London, September 1. The British bark Ambassador (Capt. Silvertzen), from Jacksonville, April 4, for Honolulu, which put into Port Stanley, Falkland Islands, June 30, with bulwarks stove, vessel leaky and other damage, was compelled to jettison thirty-five tons of the lighter portion of her cargo. The remainder was badly soaked. The Norwegian bark Forsorset (Capt. Rasmussen), which arrived at Cork yesterday from Batiscan, reports that she experienced a bad passage. On July 29th, in lat. 49n, long. 61w., she jettisoned a portion of her cargo to right the vessel. The Norwegian bark Triton, from Savannah, July 14, for Gullfjorden, has arrived at Larvik in Gullfjorden, she reports that she has engaged a new master. She reports that Capt. Hansen died of fever on July 28th. On the appointment of a new master the vessel will proceed to her destination.

A BUCKET SHOP ENQUIRY. Mr. R. J. Moore, Liberal-Unionist member of Parliament for Ludlow, Shropshire, writes to the Times that the new Government is doing all it reasonably can towards an international enquiry on wheat gambling and fictitious contracts.

ENGLISH TRADES UNIONISM. Mr. Samuel Gompers, ex-president, and Mr. P. J. Maguire, vice-president, of the American Federation of Labor, addressed the Liverpool Trades Council last evening in favor of the friendly relations of English-speaking workers of the world. Mr. Maguire said England was a quarter of a century ahead of America in trades unionism.

JOHN DALY'S SEAT. In the House of Commons to-day Capt. Donelan (anti-Parliament), member for Cork East, moved the issuance of a writ of election for the city of Limerick for the purpose of electing a member to the House in the place of John Daly, the dynamiter, who is now serving a term in prison, and whose election to Parliament has for that reason been cancelled.

A TATTOOING CRAZE. The medical press this week records revival of the "tattooing craze" among the aristocracy. The medical papers assert that many of the peers have already tattooed their arms with their crests and insignia of rank. One royal prince, it is asserted, can display a specimen of the art of tattooing really worth seeing, when he rolls up his shirt sleeves.

THE BERLIN EMBASSY. Rumor is steadily assigning to Sir Philip Currie the forthcoming vacancy to be caused by Sir Edward Malet's retirement from the Berlin embassy. Sir Philip was appointed by Mr. Gladstone to fill diplomatic vacancy at Constantinople. This assignment enabled him to enjoy a salary of £8,000 a year, the use of two palaces in Constantinople, a steam launch and a magnificent ten-oared boat, all of which are maintained by the Government.

ILLNESS OF BELGIUM'S QUEEN. The Queen of Belgium, who has been staying at Spa, the famous Belgian watering place, near Liege, has been thrown from her horse while jumping a ditch outside the town. Her Majesty fell in the roadway. Her head was cut, bleeding severely. She remained, however, and returned to Spa. Her Majesty is now confined to her bed, but her condition is not thought to be serious.

A SHIP'S CREW RESCUED. The British barque Plymouth, Capt. Davidson, from New York for Dun- kirk, which passed Prawle Point yesterday, brings the crew of the German barque Amaranth, Capt. Haug, which sailed from Savannah July 25 for Gutujewski, and which foundered on August 17th. The Amaranth was a vessel of 879 tons, 151.6 feet long and 33.8 beam, and 21.6 feet deep. She was owned at Rostock, and was built in 1864.

KING ALEXANDER'S CLOSE CALL. King Alexander of Servia nearly lost his life while bathing this morning in the Bay of Biscay. He went out swimming with an instructor in the nautical art, and both master and pupil were carried off their feet and away from the shore by the strong current which prevails off this fashionable watering place of France. The swimming master was drowned in spite of efforts made to save him and King Alexander only reached the shore with the greatest difficulty.

