Rev. J. E. Dickie, pastor of the American Church in Berlin, when in Augsburg, Germany, found a little city in the heart of the city, that was shut in all by itself with two gates, and is called the "Fingert." It is so called because the two houses within it were all built with money left by Fingert, the wealthy sixteenth century banker, who has been called the J. P. Morgan of that country. When he died, he directed that these houses should be built and then given to poor aged families for a home and 12 friends rental a year, that is, exactly one American dollar. They have four rooms and kitchen, with a little front garden and a little garden behind.

LONDON TOWNSHIP BEAT WESTMINSTER

Rival Vegetable and Fruit Association Members at a Banquet.

An interesting competition with a view to increasing the membership of the Ontario Vegetable and Fruit-Growers' Association has been waged for the past month between rival teams from the townships of London and Westminster.

The conditions of the competition were that the losing team were to treat the winners and their friends to an oyster supper.

The greatest enthusiasm prevailed during the contest, and as a result there has been a large addition to the membership.

London Township, rivals of Westminster in tug-of-war and other friendly competitions during a period of many years, again held their supremacy, by defeating the Westminster team in this case.

The event was celebrated in good style last night, when the Westminster men tendered their successful rivals a supper at a downtown cafe.

Frank Glass, reeve of London Township, by request, occupied the chair, and the evening was enlivened with an interesting programme of music and song by Sandy Brennan and his orchestra.

R. C. Brooks, captain of the team from London Township, responding to their toast, expressed his pleasure that his team won, and if a similar competition was indulged in next year, London boys would try and repeat the success they had won in 1911.

W. Baker, captain of the Westminster team, said his team intended to reverse matters next year. The contest had resulted in much good to the association, in the large increase in membership. The losing team, he said, were entitled to some credit, as their energy had spurred the London team to work.

Addresses were given by Wm. Trot, president of the association, and by Messrs. Fred Fuller, N. Sanderson, John Moulton, George Bycroft, Richard Denigale, Wm. Johnson, Arthur Cody, B. Dawson and others.
