MARKET REPORTS

State that there is no surplus of Anthracite Coal in U.S. The shortage caused the strike of Anthracite miners last year has not been made up, and American coal will, in all probability, be hard to get and high priced. Coke is an excellent substitute for hard coal, and have on hand a stock of that will soon be disposed of, because a shortage of hard coal invariably creates an increased demand for our product. We advise our customers to book their requirements as soon as possible.

LEAGUE HAS NO AUTHORITY IN PRESENT CONFLICT.

GENEVA, Sept. 5.—Italy to-day challenged the right of the League of Nations to intervene in the Graeco-Italian dispute, when her spokesman, Signor Salandra, declared that the conflict belonged solely to the domain of the Inter-Allied Council of Ambassadors and did not fall within the competency of the League. This announcement created immense sensation in the Council Chamber, which was crowded.

THE PRINCE GIVEN AN ENTHUSIASTIC SEND-OFF.

LONDON, Sept. 5.—The Prince of Wales was given an enthusiastic send-off as he left Waterloo Station for Southampton to embark on the Empress of France to sail for Canada. He has become for the time Lord Renfrew, but his reception at the station was none the less enthusiastic, for he was still the smiling prince to them. Departure was thoroughly informal and no official send-off was given the heir apparent.

BANKERS THINK GERMANY WILL GIVE IN.

BERLIN, Sept. 5.—Germany has arrived at the end of her tether, so far as her ability to finance passive resistance is concerned. This is the current impression in banking circles which expect that Germany in the course of a few days will take the initiative in the direction of proposing that official discussions be begun with the French and Belgian Governments.

PROSPECTORS ARE NOT ENTHUSIASTIC OVER STAG BAY.

SYDNEY, N.S., Sept. 5.—George Winston, a prospector, who with several other veteran gold hunters, returned yesterday from Stag Bay after a fruitless search for the treasures thought to have been available in the frozen soil of the Labrador coast, declared there was not enough gold there to cover a penny, and he intimated that a number of the disappointed prospectors are preparing to bring legal action against the promoters from whom they bought claims with a view to recovering some of the money they took from the enthusiastic believers in the boom.

A LONE VOYAGER REFUSES ASSISTANCE.

NEW YORK, Sept. 5.—Eighty-four days out from Gibraltar alone in a battered 35 foot sloop, in heavy seas, about 200 miles of Nantucket Light, F. Gerbult, a French seaman, on Wednesday refused tow to a sloop offered by the Greek liner Byron. The lookout on the Byron saw Gerbult standing clad only in underwear, despite the bitter cold and rolling seas on the deck of the diminutive craft waving his arms furiously and shouting in French. After explaining he was crossing the ocean on a bet of five hundred thousand francs, bound for New York, the hardy Frenchman asked that his empty water-tight and foot-bins be filled. He took his bearings as furnished by the Greek navigators but refused their offer of aid and went their way.

MINERS GO ON STRIKE IN CALGARY.

CALGARY, Sept. 5.—Two thousand Drumheller and Wray coal miners at a mass meeting at Drumheller last night declared to remain on strike until James Conroy, one of their number, was reinstated. Charges of discrimination were made against the Drumheller Valley operators and the miners declared they would remain out until any men blacklisted were reinstated.

COUNCIL OF AMBASSADORS DE-CLAY ACTION.

MINERS IN RUHR RETURNING TO WORK.

ESSEN, Sept. 5.—Mining difficulties in the Ruhr apparently have been settled without the necessity of intervention by the Government and work has been resumed in all Essen mines but one, and in most of the other mines in the Ruhr district the men are returning to work of their own accord.

THE DEVASTATED AREA.

LONDON, Sept. 5.—A Reuter despatch from Osaka, dated Tuesday says that judging from all available reports the earthquake affected the following ten prefectures: Tokio, Kanagawa, Shizuoka, Chiba, Yamanshi, Saitama, Ibaraki, Nagano, Guma and Tochigi. The total area affected was 20,000 square miles with a population of fifteen million. This area includes large cities like Tokio, Yokohama, Yohaihi and foreign tourist resorts like Kamakura, Hakone and Nikki.

