

300 TEAMS ON C. N. R. LINE INTO THE GRANDE PRAIRIE

CONSTRUCTION WORK PROCEEDING SWIFTLY BUT SILENTLY INTO NORTHWEST.

G.T.P. to Build in From Edson

C. N. R. WILL HAVE STEEL LAID 84 MILES BY THE END OF THE YEAR.

Swiftly but silently, while speculation is rife as to when the first line of railway will be built to the Peace River country, the Canadian Northern is pushing ahead a branch from Edmonton to the Grande Prairie.

Steel will be laid to a point 20 miles beyond the Pembina river to the west from Edmonton, Grande Prairie.

One hundred teams have been working on the grade northward from Onaway to the Pembina river for the last six weeks, and at the end of the present week 200 additional teams will be employed.

Steel bridge over Pembina, steel bridge is now being constructed across the Pembina river which will be about 3,000 feet long and 70 feet above high water.

The Pembina river being crossed this fall, it is not improbable that the energy and enterprise the C. N. R. is noted for, the grade and perhaps the steel may be carried as far as the Peace river before the end of next year.

Grand Trunk From Edson, The Grand Trunk Pacific railway in a few weeks time will break ground on a branch line to the Peace river from a point west of Edmonton.

Condition of Republican Wing, and Democratic Party in the Province Measured After Sweeping Aside Host of Amendments Which Were Voted Down.

Washington, Aug. 2.—The Democratic tariff program was moved up closer to President Taft today when the senate by another remarkable coalition of Democrats and Republicans inaugurated a measure.

Boy Burned to Death, Grande Point, Man., July 25.—While his father was at work in the fields and his mother was tending her garden, William Alexander Matthews, three years of age, was burned to death today, when his home was completely destroyed by fire, his body being found in the ruins of the completely demolished house.

RUSSIA ANNOUNCES HERSELF ON THE SIDE OF FRANCE IN MOROCCAN EMBROGLIO WITH GERMANY.

St. Petersburg, July 31.—After a widespread suspicion has existed for some time that Russia might take up a position of diplomatic indifference in the Moroccan imbroglio, the state department has descended wholeheartedly on the French side of the fence.

It is said in diplomatic circles that Russia has been founded to see how far she will go in developing the triple entente into a military convention, a policy instituted by M. Ivalsky, the former foreign minister, when the late King Edward was shaping the reconciliation of England and Russia.

Canada Must Become the Strategic Centre of Empire

REV. DR. GILFILLAN, EMINENT DIVINE, INTERVIEWED ON RETURN FROM CANADA—BELIEVES RECIPROCIITY WILL PASS—HAMAR GREENWOOD SCORES LORD HUGH CECIL.

London, July 31.—Dr. Gilfillan, interviewed, predicts that Canada will become not only the strategic centre of the Empire's development, but also to a very large extent of the development of the North American continent.

The Tariff Reform Association has issued a denial to the rumors that it would contribute to the Canadian Conservative campaign fund for the purpose of fighting reciprocity.

The Chronicle's Melbourne correspondent cables an interview with Premier Fisher, declaring that his alleged interview with Stead was a genuine misrepresentation.

Hamar Greenwood has described the makers of last Monday's disturbance in the first division of the Peace river before the end of next year.

The Morning Post, agent the naval memorandum, says that is now issued in a form which is based upon the exigencies of the three Democratic governments, but that it will probably be revised in accordance with the exigencies of the situation.

Eight Inmates Burned to Death in Hamilton Asylum, TERRIBLE FIRE IN EARLY MORNING IN INSTITUTION FOR THE INSANE—SPLENDID COOLNESS AND BRAVERY OF OFFICIALS SAVES MAJORITY OF THE 1,000 INMATES.

Hamilton, Ont., Aug. 1.—Fire early this morning broke out in the top floor of the main building of the Hamilton asylum for the insane, which is located above the city on top of the mountain, caused eight deaths, the injury of many others, some of whom are probably fatally hurt, and threw hundreds of patients into hysterics before the flames were controlled.

