porated on July 29th last, and offices had been subscribed to begin operations, which have been continued up Juke's Seam, 135 feet below the level where the seam outcrops. Over 250 tons of coal have been taken out. At the commencement of operations, where the seam was opened, the vein and wno, after minds to of coal was 4 ft. 9 in. in width. To is 5 feet 4 in. and every week is inpeen used here, and the coal is said to have better burning qualities than Then there any now being imported. In addition to the 250 tons taken out, there is a solid body overhead, measuring some 5,000 tons. By the first of May, it is hoped the tunnel will be completed to provement in the coal be maintained,

the body overhead will have increased to 14,000 tons. Negotiations are to write it, further than underway with the Government for the purpose of obtaining concessions which will mean much to the facilitating of full development of the area. The shareholders in developing a reart of America; and to have source which means much to the future, are worthy of encouragement all in Simple regarded as the stepping stone from test the faith the Eastern to the Western World, cross that and it is safe to predict that the ashave bowed down many sured possibilities which await the complete development of St. George's as she told her tale—for it | Coal Fields must bring industrial and commercial prosperity equalling, if victory, and by her frank- not outclassing, our greatest indus-

THE CAR OF QUALITY is "THE DODGE."

Dodge Bros. motor car, since its introduction in the motor world, has given universal satisfaction, and is regarded as one of the best cars on the road. Everything entering into its manufacture is of the best and the Company's policy has always been "Is it good enough for the Dodge?"

It is not the extreme freakish one year car, but sensibly built to give years of service and always to look good. Real leathery upholstery, 116 inch wheen base, one man top, 32 x 31/2 tires (rear non-skid), electric starting and lighting, all attest to the fact that the car is built to a standard and not down to a price.

If you are thinking of buying an automobile, it will be worth while to see the

General Motor Supply Company,

WHY

Should You Buy A 'Champion' Engine?

Because The "CHAMPION"

Is built for you, Mr. Fisherman, to be used in YOUR boat

BECAUSE the "CHAMPION" is built in Newfoundland by the best oil-engineers in the country.

BECAUSE the "CHAMPION" is built to run on KERO-SENE; it is not a made-over gasolene engine.

BECAUSE it is fitted with the most complete and troubleproof equipment that can be procured.

IF YOU have an engine now, sell it and buy a "CHAMPION," the only REAL ENGINE for a good fishing boat.

NEWFOUNDLAND-MADE FOR THE FISHERMAN'S TRADE.

Write to-day for the "CHAMPION" Catalogue, which describes this engine. Ask for terms if you need them.

Remember:--ORDER EARLY.
