## Local News

(From Tuesday's Daily.)

Praises Local Schools.—E. C. Stewart, of Vancouver, inspector of public schools, who returned to the Terminal City on Saturday, reports the suburban schools of Victoria as being in a good condition generally. He spoke especially of the efficient state of the Lampson street school, saying that better work is being done, and, particularly in the principal's department of that school, than in any other school he has visited this year.

(From Wednesday's Daily.)

Tyee Mine.—On the 14th of November the amount of ore shipped over the aerial tramway from the Tyee mine since the tramway was installed, was brought up to a total of 100,000 tons.

Miner Killed.—In the mine at Extension on Monday night, Joe. W. Carpenterio, better known as Carpenter, was found dead in the stall where he had been getting out coal. He was an old-timer there and leaves a family. Heart failure is supposed to have been the strouble.

Tram Co. Improvements.—The extensions to the B. C. Electric Railway Company's plant at Goldstream will be ready for operation in ten days or so. The plant has been virtually doubled, giving greatly increased facilities for the company's lighting and railway business. In the former the company has about three thousand costomers, and with the substantial additions to the plant now mearly completed, they can accommodate six thousand. No changes in the railway business are contemplated for the immediate future. The scheme regarding the establishment of a park up the Arm is just now in abeyance.

Wireless Station.—Frank L. Smith, supposed to have been the trouble.

Duncans' Masons.—At Duncans on Saturday evening R. E. Brett, grand secretary for the province, and P. J. Riddell, D. D. G. M., A. F. & A. M., paid a fraternal visit to Temple lodge, No. 33. They found the lodge there to be in a flourishing condition.

Not Quite Sane.—The scared Chinaman, Sing Lee, is still held by the police for safe keeping. He has been examined by the doctor and two Chinese interpreters and there is little doubt that his fear of being killed by the high-binders is due to a mild kind of insanity.

## JOY OF HEALTH

I AM BRIMMING OVER WITH VI-TALITY-APPETITE IS GOOD-I SLEEP WELL- I FEEL HAPPY.

FERROZONE

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for

Skeena District Mines.—It is the opinion of Mr. Robert Cunningham that the Skeena district will be soon acknowledged as rich in mineral as any other part of Western Canada. Mr. Cunningham visited only recently the Dry Hill Mining Company's property on Lorne creek. Between \$30,000 and \$50,000 have been expended in the development of this claim, and the construction of an immense flume by Seattle capitalists. The work was in progress during the summer months and was completed a few days previous to Mr. Cunningham's airival there. Water had then been admitted to the figure for two days. It was closed off at the expiration of that time and the clean-up amounted to \$500. This was the result of not more than forty-eight hours' work. Mr. Cunningham witnessed the process of separating the gold dust, and says that there is no reason why as good, and even better, returns should not be obtained next season.

menichol. Everybody knows him knows how poor his health was for years.

Thanks to Ferrozone, Mr. McNichoi is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down." I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all ovea.

"Appetite?—I simply didn't have any "Sleepless?—Yes, nervous and unhappy, too.

"I braced up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong. I eat heartily. I sleep well. Now I know the joy of health.

Won't you take Ferrozone, too? It's really a maryelous tonic, some people say there is almost witchery in the way it duilds you up. It's concentrated nousisment—that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50, at all dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kinston, Ont.

(From Thursday's Daily.)
Social Dance.—At the Dallas hotel on
the evening of Thursday, November 24th,
a social dance will be given. Sampson's
orchestra will provide the music.

Rancherie Burned.—The old Indian rancherie on Discovery island was completely destroyed by fire yesterday afternoon. The progress of the flames could be plainly seen from Oak Bay, and the fire was witnessed by quite a crowd of spectators. It is not known how many, if any, Indians were living on the rancharie.

Charged With Burglary.—Detective Macdonald arrested last evening a young man named George Ford on the charge of having broken into some of the summer houses at Foul bay and stolen therefrom a rifle and other articles. It is not known just what stuff is missing from the houses, but the rifle is said to have been found in Ford's possession.

School Trustees.—Already speculation has commenced respecting the board of school trustees for 1905, and rumor is busy with the names of gentlemen who aspire to positions on that body. The retiring members on the conclusion of this year's term are George Jay, the chairman, and Trustees Alfred Huggett and Dr. Lewis Hall.

After B. C. Property.—A report just received from the East says the unusual activity and rapid advance in price of Montreal and Boston Consolidated has given rise to a rumor that an English syndicate is endeavorng to obtain con-trol of the stock. Mr. A. Munroe, sec-retary-treasurer of the company, has

BROAD MINDED SECTARIAN.

A Scotch gamekeeper, a great light in one of the kirks, was asked the difference between the Free and the United Free churches. "Give me the actual difference in a simple form," the inquirer requested after a long lecture from the gamekeeper. "Well, sir," said John, "if you want it plain, it is this: We'll all be saved and they'll all be damned."

NUMBER OF POSTAGE STAMPS.

According to the Universal Standard Catalogue of the Postage Stamps of the World, the total number of all known varieties of postage stamps issued by all the governments of the world up to the present time is 19,242. Of this number 205 have been issued in Great Britain, and 5,711 in the various British colonies and protectorates, leaving 13,236 for the rest of the world. Dividing the totals among the continents, Europe is for the rest of the world. Dividing the totals among the continents, Europe issued 4,089; Asia, 3,628; Africa, 4,005; America, including the West Indies, 6,-095; and Oceania 1,425. Salvador has issued more varieties of postage stamps than any other country, the number being 450. Poland and Wadhwan have each found a solitary specimen suffice for their postal needs.

THOSE LONDON PALMISTS.

Now Tell Fortunes at a Draper's Free of Charge.

The Keiros, who were recently the

The Keiros, who were recently the subject of a prosecution for fortune-telling by palmistry and clairvoyance, have found a way by which they can safely resume the practice of their occult "art."

The drapers at which their services will be obtainable are the Messrs. Swan & Edgar, of Regent street. The well-known firm has agreed to pay the Keiros £90 a month, in return for which they will read the hands of the firm's customers.

they will read the hands of the firm's customers.

"Mr. Yelverton, the counsel who undertook their defence," said Mr. W. Morford, the firm's managing director, "has expressed the opinion that, under such conditions, the Keiros can legally be consulted. No charge is to be made, and I am putting my private flat, which, communicates with the business establishment, at their disposal. They commence their work on Monday, and will be engaged from 11 to 1 and 2 to 5.

"If this proves the success I anticipate," added Mr. Morford, "it is quite possible that we shall engage Yoga to deliver lectures in a room on the premises."

ary gas fire.

(2) That it takes up the carbonic oxide from the air and purifies the atmosphere.

(3) That it does away with the unpleasant smell given off by gas fires.
