The Annual Report

This gave a review of the past year, and showed that the total receipts from the exhibition amounted to \$85,771, and the total expenditure to \$80,693, giving approfit of \$5078; but this amount, with \$4379, from the funds on hand from previous years, was absorbed by the interest payable on the money borrowed to erect the new grand stand, horse ring and new stables, cattle sheds, in 1892 and 1893. The directors had expended on capital account for repairs and alteraand 1893. The directors had expended on capital account for repairs and alterations to buildings the sum of \$3666, and on new properties purchased \$307.

The chairman, in moving the adoption of the report, said that owing to the large expenditure in new buildings, it would be necessary to appeal to the City Courcil to live up to their agreement to aid the association. The directors were at present unable to do all they wish in the way of accommodation for exhibitors. Especially were new sheds required in the sheep department. The new board would at once enter into negotiations on the subject with the City Council.
