ELECTRO-THERAPEUTIC INSTITUTION

231 Jarvis Street, Toronto

PROFESSOR VERNOY, Specialist in Electro-Therapy

Commenced the practice in 1869, and since 1876 in Toronto, treating **Nervous, Obscure, Chronic and Acute Diseases**, and more especially the diseases not successfully treated by others. Through our advanced system of electro-curapathy, aided with our improved Electro-Medical Batteries, in harmony with nature's laws, we naturally utilize the most potent and effective agent in the world, yet discovered, for the cure of disease, and thus used it is agreeable and soothing to the whole nervous system, producing most extraordinary cures by the radical changes made in the diseased conditions, such as have been reported at various times in the *Mail* and other city papers, given to the reporters by those cured for the benefit of their fellow-sufferers, urging its publicity, as in the case of Mrs. Thompson, of St. Catharines, and Miss Vandewater, of Kingston, and others, who were cured of spinal curvature and serious internal troubles; anyone is at liberty to call and see how well and straight they are now, or may write to them. Others, through them similarly afflicted, have come for treatment, and were cured, and still others are now being cured of various diseases, who may (through their own wishes only) be interviewed at our Institution and those cured at their homes. However wonderful these cures may seem, diseases of various kinds that fail to be cured by other means yield

kindly to this potent agent, when properly applied, without shocks. Anyone doubtful can easily be convinced by consulting those cured. See copy of *The Electric Age*.

MR. SWALWELL, OF SAMSON, KENNEDY & CO., SPEAKS.
TORONTO, April 23, 1892.

DEAR DR. VERNOY,
To-day I write you out of sheer exuberance of good spirits, perfect health, and thankfulness. I have not enjoyed such good health for years—your Family Battery has indeed been a great treasure. When I return home from a trip feeling out of sorts, I take a warm bath, then have half an hour's solid enjoyment with the Family Battery which has never yet failed to revive and strengthen me. The Battery and I have become warm friends. I require no doctor or medicine so long as I have my electric friend to go to. For twenty years I have not been free from rheumatism and kidney trouble. I have never enjoyed such health as I do to-day, and I am satisfied it is owing to the use of the Family Battery I got from you last fall. Wishing you every success. Yours truly,
61 Borden St., Toronto.

TOM SWALWELL.

fully applied, and having ascertained that you were the most successful electro-therapeutist in Ontario, I thought I would, if possible, obtain your services, and you very kindly and promptly visited me, and proved on that occasion your complete mastery of nervous diseases. Through your instructions as to the application of the battery, and from several treatments received at your office, after I was able to visit Toronto, I am now in very good health.

I remain, as ever, thankfully yours,
L. D. CLOSSEN, M.D.

The above is a fair sample of the numerous letters received from people in various parts of the country who have been cured and now wish other "incurables" to know what this unique system of electrical treatment as practised by Prof. Verney can do for them.

No kind of electric belts, insoles, etc., used at all. There is no substitute for proper electricity in certain diseases.

Dr. Apostoli, of Paris, whose reputation is world-wide, has latterly made a specialty of curing womb troubles with electricity, "chronic endo metritis," formerly considered incurable—but many other phases of diseases just as unyielding to the old system of treatment succumb to the electrical currents from Prof. Verney's Improved Machine. This system covers the whole ground—is sure and safe.

MARVELLOUS MARVELS.

LIGHTNING DOES MORE THAN CURE.

Miss F. C. Metcalfe, of Elgin, Ont., who was treated for spinal disease, with a serious complication of internal troubles too numerous and serious to mention, and had a portion of her spine removed which is preserved in alcohol (and may be seen at our office if desired), is now enjoying good health. Miss Metcalfe's case, with her indescribable sufferings for four years, is well known to many eminent physicians of Canada and the States, and her complete cure in so short a time is a marvel to those who knew the case. Almost incredible. Some of her former physicians could not believe it possible, another marvel. This lady while under our treatment, whose life had been so uncertain, was engaged to a worthy gentleman before seeing him, was afterwards introduced to each other by Prof. Verney, and June 22nd the two were made one. We think a happier pair is hard to find even among earnest Christian workers, which they are. Long may they so live. Our marriageable patients all seem fortunate on that line. Electro-Therapy does marvellous things.

Our Branch Institution at Kingston, Ont., is at 230 Front Street, in charge of R. V. FUNNELL, M.D.

The Jarvis Street Sanatorium, in connection with Prof. Verney's Electro-Therapeutic institution, is a large block over a hundred feet frontage, extending through to the next street, with large lawn, shade and fruit trees, and commodious rooms on first floor and above; pleasant dining-room over fifty, affording a pleasant home for those seeking rest and health.

By the addition of this Sanatorium Prof. Verney will be prepared to care for many more indoor patients than formerly.—*The Mail*.

ASTOUNDING CURE BY ELECTRICITY.

Mr. H. J. Walling, of Haliburton, Ont., says:—"I would not be without one of Prof. Verney's Batteries for all the money in the world, as it saved my life or from the asylum.

"I had my neck almost dislocated, so that my finger nails turned black at the time; it caused chronic congestion of the nape of the neck, which also brought on indigestion, torpidity of the liver, and general debility, which I thought would end in insanity.

"I used this improved battery according to directions, and did not use any medicine of any kind.

"Am now able to do a day's work, and do not feel afraid of my old trouble while I have this battery."—*Mail*.

PROPER ELECTRICITY CURES TIC-DOULOUREUX.

RENFREW, March 15, 1892.

PROF. VERNOY:
DEAR SIR,—I feel it my duty to you and the public at large, to let them know of the great benefit I have received from your electric treatment.

My case was a very peculiar one, and baffled the skill of a great many physicians. I have been a sufferer for fifteen years with a severe pain in my face, and in that time have tried everything, was treated by a great many physicians for neuralgia, and had all my teeth taken out to try and allay the pain, but could not get anything to do any good.

The last physician I had advised me to go to Dr. Galligan of this town to inject morphine to allay the pain, but the doctor objected, and advised me to go to Toronto and try your electric treatment, stating at the same time that his sister had been up to Toronto for your electric treatment after having spent one thousand dollars on other physicians who had done her no good, and after three weeks of your treatment was thoroughly cured.

I took Doctor Galligan's advice, and in three weeks was completely cured, have not been troubled with any pain since, and for which I am truly thankful.

My son also has received great benefit from your treatment. If the above should fall into the hands of some poor sufferer it might be the means of their cure by applying to you.

SAVED HIS LIFE

NERVOUS EXHAUSTION, NEURALGIA, ETC.—A LOSS OF FORTY POUNDS OF FLESH.

September 10, 1886.

PROF. VERNOY:
DEAR SIR,—I consider it my duty to you and to the public generally, to give a short history of my case. I found myself gradually failing physically, although my mental powers, so far as I or my friends could judge, remained intact and undisturbed. Soon I began to recognize the alarming fact that I was gradually sinking into the grave, having lost forty pounds of flesh in four months. I suffered severe neuralgia in one or both temples, shooting down into the shoulders occasionally, of the most excruciating character, accompanied by morbid sensations in my extremities. After other means had failed I thought I would try electricity, knowing it was a powerful remedial agent when cautiously and skill-