The fire started in the storeroom near Hall D, on the top floor, and spread rapidly. Night Watchman Fred Bassa, who discovered it, turned in an alarm for the asylum department, and this was followed by a hurried call for the city brigade.

Three other city companies and a steamer were sent up. By the time they arrived the top of the building was a roaring mass of flames. Hundreds of people from the city, who were attracted by the red glare that lit up the sky, witnessed a series of spectacular and heroic deeds.

Two appointments to Normal School Staff, R. H. Roberts, M.A., of Edmonton High School, and W. G. Carpenter, Principal of Calgary High School, are named by Department of Education.

Two appointments to the staff of the Normal school at Calgary were announced by the department of education Saturday. R. H. Roberts, M.A., mathematical master in the Edmonton High school, has been appointed lecturer in the history of education and methods in higher mathematics.

WHAT ABOUT IT?

The Journal last evening published a front page article of a column length purporting to set forth the focal political situation, in the course of the article appeared the following paragraph:

Like death, elections always come suddenly. They may be expected, but they are never anticipated. Only politicians who appeared to have been previously well posted seemed able to explain that because of the Frank Oliver charges the Dominion government was practically compelled to dissolve parliament to save disclosure of evidence which it is pretty well known will be brought to light by the committee examining into the Oliver charges.

Immediately following this article was published the following despatch: Special to The Journal. By Fred Cook.

Ottawa, July 31.—A report has been current all morning that Oliver was so mad at the cabinet meeting Saturday because he was not whitewashed before the formal act of dissolution that a big row resulted.

Oliver says he is not going to quit. This on the same page, and in the adjoining column, appeared:

1. An explicit declaration from the special Ottawa correspondent of the Journal that Mr. Oliver was "mad" because dissolution had not been postponed before the House was dissolved; because he had been investigated;

2. An explicit declaration from the Journal that parliament had been dissolved to prevent the committee investigating the accusations against Mr. Oliver.

It is apparent from this that if the local Conservatives allow the Journal to set the course of their campaign it will be a disaster.

It is no part of the Bulletin's business to counsel the Conservatives of Edmonton. But it is only fair to say to them that if they are to be prepared to take the responsibility for their utterances, they cannot expect to reap the benefit.

It is up to the self-respecting and respectable members of the Conservative party in the city. If they approve of this kind of warfare and wish the fight waged in this fashion, so be it. But if, as the Bulletin believes, that party is composed of honest and fair-minded men, who wish to deal with a political opponent as they under similar circumstances would desire to be dealt with, then it is the duty of these to make clear that the Journal does not speak for them nor set the fashion they wish to follow in political controversy.

TWO APPOINTMENTS TO NORMAL SCHOOL STAFF

R. H. Roberts, M.A., of Edmonton High School, and W. G. Carpenter, Principal of Calgary High School, are named by Department of Education.

Two appointments to the staff of the Normal school at Calgary were announced by the department of education Saturday. R. H. Roberts, M.A., mathematical master in the Edmonton High school, has been appointed lecturer in the history of education and methods in higher mathematics.

Winifrey, July 31.—The assessment of business enterprises in the city which are not taxed in the ordinary way, was made today. The total assessed has increased three-quarters of a million over last year and now stands at \$4,927,457. The levy on this is 6 1/2 mills or \$268,165.

Canadian Cruiser Niobe Has Rent in Her Hull 25 Feet Long and 10 Feet Wide.

Halifax, N.S., Aug. 2.—The damage caused to the cruiser Niobe, when she ran upon a rock near Cape Sable turns out to be much more serious than at first reported. The divers are having much trouble in making temporary repairs.

One of the holes in her hull is reported to be twenty-five feet long and ten feet in width. The Niobe lies in a sheltered spot in Clark's harbor. The pumps are kept working incessantly, but the water in the hold is gaining slowly and the ship seems to be settling at the stern. Only the resistance of the second bottom saves her from sinking. Pumps and bilges are being rushed to the crippled warship.

