Provincial Secretary Will be Interviewed on Scheme.

Flooding on John Street South-Tenders Accepted.

At a meeting of the Sewers Committee last night the chairman and city en were instructed to investigate the grievance on John street. In times of heavy rains and floods the celneighborhood of the corne of John and Augusta streets are floode by reason of the inability of the sewers carry off the waters quickly enough

The request for a public sewer of oe street was referred to the city eer to investigate and report.

With respect to the matter of repairs With respect to the matter of repairs on the west end man sewer the committee resolved to petition the Finance Committee to furnish \$500 to patch up the sewer for the present until arrangement could be made for a new one. It was learned from the engineer's report that to obviate the flooding it would be necessary to construct a two-foot-four-inch main from Locke street to the proposed new disposal works, and from that point an open cut across the marsh to Coote's Paradise. A two-foot-sewer on Main street would have to be constructed. The whole scheme would cost \$27,513, excluding the cost of right of way, whereas the cost of repairing the old one would be \$1,800. The members concluded that repairing to that the old one would be \$1,800. The mem-bers concluded that repairing to that extent on an old sewer would not pay, and decided to interview the Provincial

#### A BAD SPOT.

Barton Health Board May Pui Butcher Out of Business.

Barton Township Board of Health will hold a meeting this evening to decide upon what action shall be taken regarding the nuisance in the township juof the city. The matter was left

east of the city. The matter was left in the hands of Dr. Alway last Wednesday at the time of inspection by the Beard, and the members will take whatever action they deem necessary after considering his report.

A matter which will engage the attention of the Board is the condition of some slaughter-houses in the township, Inspector Wilkins has been busy looking after them, and reports the condition of one man's place in particular to be a serious menace to health, the stench caused by the neglected refuse being very bad. The Inspector and Reeve Gage stated yesterday that the man may be prohibited from doing any more butchering. He has been notified and given forty-eight hours to get he place in a sanitary condition, and if he fails to do so the Board of Health will certainly put a stop to his business.

Mr. Gallagher, who owns a lime-kiln mear by, has offered lime to all butchers in his neighborhood free of cost for the purpose of keeping down offensive odors and preventing disease germs from coming from slaughter-houses. The wise lutchers have taken the precaution to disinfect their houses.

Employers and Employees Speak Highly of Him.

More has been learned about Haff De Vunzio, 86 Chatham street, whose case was first reported in the Times last Thursday. It is stated by acquaint-ances that the woman with whom De Nunzio, has been living for a few years past is not legally his wife, though they have two children. De Nunzio first met her in Montreal before he came to Hamilton to live. She is an Italian, but her arents are living in Boston.

parents are living in Boston.

De Nunzio first knew that his legal wife had arrived from Italy by receiving word from her from Cleveland, O. He at once went over there to see her and returned to Hamilton and endeavored to lay his plans to get back to his rightful spouse. De Nunzio offered No. 2 the house they were living in, which is his own, and a cash payment of \$400, but she declined, preferring to stick to him. He, however, returned to Cleveland.

The woman who has passed for his wife loved De Nunzio with the intensity of a woman's love and the two have lived together happily, he being a good, kind father to the children. He is spoken of as capable and honorable in business, and every one of his employees, as well as those for whom he worked speak in the highest terms of him and are sorry to hear of the occurrence. Neighbors on Chatham street comment upon what a gentlemanly man he was.

Mrs. De Nunzio No. 2 is still up at the house on Chatham street.

# COUNTY MAN,

But City Is Asked to Make Provision For Him.

An aplication was made by Hayward to the House of Refuge Committee yesterday for admission to that institution. He is now ill at the City Hospital, and has not the means of selfsupport. For twenty years he was a resident of West Flamboro, and for the past two and a half years has been in the city living with his son, George. The committee looked upon this petition as an imposition on the city. As he had lived most of his life in the county, and spent his means there, they considered it the county's duty to look after him. Too many helpless residents of the county were being dumped on the city's hands, the members thought, and it was time to stop the practice. Several wished to refer the petition to the county fathers, but finally decided to instruct the relief officer to make terms with the applicant's relatives for his maintenance at the House of Refuge, if possible; if this cannot be arranged the case will be referred to the county. For twenty years he was a

## YORK STREET.

A Kick From the County About Its Condition.

Mr. W. E. Airth, a general merchart at Waterdown, was in the city yesterday asking for a consultation with the Greater Hamilton Association. His object was to discuss the condition of western York street, which he says is very bad. According to Mr. Airth, it is impossible to bring a load of market goods over a portion of the street without having it all shaken to pieces. He thinks the city should do something in the way of repairing the street, both for the producers' and consumers' benefit. There is a great amount of traffic over the road, and "enough money passes over it in a year to pave the road-bed with gold," is the way he expressed it. As this is one of the main thoroughfares by which farmers and gardeners cuter the city, it should receive special consideration.
