The facts fully justify every claim put forth in behalf of THOMAS' ECLECTRIC OIL. Testimony of the most convincing nature, to which publicity has been frequently and widely given, and which can easily be verified, places beyond all reasonable doubt the fact that it fully deserves the confidence which the people place in it as an inward and outward remedy for coughs, colds, catarrh, sore throat, incipient bronchitis, and other disorders of the respiratory organs, as a means of removing pain, swelling and contraction of the muscles and joints, rheumatism, neuralgis, kidney disorders, excoriation and inflammation of the nipples, burns, scalds, bruises, corns, and a variety of other diseases and hurts, and of ab-normal conditions of the cuticle. It is inexpensive and safe as well as prompt and thorough. Its merits have met with the recognition of physicians of repute, and veterinary surgeons, horse owners and stock raisers administer and apply it for colic, galls, affections of the hoof, sweeney, garget and troubles incident to horses or to cattle.

tinue quiet, whilst drugs and chemicals show no great activity. Comparatively little has been done in groceries, and this may apply also to the other remaining branches of trade. The money market during the week was quiet and easy. Good mercantile paper was discounted by the banks at 7 to 8 per cent. Loans on collaterals were made at 6 to 7 per cent on call, and 7 to 8 per cent on time. Sterling Exchange was firm at 109% to 1001 for round amounts of 60 day bills, between banks, and 1005 for counter sales. Drafts on New York were steady at 1-16 to 1 per cent premium. Stock speculation has been dull, but showed more strength towards the close of our week. The present condition of Canadian stocks compared with that of a week ago, may be seen from the following comparative statement :-

FURS.—Comparatively little has been done in furs for the past few weeks. The skins arriving at present are chiefly rats, fox and skunk. The latest mall news states that, at "the sale of raw fur seal skins held in London recently, the offerings comprised 23,000 Alaska, 25,000 Copper Island and 3,000 Robbins Island skins. The price obtained for them was an average advance of 100 per cent above that of one year ago, but there was an advance of only 10 per cent above that of last November. The interest of shippers now centres around the April fair in Leipsic, but transactions there are only expected to confirm the recent sales in London." The local quotations are as follows:—

Palatable Castor Oil.

The ambiguity of these words would naturally excite ridicule in the mind of the reader, as we associate with the name the most sickening unpalatable thing our minds can conceive. But it is a fact that in Scott & Bowne's Palainble Castor Oil the nauseous properties are entirely removed, and it is as sweet and pleasant as cream; and in preparing it they have also eliminated all of its griping propensities, so that it is really the most delicious laxative and catharatic medicine ever administered, either for children or adults.

Special Notice.

We print to-day in our advertising columns recommendations of the most celebrated living planists and musicians in regard to the New York Weber Piano, which, for perfection of tone, action, power and durability, are said to be unapproached by any maker in the world. A late number of the London Musical Record says that even there Albert Weber stands in the front rank of all manufacturers. They are used by the artists of the Italian and Her Majesty's Operas—by all great musicians and by the leading Convents in the United States. The great planist, Madame Rive-King, says "the Weber Plano is the finest instrument I ever placed my fingers on." The Centennial judges say "they were the finest Planos they had ever heard or seen." Many of our leading citizens are taking advantage of the present opportunity to procure them before the advance in duties adds so much to their price. Sold wholessle at the New York Plano Co.'s store, 183 St. James street.

Weber Pianofortes.

THERESA CARRENO.—"My use of the Weber Pianos, at over one hundred concerts, proves how highly I esteem them. They have a tone and touch which meets every requirement of the most exacting artists, and I am not surprised that every great musician prefers them."

JULIA RIVE-KING.—"The finest Piano I

ever placed my fingers on."

EMMA C. THURSBY.—"The tones of the Weber Planos are so sweet, rich, sympathetic, yet so full, that I shall always rank him as the greatest manufacturer of the day."

NILSSON.—I shall take every opportunity to recommend and praise your instruments.

KELLOGG.—For the last six years your Pianos have been my choice for the concert room and my own house.

ALBANI.—I am thoroughly satisfied with your splendid Planos. They deservedly merit the high distinction they have obtained.

LUCCA.—Your Uprights are extraordinary instruments, and deserve their great success.

PATTI.—I have used the Planos of every cele-brated maker, but give yours the preference over all others. STRAUSS.—Your Planos astonishme. I have never yet seen any planos which equal yours.

WFHLI.—Madanic Parepa called your Planos the finest in the United States. I fully endorse that opinion. They have no rival anywhere.

MILLS.—Among the many excellent planes made in the city, the Weber ranks foremost.

TESTIMONIALS:

TRESTIMONIALS:

The Rev. Father Delankau, Catholic Priest and Missionary, writing from Bethlehem to Bishop Baltze, of Paris, France, says: "I have just returned from a few months' trip up the country to the source of the River Jordan, to which place I went with the view of examining the condition of the people, and the prospect of establishing a Mission, and especially to see for myself the so-much-talked of Green Oil found there, and used by the natives for the cure of many of their bodily ills. We passed many people on the way, and met more returning, all of whom told me the same remarkable stories respecting the miraculous cores effected by this much-talked of Oil. On reaching the vicinity we saw many more Pilgrims suffering with all manner of diseases. We were shown a large swamp or marsh, like a lake parity filled with green reeds and bushes, flags and vines. The water was covered with a dirty looking greyish green substance, which had a most sickening odour, in which the people were bathing; on examining the base of the mountain forming the east skle of the lake we saw oozing out between the rocks the same unpleasant smelling substance that had settled on the waters.

"We remained in the neighborhood nearly a week watching the effect it had on certain persons, and we were compelled to admit that the effect was truly wonderful, and cannot be explained by me. I took some back in a bottle to Bethlebem. Finding on my return that Father Dubols was suffering with Rheumatism, I applied some of it as I had seen the natives doing. He at first objected on account of the unpleasant smell, but to his surprise he was relieved in a short time of all pain. I used the remainder on a poor native who had not been able to walk for months, and he was entirely healed in a few days. I would like some Medical men of science to investigate this to me most wonderful substance."

great pain. I used the oil upon her, rubbing it in as I had seen the sick persons doing at the water side; in a few days the skin loosened, the soreness was removed, and in two or three weeks' time she was as sound as ever. All cases seem benefitted by it, but in what the virtue consists is a mystery to me."

The Rev. J. N. Marrow, Missionary, in his report to the London Society, writes from Jerusalem: "I hope next year to visit the source of the Jordan. There are many strange stories told of the miraculous cures made by the natives using a sort of oil found in a swamp, which all who are suffering with any malady, visit, and where they bathe, and are healed, in some instances in a most marvellous manner. Everyone who has been there tells the same story, I talked with two English travellers who had just returned; they say there is no mistake about the effects of this oil on all disenses, and the lake being drained by one of the small streams or branches of the Jordan, and this oil in time working its way down to the river, has given rise to the supposed miraculous virtue in the water itself."

The Holy Land On is now being brought to Europe, where it is put up for general use, and slipped to all parts of the world, and is quite as effective elsewhere as at its native source.

Some three years ago I contracted a severe cold which sottled on my lungs. I had a dry hacking cough. I could neither rest by day of sleep at night. I became alarmed at my sination, but could get no permanent relief until tried Dr. Harvey's Koney Dew Extract, and after taking a few doses I felt great relief. I continued for a few weeks, and am now entirely recovered.