Fear Effect of Increased Representation in West

CONSERVATIVE OPPOSITION URGED BY INTERESTED CORPORATIONS WILL FORCE DISSOLUTION AND APPEAL TO COUNTRY ON RECIPROCIITY BEFORE REDISTRIBUTION

Ottawa, July 28.—The second week-end since Parliament assembled finds nothing done. All week the government has persistently pressed the progress of legislation they will be able to force through, while the Opposition has evaded the issue by obstruction. Hour after hour the Opposition's obstinate resistance has impeded the possibilities of reciprocity and redistribution by talking, filing newspaper clippings and other manuscripts from which they read by the hour.

The announcement that the census returns are not likely to be completed before October has led them to hope that by obstructing the progress of legislation they will be able to force an appeal to the electorate before redistribution gives the great west the additional representation to which it is entitled.

During the past week the House has sat for some thirty-one hours, and only a few bills have been passed. In an effort to get on, the Government has insisted on the Government side have only occupied some two hours.

In an effort to get on, the Government has insisted on the Government side have only occupied some two hours. In an effort to get on, the Government has insisted on the Government side have only occupied some two hours.

It is significant, in view of the fact that the people are waiting to give them exactly the reception they deserve, if we could do this, we would feel that we had served our country well.

On the same day, Mr. J. D. Taylor devoted some four hours of time and forty-five columns of Hansard to asking for information concerning the report of Mr. Justice Murphy on the administration of Sir John A. Macdonald.

SLIPS FROM LOG AND IS DROWNED

EDWARD DUNLEAVY, LUMBER COMPANY EMPLOYEE LOST LIFE IN RIVER.

(From Monday's Daily.) Edward Dunleavy, an employee of the Edmonton Lumber company, lost his life in the Saskatchewan river late Friday afternoon. The man fell into the river and for a moment was lost to view. When he arose to the surface Dunleavy made frantic efforts to catch hold of a log floating down the stream. The log rolled over and over, preventing the unfortunate man securing a hold.

At last wearied by his futile efforts to hold on to the log, Dunleavy fell back and was seen to disappear in the water. A fellow-workman ran to the aid of the drowning man, but could not reach him from the boom and logs in that vicinity.

Realizing that quick action was necessary if any assistance was to be rendered, boats were immediately brought into requisition and rowed to the spot where Dunleavy sank. No trace of the body was found.

The drowning was reported to the city police in Strathcona, and in turn to the Mounted police. Little is known about Dunleavy, who was apparently 35 years of age. He came to Edmonton recently and entered the employ of the lumber company just one week ago. A memorandum book found in his coat indicated that he came from Dayton, Wyoming, a little town in the northern part of Sheridan county that state. Whether he had relatives in this country had not been ascertained.

Harvest help is so scarce up to the present time that the problem is giving Alberta farmers no little concern. While the prospects seem more encouraging for the coming year, the farmers are out of employment and the conditions are the most different in western Canada, farmers in this district will feel much easier when the workmen are actually on the ground and ready for business.

With a little sunshine in the next two or three weeks, the crops promise to be the best ever raised in the province. With one exception, and that is for a narrow strip of country adjacent to the coast, eighteen miles north of Edmonton, where the recent hail storm did some damage, every district tributary to this city reports a tremendous yield of everything that will grow and mature in the richest soil on earth. The oat crop suffered the greatest damage in the Bon Accord district, but this was the only place where the hail did any special damage.

An immense potato crop is promised. The incessant rainfall has kept the potatoes growing until their size is about the best ever raised in the province. With one exception, and that is for a narrow strip of country adjacent to the coast, eighteen miles north of Edmonton, where the recent hail storm did some damage, every district tributary to this city reports a tremendous yield of everything that will grow and mature in the richest soil on earth. The oat crop suffered the greatest damage in the Bon Accord district, but this was the only place where the hail did any special damage.

The maturing of other vegetables, so long as it is every home, has been retarded from the same cause. The situation will, however, change for the better in a few days and will have been grown heretofore. At the same time the wet weather has retarded the ripening of potatoes all over the province, so that new potatoes are still comparatively scarce.