THE RHYNLAND IN A STORM. The Red Star Line steamship Rhyndland, Capt. Losswitz, which left Philadelphia for Queenstown and Liverpool, arrived at Queenstown yesterday, and reported having passed through a heavy storm which lasted three days, while the Rhyndland was in the middle of the Atlantic. It commenced to blow strongly on Sunday from the north-west and soon raised a nasty sea. The weather eventually became so severe that heavy waves broke repeatedly over the steamer, causing Capt. Losswitz, as a measure of precaution, to order all passengers off the decks, as there was danger of some of them being swept overboard. The Rhyndland

labored badly, shipping much water and rolling heavily. The passengers, in consequence, were much alarmed, and especially as quite a quantity of water washed in through the hatchways in spite of all precautions taken. The weather finally became so threatening and the seas pounded on board so frequently that even the saloon passengers were not allowed on deck. This state of affairs continued until Wednesday, when the gale moderated and the Rhyndland made steady progress.

MARINE MISHAPS. The British bark Ambassador (Capt. Silvertzen), from Jacksonville, April 4, for Honolulu, which put into Port Stanley, Falkland Islands, June 30, with bulwarks stove, vessel leaky and other damage, was compelled to jettison thirty-five tons of the lighter portion of her cargo. The remainder was badly soaked. The Norwegian bark Forsorset (Capt. Rasmussen), which arrived at Cork yesterday from Batiscan, reports that she experienced a bad passage. On July 29th, in lat. 49n, long. 61w., she jettisoned a portion of her cargo to right the vessel. The Norwegian bark Triton, from Savannah, July 14, for Gullfjorden, has arrived at Larvik in Gullfjorden, she reports that she has engaged a new master. She reports that Capt. Hansen died of fever on July 28th. On the appointment of a new master the vessel will proceed to her destination.

A DESPATCH to the Times from Berlin says that the Hamburg-American Company has ordered of Holland and Wolf, of Belfast, a twin screw 20,000 ton steamship, which will be the largest in the world. It will be chiefly employed as a freight steamship, but will accommodate 200 cabin passengers and 1,500 steerage passengers. Her delivery to her owners is to be made in ten months. German builders wanted a higher price to build the steamship, and nineteen months in which to do it. The chief German dockyards are already overwhelmed with work.

MORE OUTRAGES. The Times will to-morrow publish a despatch from Shanghai saying that some Chinese Christians have been brutally harried near Hing-Hua, in the Province of Fo Kien. Their houses were burned, property plundered, and cattle stolen. One man was fatally wounded. A magistrate was asked five times to assist the Christians, but he refused to do anything to prevent the outrages. This magistrate has published an ambiguous proclamation referring to the Ku Cheng massacre, inciting the rising against the church. Further troubles are expected.

WANTS UNANIMITY. A despatch from Vienna states that Prof. Vamberger, who has intimate personal relations with the Sultan, has written an article, which appears in the Pesther Lloyd, declaring that the Sultan will assent to establishing reforms in Armenia if Germany, Austria and Italy will join the three protesting powers—Great Britain, France and Russia—thereby making unanimous the concert of Europe, which would lessen the insult of having to place the internal administration of one of his own provinces under foreign control.

CRISIS AT CONSTANTINOPLE. A Constantinople despatch says:—The situation of affairs is so critical that the Grand Vizier, Said Pasha, has tendered his resignation, saying that he declines to remain in office under the present conditions. Said Pasha, the Grand Vizier, was reported on June 23 to have tendered his resignation, owing to the Sultan's rejection of some Ministerial and administrative changes. The Sultan refused to accept his resignation, but it has been stated that the coyness of his relations has since been apparent.

TO BRING THE PORTE TO TERMS. The St. Petersburg Novosti says that the time has arrived for the three powers who intervened in Armenia's behalf to supplement their representations to the Porte by a united naval demonstration in the Dardanelles. The Sultan, the paper adds, should understand that the demonstration would be only the preliminary act of the powers, whose prestige urgently demands the adoption of energetic measures for coercing the Ottoman Government.

THE SEDAN CELEBRATED. The town of Sedan to-day observed the anniversary of its capture by the Germans in 1870. The churches were draped in black, and the Municipal Council and many officers and soldiers and civilians attended the services in memory of those who lost their lives in the defence of the town. All present at the services were mourning. Detachments of infantry and cavalry were stationed outside of the churches and stood at attention as they filed in.

