THE EXPERIENCE OF A LADY WHO HAD GIVEN UP HOPE.

Tortured with Pains in the Stomach for Four Years—Doctors and Hospital Treatment Failed to Help Her—In Her Extremity Dr. Williams' Pink Pills Restored Her to Health.

From the Pembroke Observer.

Wherever man is to be found there also, side by side with him, is disease and suffering. Those who have devoted their lives to the alleviation of the suffering and bodily weakness of human organization are surely benefactors of their kind, and deserve the respect of all mankind. For special honors in this line may be pointed out the discovery of that wonderful remedy, Dr. Williams' Pink Pills for Pale People. Recently the case of Mrs. Maggie Brunette, of Chichester, Que., came prominently under the notice of the Observer reporter.

Her illness is to be dated from the hearing of Mrs. Brunette's husband, from "pressure" on his health. It is interesting to note that she is a native of the same place as the reporter, and that she is now in the hands of the Pembroke Observer.

The reporter was warmly welcomed and Mrs. Brunette said she was very glad to have the opportunity to testify to the good effects of Dr. Williams' Pink Pills for Pale People. She is 44 years of age, and has been married 14 years. Her husband died 14 years ago, and after she had been widowed very long for some years, with the result that she became completely run down, so much so that, although quite well, she weighed only about 70 pounds. Her husband had been dead for some time, and she had been unable to get on her feet for some time. She had been in bed for some time, and she had been unable to get on her feet for some time. She had been in bed for some time, and she had been unable to get on her feet for some time.

By three o'clock half a dozen men were in flames and the fire was spreading. From that time the flames were carried through the roof on dry roofs of other buildings. Fires were started in several places.

The fact was soon apparent that the business portion of the town was in flames. Merchants quickly saw the danger, and books, valuable documents and money were first secured. Attention was then directed to assisting in the removal of the flames from the buildings.

A building would be entered from the street or from the rear, and without a sign of fire above. A painful later a burning brand was thrown on the roof and the inevitable was the result.

SPOILED MATERIALS.

Well Known Druggist Gives His Experience.

A successful and well known Canadian druggist said recently: "I know from experience that it means to sell dyes that have been spoiled or established reputation. A year ago I put in a small quantity of Dyes. I had heard of them from three or four persons for whom they saw advertised, and I was under the impression the demand would increase. In a year's time I had probably from twenty to twenty-five packages, and had so many complaints from disappointed women who had spoiled good materials and garments with these new dyes that I banished everyone else from my back storehouse, and I sold no other make of dye in business. What a tale could women about spoiled goods tell if they were not so cheap and true!"

statement from an old established druggist has its notes of warning. His long and extended experience is in favor of the Diamond Dyes. There are too, hundreds of other druggists and dealers and some of thousands of women who would give clear and convincing testimony that Diamond Dyes are far ahead of all other dyes in purity, strength, fastness, color, brilliancy and beauty.

As long as there are imitation and adulterated dyes sold, it is well that all should know the difference. The "Diamond" when they dye for home dyeing, and all some is on each package.

COOK'S ANODYNE LINIMENT.

Paris, Jan. 12.—An exciting time in the Chamber of Deputies was expected to-day and extensive police measures were taken in and about the Palace Bourbon in view of possible disorders.

The evident tendency abroad to minimize and even ridicule the declarations of M. DeBeausseire, the former president of the civil section of the Court of Cassation, is regarded here as a further example of the disposition outside of France to belittle every incident and all evidence unfavorable to the Dreyfus case.
