Toronto, Dec. 10.—The run at the City cattle market this morning was fairly large for an early-week market, consisting of 90 cars, containing 1,465 cattle, 1,898 sheep and lambs, 400 hogs and 154 calves.

Business was hardly as brisk as it has been at a few of the last markets, but the few good cattle on sale sold well, one case being noticed of a heifer selling at something better than \$5 a hundred, but then this one was picked out from a load. A few good butcher cattle were bought around \$4 50 a hundred, but this class was very scarce, and the bulk of the trade centered around \$2.50 to \$3 cattle, which were plentiful, as usual.

Exporters are practically off the market now, so no quotations are given.

Hogs are firmer today under a light run, and an advance of 25c a hundred for selects is noted; this puts selects to \$5.25 and poor rough stuff at from \$4.25 up.

Sheep and lambs are steady and there was a good-sized run in calves, unchanged, and good stuff in demand.

Electric Power by Christmas.

Two of the Westinghouse single phase locomotives to be used by the St. Clair Tunnel Co. in drawing its trains through the St. Clair tunnel, arrived in Port Huron Monday. They will not be placed in commission, however, until the other five are here. The normal capacity of one of these engines is 760 horsepower, but can be worked up to 1,200 horse power. Two of them will make a locomotive capable of pulling a 1,000 ton train up the two per cent. tunnel grade. The trip will be made from Port Huron to Sarnia, nearly three miles, in seven minutes.

The large power house on Military street, Port Huron, which will supply electricity for the Port Huron and Sarnia Tunnel yards is about completed, the machinery being run with a full load on for the first time on Thursday of last week.

The power house is 100x100 feet in size, and two stories high; is fireproof, being built entirely of concrete. It contains four batteries of boilers, an automatic coal handling apparatus, two turbos, which include turbines and dynamos, and a large amount of auxiliary apparatus. The turbos have a capacity of 2,500 horsepower, and can be increased to 5,000 horsepower.

The tunnel and yards will be lighted with 27 arc lights, besides hundreds of incandescent lights.

It is the plan of the Grand Trunk officials

FARM TO RENT.

THE UNDERSIGNED will lease for a term of years, Lot 21, 4th line, N. E. R., Warwick. On the premises are a comfortable house, good out-buildings and every convenience, well fenced and watered. About 25 acres seeded down, balance in a good state of cultivation. For particulars apply to

A. E. UTZER,
Warwick, P. O., Can.

to have the first train propelled by electricity taken through the tunnel Christmas night.

REDUCED RAILWAY RATES.

Result in Striving Many Westerners Home for Christmas.

Considerably reduced return fares from the Northwest to eastern points came into force on the first of the month, and advantage will evidently be taken of them by many who either wish to spend Christmas or a couple of months with their relations and friends in the east. The three months' return rate from Winnipeg is \$40, and the tickets remain good for three months. Over a dozen persons from Winnipeg, Calgary, Medicine Hat and Selkirk registered last evening at the Walker House.

One of the new arrivals states that matters commercial and financial are by no means so bad in that section as they have been represented, and that no occasion whatever exists for anything like serious apprehension.

The wheat outlook, in his opinion, is by far the worst feature of the situation. The railways have quite a sufficient number of cars, but they are very deficient in engines and consequently shipments must be greatly delayed.

Waste of Christmas Trees.

Congressman Kuesterman's recommendation that Christmas trees be planted in tubs and used year after year would be adopted if the country were halt as serious on the subject of forest preservation as current talk would imply.

The fact is that most people accept statistics as to the exhaustion of the lumber supply in 20 years about as Mark Twain did the report of his death. They consider them greatly exaggerated. They also realize that the use of iron and cement is doing much to lessen the dependency upon lumber.

Congressman Kuesterman's idea would not be practicable in the case of families living in city flats, unless the custom should arise of setting the tubs in the court-yard, or in the street for ornament, and taking them in only during the holiday week. Were it generally adopted, haughty Europeans would no longer be able to say that Americans have no family trees.

Each tree would grow with the growth of the young people accustomed to collect about it annually to receive their holiday presents from its branches, and by the time it became too big to take indoors it would be no longer needed for Christmas purposes as the young people would have outgrown youthful things. Then it could be permanently set out in a park.

Concrete Shaft 115 Feet High.

In describing a huge reinforced concrete tower 115 feet high, Popular Mechanics says: "It will carry 16 transmission cables across the Monongahela river at Brownsville, Pa. The United States government regulations are such that the tower must support the wires across a span 1,014 feet long, and at least 79 feet above the low-water mark. The article gives details of construction and is accompanied by an illustration.

Six Months for Stealing.

Frank Lawrence, the man who was arrested by Chief Wilson, of Strathroy, two weeks ago, appeared before Judge Macbeth Saturday and was sentenced to six months in Central prison.

Lawrence pleaded guilty to having entered the Kerwood House, at Kerwood, and having stolen \$4 and a bottle of whiskey, giving as his only excuse that he was drunk.

He made his plea Tuesday morning, and his honor told him that if he could before Saturday get letters of reference as to previous good character he would be lenient. Lawrence had no reference Saturday morning.

SALE REGISTER.

Credit sale of 6 cows, due to calve; 4 new milkers, 18 cows guaranteed with calf, at Wanstead, on Friday, December, 20th, 1907, at 1 p.m. These are well-bred high-class dairy cows and well worth the attention of buyers. Don't miss this sale. Proprietor retiring from dairy business. Terms, 10 months' credit on approved joint notes, 6 per cent. per annum off for cash. J. E. Forden, Proprietor; J. F. Elliot, Auctioneer.

Going Back to Europe.

The United States had the biggest rush of immigration in its history last year, but it is also having the biggest rush of immigrants back to Europe taking with them a great deal of money that country needs so badly just now. In the month of August according to official records, 22,266 immigrants left the country and the stream has been flowing more largely since that time.

Arrested for Wife Murder.

Salisbury, N. B., Dec. 4.—Christopher A. Horseman, husband of the woman who lost her life in the well back of her home two days ago, was arrested to-night on a charge of murdering her. He was taken to jail, leaving eight children all under fourteen years of age in the house alone, crying and afraid.

Non-Jury Sitings.

The non-jury sitings of the High Court of Justice will open at the Court House Sarnia, on Thursday, Dec. 12th, before His Lordship Chief Justice Falconbridge.

The docket is a very light one, there being only one case entered for trial, viz., Edwards vs. McKay—An action in the nature of a partnership account. John Bernie, K. C., Collingwood, for plaintiff; Hanna, LeSueur & Co., for defendant.
