are forced to back out. On our August trip the surface of the glacier looked to be from 25 to 30 feet high, but in reality it is from 100 to 200 feet high. Next year we will be able to get close to it and will find it just as large and grand as at any time in its existence."—Ex.

A Dangerous Passage.

All along the south side of Third street between Second and Third avenues there is a most dangerous glare of ice on which pedestrians are seen constantly slipping and falling. Some have been seriously bruised. The condition of the sidewalk is due to frozen water which has splashed from the buckets of water carriers.

Storekeepers along the streak of ice complain loudly of the dangerous condition of the walk and suggest that water carriers be compelled to take the road, otherwise someone will be seriously injured.

TO THE LADIES OF DAWSON.

A Grand Opening on Wednesday October 10.

In the stand formerly occupied by Mrs. Lueders, hair dresser, Second avenue. We have just arrived from the East with a \$25,000 stock of fur garments in seal, ermine, Russia sable, chinchilla, mix, stone marten, Persian lamb, grey lamb, etc. All made up in the latest Paris and New York designs. Pronounced to be the finest goods ever coming to this country. Also a line of ladies' tailor made costumes, walking skirts and silk waists. We have also a full line of men's fur goods and tailor made suits in sacks, evening dress, Prince Alberts and overcoats. We cordially extend an invitation to the people of Dawson to inspect this stock. Don't forget the location, next to the S. Y. T. Co., second avenue. A. H. Loughheed & Co., high class tailors and furriers of Toronto, Canada.
