The Ten Dollars you spend to-day for an Accident Policy, may be the best investment of your life.

During last week SIX claim checks were paid on ten dollar policies. They totalled \$382 or an average of \$63 for each \$10 premium. Stop and consider what a serious injury may mean to you! Don't look at the \$10 as an expense, but keep in mind the big PROTECTION it buys for you. The premium will look very small to you when your accident happens.

Butch SEALED TO PROTECT. Buick chassis is sealed. Iron and steel housings protect the operation of all driving parts—seal them in to safeguard Buick performance.

Some cars have some of this protection, but only Buick has a wall of defense continuous from fan hub to rear axle against road dirt, stones, water and loss of lubricant. Only Buick's close co-ordination of driving units and Buick's torque tube drive make possible this important improvement.