THE BATTLE OF SEDAN. The inaugural ceremonies of the celebration of the 25th anniversary of the battle of Sedan, the final engagement of the Franco-Prussian war, took place throughout Germany to-day. The programme in Berlin included the inauguration of the Kaiser Wilhelm Memorial Church, at which the Emperor and Empress were present.

PLUNDERED AND BURNED. A dispatch from Berlin says that the Voessische Zeitung has news from Tiflis that 5,000 soldiers and 10,000 Kurds under Sako attacked the Armenian town of Kenakh and several villages. They plundered the churches and monasteries, and burned the houses.

SIXTEEN EXECUTED. A despatch from Shanghai says that the sixteenth person sentenced for participation in the massacre of missionaries at Ku Cheng has been exe-

noted. The despatch adds that as yet nothing has been done in regard to the claims made by the British and American ministers respecting the attacks on missionaries at Sze Chuan.

CHOLERA IN ENGLAND. There has been a death from cholera at Gramsby, a seaport in Lincolnshire, and the authorities have been notified of the existence of another supposed case of the disease.

CHOLERA IN RUSSIA. An official report that has been issued at St. Petersburg shows that there were 2,025 cases of cholera and 118 deaths from the disease in the Government of Volhynia between July 15 and Aug. 17.

FRENCH BULL FIGHTS. A series of great bull fights was fixed to begin at Bayonne, France, to-day, and the celebrated Spanish bull fighter, Mazzantini, was especially engaged to appear. The police, however, refused to allow the fight to proceed, and they caused Mazzantini to be conducted to the Spanish mounted police, occupied the arena. The young King of Servia was present, but his mother had been assured beforehand that the authorities would not allow the fight. At Arles there was a bull fight in the presence of 5,000 persons. Three bulls and three horses were killed, but nevertheless the performance was tame and unexciting, and the spectators hooted the toradors. It was intended to have a fight at Tarascon, but the authorities prohibited it. The inhabitants were much angry by the intervention of the police, and the members of the Town Council protested against the fight being stopped. The police were obdurate, however, and the fight did not take place.

SELLING ARMS TO ARABS. The charges recently made by the Etiole Belge, of the Congo Government, against the German authorities and traders in the Congo region, of assisting the sale of arms to Arabs and slave dealers, met with an indignant denial by the Cologne Gazette. This denial elicited a reply from the Etiole Belge, which declared that proof existed that an English dealer named Stokes had sold all his stock of arms and other goods throughout the German possessions in Africa, the authorities of which territory had imposed a heavy duty upon the guns, etc. German agents worked with Stokes, who, the Etiole says, met his just fate, death. The North German Gazette takes notice of the Etiole's statement in view of the official character which it bears. After making an explicit and emphatic denial of the assertions that the German authorities were implicated in the sale of arms to Arabs and slave traders, the Gazette proceeds to caution the Belgians against their summary execution of white men, who ought to be tried in a court of justice instead of being left to the mercy of a high-handed official. The Gazette suggests that the Congo officials executed Stokes because he was their greatest competitor in the ivory trade, and adds that Germany's interest in the matter is increased by the fact that the Congo State seeks to extend its boundaries to the north-east, and declares that it is extremely doubtful whether or not it has a right to the coveted territory. The Congo State, the Gazette says, owes its existence to the good will of the powers, and that good will it cannot dispense with now. The significance of the utterances of the North German Gazette and the Cologne Gazette are due to indications of the approach of England and Germany in a common policy in regard to the Hinterland against France and Belgium.

CHOLERA IN HONOLULU. San Francisco, Cal., Sept. 1.—The health authorities in this city are not much alarmed over the reports of a cholera epidemic in Honolulu. A special meeting of the Board of Health will be called when the measures will be enacted to prevent any breaking out of the disease. All the vessels from the Hawaiian Islands will be strictly quarantined, and the city health officers will issue notices to the public urging cleanliness.

SEAN CAHARRH... Catarrhal Deafness, Kay Fover. A New Home Treatment. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved that to be a fact, and the result is that a simple remedy has been formulated whereby these distressing diseases are rapidly and permanently cured by a few simple applications made at home by the patient once in two weeks. A pamphlet explaining this new treatment is sent on receipt of stamp by A. E. Dixon & Son, 41 and 43 East Bloor St., Toronto, Canada.
