Studebaker

STUDEBAKER Touring Car \$1000 F.O.B. Victoria

See just that this is a six passenger car. Instead of the usual five passenger touring car, we have, to see this new but not in its equipment and general plan, making the "S" a six passenger car, with two seats of the disappearing roll-over type. The body is long and handsome. The upholstering is in all the modern shades and materials. It is so made that it can be folded down in a few minutes. With the "Hemlock" wheel, the STUDEBAKER "S" really enters the "S" in the "S" and we have a touring car of the type that is the most modern and the most beautiful in the world. It is a car that is a real beauty and a real pleasure to drive. It is a car that is a real beauty and a real pleasure to drive. It is a car that is a real beauty and a real pleasure to drive.

MISS LISTER

Daughter of the present Governor of the State of Washington
