

EXCELLENT THERAPEUTIC COMBINATIONS

Antikamnia and Codeine Tablets

4½ Gr. Antikamnia, ¼ Gr. Sulph. Codeine.

We meet with many cases in practice suffering intensely from pain, where from an idiosyncrasy or some other reason it is not advisable to give morphine or opium by the mouth, or morphine hypodermically, but frequently these very cases take kindly to codeine, and when assisted by antikamnia, its action is all that could be desired.

In the nocturnal pains of syphilis, in the grinding pains which precede and follow labor, and the uterine contractions which often lead to abortion, in the douloureux, brachialgia, cardialgia, gastralgia, hepatalgia, nephralgia and dysmenorrhœa, immediate relief is afforded by the use of this combination, and the relief is not merely temporary and palliative, but in very many cases curative.

In pulmonary diseases this combination is worthy of trial. It is a sedative to the respiratory centers in both acute and chronic disorders of the lungs. Cough, in the vast majority of cases, is promptly and instantly decreased, and often entirely suppressed. In diseases of the respiratory organs, pain and cough are the symptoms which especially call for something to relieve; this combination does this, and in addition controls the violent movements accompanying the cough, and which are so distressing.

Antikamnia and Quinine Tablets

2½ Gr. Antikamnia, 2½ Gr. Sulph. Quinine.

In the exhibition of quinine, the antikamnia overcomes the headache and general disturbance so frequently produced, and in fact the conditions for which quinine is given frequently include headache, backache and aching of the limbs, and the antikamnia being sedative in its character relieves this.

Antikamnia and Salol Tablets

2½ Gr. Antikamnia, 2½ Gr. Salol.

The value of the salicylates has long been recognized in the varied forms of rheumatic troubles. Salol is salicylic acid and carbolic acid in combination, and is the most approved form of exhibition.

In combination with antikamnia the excellence of both is maintained, whether the results sought are, the relief of pain or the internal antiseptic effect.

Antikamnia, Quinine and Salol Tablets

2 Gr. Antikamnia, 2 Gr. Sulph. Quinine, 1 Gr. Salol.

This combination has been so successfully exhibited in many disorders, where each and all are indicated, that the manufacturers have been induced to prepare it in tablet form for purposes of general supply. The profession will readily recognize that no new therapeutical claim is made hereby; but that the making of these tablets is simply to offer in an acceptable and convenient form, the means of exhibiting a combination already well approved.

On receipt of professional card The Antikamnia Chemical Company, St. Louis, Mo., will be pleased to send, free of charge, samples of each of these valuable combination tablets, also full literature pertaining to the same.

In Pneumonia, where there is restlessness

R Antikamnia (Genuine)..... 5 ll
Syrup Doveri..... 3 ll
Tinct. Digitalis..... 5 lss
Teaspoonful every 3 to 6 hours.

In Painful Dysmenorrhœa

R Antikamnia (Genuine)..... 5 ll
Brom. Potass..... 1 ll
