at issue settled without a break.

and other supplies from the United States to the Allies, the latter would regard it as a disaster. They are not now dependent on American munitions, but there are large contracts still unfilled, and the steady receipt, at regular interval, of the articles ordered has been calculated upon in their plans. Failure on the part of the United States firms to fulfill these contracts would be the cause of grave inconvenience and might conceivably bring about delay in

anticipated offensive movements, Apart from ammunition, the Allies have let huge contracts for canned meat, vegetables and other food-stuffs to American companies, and on these, to some extent, the soldiers rely for their daily rations. Any interruption in shipments would work hardships to those who are fighting for the libertles of Americans as well as for those of Europeans.

Canada, too, would feel the effects. Although not depending on her neighbor for foods to eat, she does derive most of her coal from across the border, and with autumn here and winter draw-N AN article in the Nineteenth Cen- ing perilously close a shortage in this tury, Francis Gribble takes up the commodity is not a pleasant outlook. must have the product of the mines to He shows up many brutalites inflicted carry on their business, and lack of it on British prisoners that are not in the would cause similar suffering here to least to be pelliated by the food situa- what the United States will undergo if
