

The salaried staff consists of Mrs. Warren, Assistant Curator, and her assistant. Mr. E. L. Judah, Curator of Museums, acts as technical adviser. Professor T. W. L. MacDermot acts as Secretary of the Museum and has a seat on the controlling committee.

2. THE PETER REDPATH MUSEUM.

The Peter Redpath Museum, a dignified building in the Neo-Greek style, situated between the University Library and the Arts Building, was erected by the donor whose name it bears and handed over to the University in 1882, the architects being Hutchison and Steele.

Its immediate function was to house the palaeontological collection made by the late Principal Dawson. It is the only building in the University solely designed for Museum purposes. It now contains, on three floors, a great variety of Museum material, the most important collections being the palaeontological, the mineralogical, and the zoological. There are also special collections—the Carpenter Collection of Mollusca, and the Lyman Entomological Collection.

The Palaeontological Collection is in charge of Professor J. J. O'Neill, Director of the Department of Geology; Dr. T. H. Clark, Logan Professor of Palaeontology in this Department, being the Curator. The Zoological Collection is in charge of Professor A. Willey, Strathcona Professor of Zoology. Professor R. P. D. Graham, Professor of Mineralogy, is in charge of the Mineralogical Collection. Mr. A. E. Winn is Curator of the Lyman Entomological Collection. There is no expert conchologist at present on the staff of the University, and the Carpenter Collection of Mollusca is looked after by Dr. Willey. I understand that the formal charge of the building as a whole rests on no one individual. There were formerly a number of ethnographical specimens in the Peter Redpath Museum but, as no Department in the Museum was specially interested in them, the Museum Committee authorized the Curator of Museums to remove them to the Medical Building (q.v.) and to reorganize, relabel, and rearrange them.

The salaried staff consists of Professor Clark (whose Museum work—in Palaeontology only—is regarded as part of his official duties), Mr. Winn, for Entomology only, and Mr. S. Chambers, Assistant Curator, with a janitor, a woman cleaner, and a boy.

The Palaeontological Collection: This is on the floor of the main gallery and occupies the greater part of this gallery. In addition to a very wide range of vertebrate and invertebrate palaeonto-
