BIG PRICES FOR SCOTTISH CATTLE. What the North British Agriculturist calls a "record" sale of young Shorthorn bulls was held Oct. \$8, at Tillycairn, in the old Meldrum district of Scotland, by Messrs. Wm. Duthic, of Collynie, and W. S. Marr, of Uppermill, 47 head fatching a total of £2,574 18s, an average of £61 3s 4d, or nearly \$500. The Collynie consignment of 24 averaged £79 8s 1d, or say \$386. Our contemporary remarks:

"These averages are the more remarkable in view of the fact that the animals sold were only about six months old. Nothing like the Collynie average has ever been realized since the famous Dunmore sale, when the boom in the Duchesses was at its height. Time was, and that not so long ago either, when English Shorthorn breeders set themselves to

and that not so long ago either, when English Shorthorn breeders set themselves to boycott Aberdeenshire Shorthorns. But the supreme merits of the stocks reared by the grand old man at Sittyton could not long be ignored, and of late years a large proportion of the best and highest priced animals exposed at the annual draft sales at Collynie have been secured by the leading English breeders. These animals have done so well in Fingland, where they have sired the great majority of the most famous prize-winners of recent years, that yesterday the English breeders turned up in force and carried off the greater portion of the best animals exposed.

and for several hours the archdeacon lay in the open air. He recovered about 2 o'clock sufficiently to awaken his wife. Dr. Arnott was summoned, and found that Mr. Marsh had sustained a severe sprain of the right elbow and also several bruises on the face. The physician is confident that Mr. Marsh was not overtaken by a fit, but merely tripped and fell, causing unconsciousness.

Over the News of Russian Aggression in the East.

Great Activity in the Foreign and Admiralty Offices.

A Genuine War Scare—Britain Has Her Hands Full.

London, Oct. 25.-The news of Russia's designs in the east has caused great excitement here. The afternoon papers of this city all publish long articles agreeing that British interven-

tion in the far east is necessary. The St. James' Gazette says: "Even war with Russia would be less disastrous than to allow her, without a blow, to get such a grip upon China. She could threaten all the other powers and choke off their commerce. Unless Russia and China give the necessary assurance, it is a case for an ultimatum, and perhaps the most serious step our diplomacy has had since the

Crimean war." The impression is general in the official world, and it is re-echoed by the press, that neither America nor Germany can allow the Pacific to become a "Franco-Russian lake," as the Globe puts it, and it is generally thought that the diplomats will be sufficiently strong to combine to resist the Rus-

sian aggression. The Pall Mall Gazette sums up the startling cables from the far east with the statement that "Russia has annex-ed China," and in the course of a long Squire Henry, Richard and Jeremiah, of Lobo; Samuel, of Cass City Mich., and Mrs. Gazette urges the re-occupation of the Subject adds: "If this treaty is to stand, roll up the map of Asia." In conclusion, the Pall Mall David D. Smuth of this situation of the subject adds: "If this Gazette urges the re-occupation of the subject adds: "If this Gazette urges the re-occupation of the subject adds: "If this situation is the subject adds: "If this stand, roll up the map of Asia." In conclusion, the Pall Mall Hamilton by the British and the immediate strengthening of the British fleet in Chinese waters, less Japan lose her fleet at the first blow."

Since this important news was circulated, the greatest activity has been displayed in the Government offices here, particularly at the Foreign Office, and at the Admiralty, and the coming and going of messengers was continuous throughout the morning and business hours of the afternoon. At the different clubs the "war scare" in the east is eagerly discussed, the grave situation of affairs in Venezuela having almost completely dropped out of recollection in the alarm of the moment. Nobody seems to doubt the report that by the recently agreed upon Russo-China treaty, Russia has obtained rights, to which the most favcred nation is not applicable, which may cause a great war. Naturally, the public mind will be in a state of great unrest until some official utterance either denies or confirms the important announcement, which would leave Great Britain with her hands full of trouble, large and small, including the dispute with Brazil regarding Trinidad, the serious misunderstanding with Venezuela on the subject of the boundary lines, the expedition prepar-ing to reduce the King of Ashanti to submission, the still more serious state of affairs in Armenia, the unsettled state of the Egyptian question, and now, the grave condition of affairs in

the far east. LAURIER'S HOME-GOING. Montreal, Oct. 25.—It is proposed to give Mr. Laurier a grand reception here on his return from his Ontario
