What is Catarrh

What is Catarrh

From the Mail (Canada) Dec. 15.

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite ameba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxemea, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back of the throat, causing ulceration of the throat, up the custachian tubes, causing deafness, burrowing in the vocal cords, causing deafness, burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the broughial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of or removed from the mucous tissue.

Some time since a well known physician of forty years standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs, A. H. Dixon & Son, 305 King street west, Toronto, and get full particulars and treatise free by enclosing stamp.

There never was and never will be a universal panacea, in one remedy, for all ills to which flesh is heir—the very nature of many curatives being such that were the germs of other differently seated diseases rooted in the system of the patient—what would relieve one fill, in turn would aggrevate the other. We have, however, in Quinine Wine, when obtainable in a sound unadulterated state, a remedy for many and grievous ills. By its gradual and judicious use the frailest systems are led into convalescence and strength, by the influence which Quinine exerts on natures own restoratives. It relieves the drooping spirits of those with whom a chronic state of morbid despondency and lack of interest in life is a disease, and by tranquilising the nerves, disposes to sound and refreshing sleep—imparts vigor to the action of the blood, which, being stimulated, courses throughout the veins, strengthening the healthy animal functions of the system, thereby making activity a necessary result, strengthening the frame and giving life to the digestive organs, which naturally demand increased substance—result, improved appetite. Northrop & Lyman of Toronto have given to the public and, gaged by the opinions of scientists, this wine approaches nearest perfection of any in the market. All druggists sell it.

Remember Farley & Co. keep open until 10 to-night. Fisher, a Collingwood butcher, has been sentenced to six months' imprisonment for selling diseased meat.

-What a comfort to be able to gratify one's appetite once more without pain, after long suffering from dyspepsia! Victure of indigestion wise enough to accept tims of indigestion wise enough to accepthe general verdict in favor of Northrop of the general verdict in favor of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure as true, and use the article, can enjoy the welcome relief. Obstinate dyspepsia, constipation and biliousness, invariably yield to its potent regulating action.

THE BUSINESS WORLD. TORONTO, Friday, March 28.

Although there is no boom, the wholesale rade of the past week has been marked by an

aprovement in general lines, and remittance nave been very fair.

In dry goods a fair enquiry exists for English prints, Canada tweeds more slowly, but imported lines are in fair demand by tailors. In groceries things continue dull. One vholesale house is making a specialty of aisins, and some heavy transactions have ocrred during the week.

Sterling exchange continues unchanged in ew York. The posted rates to-day were at 901 and 488.

A cable to Cox & Worts quotes Hudson Bay t £251, and Northwest Land at 60s. New York stocks are dull and weak with the cception of Northern Pacific preferred and Oregon Transcontinental which close higher. Western Union closes at 713 which is within to of the lowest point touched for years. The Baltimore and Ohio Telegraph company are extending their lines further into Western Union territory.

Chicago was stronger all round, but May d on call ic lower than last night. The wholesale boot and shoe trade is unsatsfactory, and reports as to the state of trade
