

FUNERAL OF GEO. E. BAXTER

The funeral of the late George E. Baxter took place on Saturday afternoon at 3 o'clock. The large attendance of neighbors and friends showed the high esteem in which the deceased was held. The pall bearers were: James E. Porter, James McPhail, D. R. Bedell, Robert Crawford, Frank Howard and Blanchard Murphy. It was the request of Mr. Baxter that at his funeral the poem, "Thanatopsis" should be read. This was done by the Rev. A. C. Bell, who also gave a short address and read a Scripture selection, Psalm 19.

Appropriate music was rendered, one piece "The Work we Have Done," being a favorite of the deceased. At the grave Rev. S. M. Bowles, of Fort Fairfield, on behalf of the family, read a few favorite selections and the Lord's Prayer was repeated in unison by the assembled friends. There were many beautiful floral pieces. Touching tributes of garden and wild flowers were sent by members of the Women's Institute, of which Mr. Baxter was Honorary President. As a body they did not send flowers, but propose to establish a Baxter Memorial Medal in the Andover Grammar School as a tribute to his memory.

The Liberal Club of Victoria County of which Mr. Baxter was instigator and organizer, sent a beautiful wreath of roses and carnations. Among those who came from a distance to be present at the funeral were Rev. Gordon Fringie of Kintore; F. B. Carvell, M. P. of Woodstock; Isaac Conant and Mr. Churchill of Fort Fairfield; also his sister, Miss Amelia Baxter, of Haverhill, Mass.

Justice of Peace Praises Dr. Chase's Ointment

After Nine Years of Agony He Escaped an Operation by
Using This Great Healing Agent.

As a means of healing sores and wounds that defy ordinary treatment Dr. Chase's Ointment has long stood supreme. It is known far and wide as a positive cure for eczema and piles. Whatever uncertainty there may be about the results obtained by the use of medicines taken internally there can be no question of the healing of the skin when Dr. Chase's Ointment is applied. You can actually see with your own eyes just what takes place. The sore parts are cleansed,

MR. HEATH.

and gradually the new skin is formed and the sore becomes smaller and smaller, until it finally disappears. It is often wonderful the results which are accomplished in a single night by the use of this great healing ointment. Mr. N. A. Heath, J.P., Fitch Bay, Que., writes: "Nine years ago I was taken with an abscess, and cannot begin to describe what I have suffered as a result. I was examined by two doctors, both of whom said I would have to undergo an operation to be cured. Thanks to Dr. Chase's Ointment, it has rendered an operation unnecessary, and has completely cured me. I cannot say enough in praise of this wonderful ointment which cured me after nine years of agony."

Experience of a Movie Actor in the Tobique District

"By Jove!—the best sporting pictures ever thrown on a screen. This is sure the sportsman's paradise"—ejaculated Charles Cremen, an operator of a moving picture camera for a New York concern, after leaving the Tobique district where during a ten day's trip to get pictures, he saw 192 moose, cows, bulls and calves. "The next time I come back here," he said in his enthusiasm "I bring my gun and some of my friends will be along with me, too."

Cremen, who was formerly a Fredericton man, came to New Brunswick with his staff about a month ago for the express purpose of getting the "woods of the province." He went through the Bathurst Lakes district to the Tobique and met most of his successes around Lake Nictau. In that territory he remained for about ten days, and the films viewed a feast for sportsmen's eyes.

"Why," Cremen said, as he started back to St. John on his way home, "the place is so full of game that they can't steer clear of you, and you can't possibly avoid them. We managed to take one immense bull into captivity for a brief time, and one of my assistants mounted his back. The terrified animal swam down the stream with his burden and made an excellent picture for me."

"Moose, moose, moose, great goodness, but the moose thrive there. There's no getting away from it, it's the place for sportsmen."

Mr. Cremen's assistants were even more enthusiastic. He, being a native of the province, was acquainted to a degree with the extent of its big game. They marveled at the country and prophesied that the picture would be a big hit.

No better medium could be found for advertising the country than moving pictures and when these antlered monsters appear on the screen, the eyes of the sporting Americans will pop from their sockets.

As Mr. Cremen expressed it—"Few imagine what game there really is in the province."

The success of the movie men will also serve as a hint to local sportsmen as to where they should make a try.

People in other parts of the province report that big game is plentiful. Traveling men here say that big quantities of sporting ammunition have been sold and they believe that this coming season will find more hunters in the woods than in any season for years.—Ex.

The Oliver Kiding Cultivator stands in a class by itself, by reason of the fact that it is built right, with larger range of adjustments so it can be adapted to do good work under all conditions in the potato field. Oliver quality has a name the world over.

In Aroostook County alone sixty-five per cent. of the Potato Cultivators used are Oliver's. The feature of the Oliver Cultivator that appeals to all farmers who have used it or have seen it at work is the excellent work that this implement does. By an ingenious arrangement the gangs are held parallel, and therefore always cut a uniform distance apart, no matter how far they may be shifted to the right or to the left. On the Oliver Cultivator neither of the gangs leaves an uncultivated strip between the shovels, nor does one gang cut a narrower width than the other when the cultivator is shifted to the side.