MOST BEAUTIFUL ISLAND DISAPPEARS.

SAN FRANCISCO, Sept. 4.—Every report from Japan throughout Monday either confirmed or increased the previous estimate of havoc wrought in death and destruction by the quadruple catastrophe which

UNEMPLOYMENT IN SOUTH AFRICA.

LONDON, Sept. 5.—There are one and fifty thousand unemployed and destitute Europeans, according to a letter from the Committee of unemployed men in South Africa to Tom Mann, Vice-President of the Workers' Union here.

TIDAL WAVE REBOUND.

LOS ANGELES, Sept. 5.—Ground swells, twenty feet high, larger than any in the experience of mariners at Los Angeles harbor, struck the Southern California coast early this morning, and were believed to have been the result of the earthquake and tidal wave which devastated parts of Japan. The swells broke completely over the fifty foot breakwater and carried away all loose objects.

THE PRINCE'S TRIP.

LONDON, Sept. 5.—When the Prince of Wales sails for Canada on Wednesday he will be accompanied by three members of his suite, General Frydler, Sir Godfrey Thomas and Major Medcalfe. The report received to-day in San Francisco said the Imperial Palace was being guarded by one regiment of infantry, a battalion of Engineers and the Imperial Division.

ESTIMATED LOSSES COLOSSAL.

OSAKA, Sept. 5.—The most reliable estimates of death up to the present reach as high as between 3 and 5 hundred thousand. Details of geographic changes are lacking, but it is known that islands have disappeared and new islands have sprung up where once there was deep navigable waters, and long familiar lands have disappeared under the waters, rivers have changed their courses and volcanoes are erupting.

ANOTHER ESTIMATE.

SHANGHAI, China, Sept. 5.—Reports here regarding the loss of life in the Japanese tragedy give even more alarming figures than previously, the latest estimate to the Eastern News Agency from Osaka, claiming at least 320,000 dead in the whole devastated area. Reports state that fire in Tokio died out at dusk last night.

CLAIM FIGURES TOO LARGE.

MOSCOW, Sept. 5.—Reports reaching here this afternoon from the Far East claim that previous estimates of loss of life in the Japanese disaster are greatly exaggerated, and that the total killed would not exceed a hundred thousand.

JAPANESE STEAMER IN DISTRESS.

SAN FRANCISCO, Sept. 5.—The Japanese liner Taiyo Maru, said to be the largest steamer sailing out of any United States Pacific port, sent out S.O.S. signals from a point off the coast of Japan at four this afternoon. No particulars of her fate have been received.

IGNORED NEUTRALITY OF CORFU.

LONDON, Sept. 4.—Italy is holding Corfu, which commands the Adriatic, as a pledge for Greek reparations and is waiting grimly for Greece to comply with her ultimatum. Greece having applied to the League of Nations is also waiting and Italy thus far has ignored the protest of the Council of Ambassadors

Saturday befell the Central and Eastern section of Honko, the largest of the islands of the Japanese Empire. Beginning noon Saturday with a series of quakes which rased most of the City of Tokio and large sections of Yokohama and numerous other towns and villages, the disaster was followed by a tidal wave and fires which broke out in scores of places. Then came a typhoon adding to the terror of the tragedy which is probably the greatest calamity of modern times. Estimates now place the dead at two hundred thousand and some say even more than that. A million at least are homeless, half the city has been levelled with enormous loss of life, while the city of Yokohama suffered as badly. The damage done to shipping, the extent of which it is impossible to ascertain, was caused by tidal waves and the typhoon. New shocks on Sunday night destroyed houses at scattered points. From all directions in a radius of fifty miles comes an ever increasing list of places that have been visited either by fire, earthquake or tidal waves. Koshima (Picture Island) said to be the most beautiful Island in the world, has disappeared under the sea or been changed into a pool of mud. Many volcanoes are active and vomiting smoke and lava. Adding to the horror of this situation. At least one hundred thousand tons of rice are needed at once to relieve the starving. Hunger has already broken out in Tokio where ransackers were forced to use their weapons, fighting back the crowds who wanted food supplies.

