IMPERIAL PARLIAMENT. Longer, Feb 26. -The House of Lords has passed the bill to afford better protection against the introduction of loot-and-mouth

lisease from abroad. Mr. Arthur Wellesley Peel was elected Speaker of the House of Commons to-day without opposition.

Mr. Archdale, recently appointed high sheriff of the County of Fermanagh, is report-ed as having said he hoped he would not have much to do as sheriff, but if he ever got a Parnellite at one end of the rope he would give a very heavy tug at the other end. The Parnellite members of parliament have taken offence at this language, and intend to ques-

tion the government in regard to it. LONDON, Fed 29.-In proposing the bill for the extension of the franchise, Mr. Gladstone said to introduce separate franchise bills for England, Ireland and Scotland, with the prospect of carrying the English and Scotch

bills, and leaving the Irish bill to take its chances, would be altogether impracticable. The arguments in favor of a uniform bill were unanswerable, and nothing could induce him to abandon such a bill. The redis. tribution of parliamentary constituencies must follow a reform of the franchise, but if two questions were embodied in the same bill it would prove fatal to both. He en-

treated his supporters not to endanger the success of the bill by proposing additions. Mr. Gibson (Conservative) said that the bill had been introduced for the sole purpose of diverting the extention of the country from affairs abroad. The Conservatives would oppose it vigorously. Extended franchise, without re-distribution, would give the Nationalists 90 stats in Parliament, and place stupendous power in their hands.

Mr. Churchill opposed the bill. The adjournment of the debate was voted

in spice of Mr. Gladstone's protest.

The Parnellites and Scotch members appear well pleased with the bill, but the English Liberals are disposed to object to an extension of the franchise without redistribution. London, March 3.-In the House of Lords to day Earl Granville said the reports of the immediate withdrawal of the British troops from the boudan were absolutely untrue. Loud cheers.)

[This was in reference to a statement in the Times that General Graham had been ordered to re ire from Tokar and send the

troops back to Egypt.] In the House of Commons this afternoon questions were put to the government regarding the condition of affairs in Egypt, which the government refused to answer. Great excitement arose, and Mr. Anson (radical) moved that the house adjourn in order to discuss the Soudan problem. He violently at-tacked the government, charging it with cowardice, blood guiltiness, butchery and jingo-

Lord Hartington said it was not the proper time to indicate the policy of the government in Egypt. The immediate object was to sccure the safety of the remaining Egyptian garrisons and provide for the safety of Suskim.

Mr. Gladstone replied to the strictures of Sir Wilfred Lawson, and justified the polloy which the government has been pursuing. He asserted it was necessary to hold Suakim

Mr. Boss (West Middleser)) said, in reply. to Mr. Broder, that instructions had been given by the Department of Education as to the use of the text, books known as the "Boyal Besders" in the Normal or Model Schools, and these instructions, would be

found on page 74 of his report. After recess the following bills were adopted in committee .- To incorporate the Dawn Tramway Company ; respecting the debt of the County of Middlesex ; to authorise the town of Collingwood to issue certain debentures; to incorporate the, Westport and Sault Ste. Marie Railway Company; to re-duce the capital stock of the English Loan

Company. Mr. Baskerville moved for a return of all the correspondence with regard to the importation of Irish immigrants," Oarried.

The following bills were read a second time :- To amend the Assessment Act and the Municipal Act; to amend the Ditches and Water courses Act; to amend the Consolidated Municipal Act with reference to the construction of drains,

ONTABIO LEGISLATURE.

FIFTH PABLIAMENT -- FIRST SENION.

On Tuesday Mr. Pardee moved the first reading of a bili to amend the railway act o Ontario, to protect the owners of mines crossed by railways from having their property expropriated by the railway companies. The bill provides that the owner of a mine shall give notice to any railway company settled by arbitration as provided by the railtime.

The house resumed the debate on the budget, the principal speakers being Dr. Mo-Wednesday, and occupied the greater portion of the sitting.

therefore, that while trade is still very dull the worst is over, and that the really rotten houses are already wrecked. Bankers tell us, while admitting that business is slow and checked greatly by the snow blockade, that their customers are exercising more caution than ever and with good results all round. There is no wish to push things during the present season, in fact, such a policy would be unwise, but a steadily growing feeling of confidence prevails as to the future, though it is somewhat early to frame an opinion in regard to the spring trade. The paper falling due this week was large in amount as usual in March, but the day passed without serious rupture. There is no doubt that many renewals were made, but the banks are generally not unwilling to help good customers at this time with the spring trade coming on. There is no particular reason to fear that many actually weak firms in a state of decay are being carried just now by their bankers, the deplorable results of such a polloy by the Exchange Bank having tended to check such wild-cat banking mancauvree. In the West the markets for breadstuffs and provisions were again weak and depressed under 'bear' influence.

GROCEREDS,-In sugar there has not been much change this week, granulated selling at 81 to 810 as to quality, and yellows at 6 to 710 as to quality. A large lot of new Porto crossing mining property that he intends to Bico sugar has been sold to arrive at 64c, work the mine himself. The bill also pro-Molasses remains dull at 42 to 424c for vides that if a settlement as to the value of Barbadoes, the sale of a lot being revides that if a settlement as to the value of Barbadoes, the sale of a lot being re-the mining lands cannot be arrived at by the ported at the inside figure, and a lot of Cuba owner and the railway the price shall be at 250. Syrups are quiet at 40 to 650 as to settled by arbitration as provided by the rail- quality. The full market continues exceedway not of Ontario. The bill was read a first ingly dull, transactions being confined to small parcels to cover the imperative necessities of the moment. In Valencia raisins it appears that a large quantity of 1882 crop was left Laughlin, Mr. Clarke, Mr. Boss and Mr. S. over and the very low prices ruling there-White. The debate was again resumed on for induced buyers to run upon old stocks in place of new, and now that most of the old fruit has been absorbed, they demur paying TOBORTO, Feb 27.—The following bills the difference for the new, which causes slow were read a first time:—Mr. O'Connoz—To trading. We quote Valencias 51c to 6c, do abolish distress for rent. Mr. Laidiaw—To selected in layers, quarters 71c and halves 7c, with sales at the latter price. More activity 1883. Mr. Waters-To amend the Act res- in Sultanas is now springing up at 7c to 74c. pecting Coroners' Inquests. Mr. Gibson-To In Malaga truit the market is steady, layers amend the Public Health Act. Mr. Hardy- at \$1 80 to 1 95; loose muscatels \$1 90 to 2 05, and London layers \$2 25 to 2 50. Figs and nuts are unchanged. The tea market is very firm, in sympathy with New York, some round lots of Japans having. been sold here for shipment to that market at better prices than could be obtained here. One lot of good medium Japans was sold yesterday on New York account at fully 30 advance upon prices ruling A few weeks sgo, being equal to 29c at 4 months here. A lot has also been placed for Chicago account. A was not the intention of the Government to letter, just received from Yokohamansays :was not the intrintion of the trovermeent to active function of her basis and the sector of the formation of the trovermeent to active transactions amounting to 2800 guite active, transactions amounting to 2800 piouls. Medium and good medium grades are in best demand. Rates have gradually advanced and at the close show an advance of from \$2 to \$2 per picul for all classes Coffees are in good demand at firmer prices. Spices are generally firm at about former values. Bice is quiet here, although there in Bangoon.
