CAUSED BY THE HIGH PRICE OF MILK

The high price of milk was responsible for a seven months old baby being abandoned by its father in the Grand Central Station, New York last week, according to a note found in the youngster's hat by the police.

"Can't afford him on the price of milk they are charging to day," said the note. "There are others I am trying to support." The infant was turned over to the police by a man who said another man had asked him "to hold the baby" until he came back.

## LIKE THROWING MONEY AWAY

Postmaster of Cardiff could get Nothing to Help His Wife Until He Gave Her Tanlac

"You can tell them that Tanlac has helped my wife, too, and of all the people who have made statements about being benefited I believe we have the most cause to be thankful."

"For the past five years," he continued, "my wife has been so crippled up with sciatic rheumatism that she could hardly get about and while I have spent lots of money for treatment and medicines it was just like throwing it away, for nothing was the least bit of help to her until she began using Tanlac. Since she has been taking this medicine, however, she has been steadily improving all the time. Aside from the fact that she has almost gotten rid of the rheumatism, her general health has improved wonderfully, and her weight has increased from less than one hundred pounds to one hundred and ten."

"Her condition, before taking Tanlac, seemed almost hopeless and was very discouraging. She had continual pains across the small of her back and her right hip and limb were so stiff and painful she was barely able to get around. She was so weak and was so easily exhausted and would have to lie down three or four times a day. Her nerves badly shattered and this, together with her awful pain made sleep almost impossible for her. Her stomach was also out of order in some way for food seemed to do her no good and in place of gaining strength she was losing all the time. Her appetite was poor and although her condition was serious, and regardless of the best care and attention she kept getting worse."

"After reading so much about Tanlac, and knowing of the good results others in our community had gotten from it, my wife began taking it and gradually improving from the very start. She was in such a bad shape that we could not expect complete recovery without time and patient use of the medicine. So she has struck right to the treatment and it certainly has paid well for the results have been nothing less than wonderful. She has taken twelve bottles now, eats three hearty meals every day, sleeps eight hours or more every night, and says she hardly feels the rheumatism any more. In fact, her entire system has been toned up and she is now about as strong as she ever was. Tanlac is the only medicine we have ever found that we could depend upon for results and it is so good that we feel it our duty to tell others about it."

Tanlac is sold in Bridgetown by S. N. Wear in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

## EVAPORATOR CLOSES AT ANNA-POLIS

(Spectator)

General disappointment was created by the announcement that the evaporator here had been ordered to shut down for the season this week.

Instructions having been received from the manager, Mr. Graham, Jr. in Kentville to appreciate the warm and comfortable that effect. Most of the women and girls were paid off on Tuesday and very few hands will be retained to pack the balance of the output and ship, the remaining apples on hand to Lawrencetown where it is said they can be cured more cheaply than continuing the operation of the large plant in this town. With the advent of next year's apple crop however it is expected that operations here on even a larger scale will be inaugurated.

## A 15 YEARS' FIRE

Just think! That is the time through which Mr. H. C. Buckley endured all the fiery torture of itching, burning eczema. His life was a perfect misery until Zam-Buk—the great herbal skin cure—brought complete relief.

Mr. Buckley, who lives at 461 East Broadway, Portland, Oregon, writes:—"For fifteen years I suffered with eczema, and although I tried many so-called 'eczema cures,' nothing seemed capable of dealing with a case like mine. It was not until I had Zam-Buk recommended to me that I began to have hope. This wonderful skin healer soon brought about a change for the better. As I persevered with Zam-Buk the burning sensation got less. I found Zam-Buk wonderfully soothing. Gradually the patches of soreness and the inflammation were reduced, and complete and permanent cure finally resulted. I would strongly advise all afflicted with eczema to give Zam-Buk a trial. It will give them satisfaction. They will not be disappointed."

No skin disease can resist the patient healing forces stored up in Zam-Buk, which is unequalled for old wounds, ulcers, abscesses, bad legs, scalds, sores, blood-poisoning, piles, scalds, burns, cuts and all skin injuries. All druggists and stores of Zam-Buk Co., Toronto, 50c. box.
