Strange but True

THAT till within eighteen months all attempts to prepare suitable and safe Combination for Leather, which could be used with safety and satisfaction as a dressing for Harness, Coach and Carriage Tops, Boots, Shoes, Sacks, Straps, &c., &c., had failed.

It is equally Strange and True That eighteen months ago E. Mack, of Queens County, N. S., discovered and prepared and is now manufacturing and circulating as fast as possible a combination of thirteen ingredients, known as E. Mack's Water-Proof Blacking, which is warranted to accomplish all the above objects or money refunded, as agents and vendors are instructed to return the money in every case of failure, when satisfactory evidence is given.

That this is true, who will doubt when they read the following certificate: We, the undersigned, have used E. Mack's Water-Proof Blacking on our harness, boots, shoes, coach tops, &c., &c., and have proved it to be superior to any preparation of the kind we ever used, and we most heartily recommend the same to all who require a Leather Dressing as a convenient, safe and valuable combination.

GRAHAM'S PAIN ERADICATOR And Magnetic Oil.

This is the admission of all who have given it a fair trial: it is the most perfect remedy ever known for all cases of pain and inflammation, and for all diseases of pain and inflammation, and for restoring the nerves and muscles to a healthy tone and action.

This preparation was not got up like many others, merely for sale, but has been used in the proprietor's family for nearly twenty years. It is prepared from some of the choicest articles of the Materia Medica, so as to combine the most effective ingredients, and at the same time are perfectly safe—the result of a careful study.

This medicine was originally prepared, and for many years exclusively used, as a remedy for that terrible considered incurable disease—RHEUMATISM; during which time many cases of from ten to twenty years standing were cured by the use of one or two bottles. Its unparalleled efficacy, together with the fact of its being found perfectly safe in the hands of many who had proven their curative powers by placing it before the public—being forced to admit the argument of men, that it was not right to continue it to a few while the issue of its being safe would be cured by it.

For cases of accidents; or sudden attacks of disease, all should be prepared by having some suitable remedy on hand; for this purpose there is nothing so discovered to equal GRAHAM'S PAIN ERADICATOR. Sold at the Medical Depot, and by all dealers.
