

In Erysipelas

No agent has yet produced such satisfactory results as the

Stearns Streptolytic Serum

(Antistreptococcic———Hubbert Process)

CLINICAL EXPERIENCE DEMONSTRATES THAT IT

Promptly Reduces the Temperature,
Improves the Pulse, and
Causes Redness and Swelling to Disappear.

The Stearns Streptolytic Serum

IS THE ONLY ANTISTREPTOCOCCIC SERUM THAT HAS GIVEN
PROMPT AND DEFINITE REACTION IN THIS DISEASE,
USUALLY SO DIFFICULT TO CONTROL. Literature Cheerfully Supplied.
