Business Overview: Amphentel manufactures and markets electrical, electronic and fiber optic connectors, cables and cable assemblies for aerospace, industrial, data systems and communications worldwide. The company has over 10 foreign subsidiaries including Pylo-National of Canada. U.S. subsidiaries include two Amphentel(CT) facilities and Times Fiber Communications located in Wallingford (a manufacturer of coaxial cable). This company was previously a subsidiary of LPL Technologies.

Continued Opportunity: As company develops new products and markets with its independence from the control of a diversified company (LPL) they will be available for new venture projects.
