YALDON CASE.

Judge Snider States Case For Coutr

of Appeal. in connection with the reserve cas granted James Yaldon, charged with perjury, Judge Snider has prepared e following statement to be submitted

to the High Court of Appeal: o the High Court of Appeal:

On the 20th of December, 1907, James faldon was tried and found guilty of gambling with dice at the Olympia Club, on the night of July 14. As the indictment does not allege that the prisoner sommitted perjury with intent to deceive or mislead, is the indictment bad? The prisoner went into the box on his committed perjury with intent to decive or mislead, is the indictment bady. The prisoner went into the box on his own behalf and was sworn by the sergeant after the usual manner, "to tell the truth, the whole truth, and nothing but the truth, so help your God," and kissed the Bible. This was done in the open court with the approval of the Magistrate, after which the perjury charge was based. Was the prisoner gave the evidence on which the perjury charge was based. Was the prisoner properly sworn at the trial at the Police Court? Is the Consolidated Statute of Upper Canada, Cap. 104, sec. 3, in force in this particular case? Could the prisoner be convicted of perjury, when the Crown did not produce any record of the trial or the result thereof, in the Police Court where the perjury was alleged to have been committed?

The aldermen also thought well of the suggestion to have the tax office remodelled so that no one except the clerks employed there will be permitted to go behind the counter. In the past almost anyone who wanted to walked in behind the counter, and very frequently when the receiver's cages contained piles of money.