ROYALTY AMONG THE SLAIN.

NAGASAKI, Sept. 4.—Prince Shimadzu, formerly of the great house of Sanyama, is reported to have been killed in the disaster. Several others of royal blood are also said to have lost their lives or to have been injured. The death of Prince Masayoshi Matsukata, former Premier and Minister of Finance, is reported here. The Prince died of injuries sustained in the earthquake.

ROYAL VICTIMS.

WASHINGTON, Sept. 5.—The Emperor and Empress of Japan as well as the Prince Regent, escaped injury, and are safe and well, according to a message received to-day by the Japanese Embassy from Tokio. The message added that Princess Yamashina, Princess Hirokanin and daughter, Prince Kanin and Prince Moromasa, Hirasakuni, all members of the royal family who were staying at a summer resort were killed.

NEW VOLCANO ACTIVE.

PEKING, Sept. 5.—A new volcano has broken out in the Chichidzu Range about fifty miles Northwest of Tokio according to advices from Osaka.

AMERICAN RELIEF MEASURES.

WASHINGTON, Sept. 5.—Inauguration by the Red Cross of a five million dollars campaign for relief of Japanese earthquake sufferers was announced to-day by Elliot Madeworth, Treasurer of the Organization, after a conference with President Coolidge, Secretary Hoover and Japanese Ambassador Hanmura. All United States Shipping Board vessels in Far Eastern waters have been ordered to place themselves under the direction of Admiral Anderson, commanding the United States Asiatic fleet, for relief duty.

20 WERE KILLED.

ATHENS, Sept. 4.—Colonel E. Lowe, of St. Louis, member of the Red Cross attached to the Near East relief station at Corfu, reports that twenty were killed by the Italian bombardment during the naval occupation of the Island. Sixteen children were among the victims, being killed when shrapnel shells exploded on the beach where they were bathing near the old fortress. They were orphan refugees. Thirty-two people are

MUSSOLOINI'S THREAT.

SOME ARRESTS.

ATHENS, Sept. 4.—Three shepherds who were near the scene of the murder of the five Italians, members of the Graeco-Albanian Boundary Commission have been arrested. One of the men is said to have seen the actual killing; the other two saw six Albanians answering descriptions of the murderers, given by eyewitnesses, crossing the Albanian frontier. The Greek Government has offered a reward of 1,000,000 drachmas for information leading to arrest of the murderers.

CORFU'S PITIABLE FLIGHT.

CORFU, Sept. 5.—With their meagre belongings piled about them hundreds of inhabitants whose quarters were made uninhabitable by the Italian bombardment, are sleeping in open squares and in forests. The wounded are being treated in Near East relief hospitals.

PRECAUTIONARY ARRESTS.

ROME, Sept. 4.—New precautionary arrests have been made on the island of Corfu by the Italian occupying forces, and the Governor has divided the island into zones which are presided over by

against her action in seizing Corfu. Prospects for an early settlement have improved. The Italian Government takes the stand that it did not sign the treaty of 1864 confirming the neutrality of Corfu, and therefore is not bound by the treaty. Mussolini has instructed the Italian representatives at Geneva to abstain from further discussion of the affair and the only hopeful aspect is that Italy seems disposed to have the Court of International Justice pronounce upon the League's competency to deal with such an international dispute. Great despondency prevails in Athens where the fact that Italy was able to quickly land fifteen thousand troops is considered proof of Mussolini's determination. The occupation seems complete and the Italians are organizing as though for a long stay.
