Rethlehem, Ignoring General Reports of Damage Thru Cold Trend, Reached New High Price.

NEW YORK, June 9 .- Because of its direct bearing upon an already tense international situation. Secretary ther considerations and developments in Wall street today. Measured in terms of quoted values it created a distinct, if not profound; impression, prices declining substantially in parts of the list.

parts of the list.
At the opening recessions ranged from 1 to 5 points, war specialties sing more ground than stable issues. Recoveries, which in some instances farried prices well above yesterday's close, supervened before the end of the first hour, with another but more moderate decline at midday.

Rumor Mongers Busy.
In the early afternoon fresh selling in increasing volume was witnessed, with greater unsettlement, all the

with greater unsettlement, all the leading stocks falling under low prices of the forenoon. The movement bore some of the familiar marks of bearish agression, but was not without signs of liquidation, partly for foreign account. Rumors regarding the tone of Washington's second note to Germany were then in active circulation, but these were clearly in the nature of conjecture and failed of serious acceptance. ance in conservative quarters. Some inprovement was noted in the final liour, but recoveries were mostly fractional, with a feverish close. Total sales amounted to 555,000 shares.

Another importation of gold from tion of the entrance of new and power-ful interests to the directorate.

Another importation of gold from Canada, coinciding with the release of more gold by the Bank of England, constituted the features of the foreign exchange market, with France also showing a firmer tendency.

Bonds were irregular, prices shading after an early show of strength.

Trading on Local Exchange Insignificant and Confined Almost to Unlisted Issues.

Business was exceedingly dull on the Toronto Exchange vesterday. Fear that another belligerent, the United States, might be added to the European conflict, had a detrimental influpean conflict, had a detrimental influence on prices, and this, no doubt, affected buying sentiment here. Not a share of either Twin City, Brazilian or Mackay changed hands during the day. Steel of Canada, which is being strongly tipped for a rise, fell off a fraction. Steel Corporation shares fared a little better, with sales as high as 31 3-4.

There was more activity in the un.

There was more activity in the unlisted department. McIntyre, Timis-kaming and Peterson Lake were off about two points from Tuesday, ters was strong, on small trans actions. The latter sold up to 105, an advance of three points, and those inrested in the stock talk as usual of uch higher prices.

# **DOMINION IRON AGAIN**

Fractional Gain Recorded on Fairly Heavy Dealings Yesterday.

MONTREAL, June 9.—Stock market usiness here was featureless today except for a fairly strong market in Iron and some selling of Montreal Power. Iron moved up to 33 1-2, or 1-4 whove its best price of the previous day, and closed at 32, with a net gain of 1-4. Power sold off to 217, or three below its test sele of a beard lot and was below last sale of a board lot, and was affered at that price at the close. Both the buying of Iron and the selling of Power were in light volume, about 600 shares of the former and 185 of the latter changing hands. EARLY TONE BULLISH

Wave Soon Lost Effect.

CHICAGO, June 9. - Uncertainty over developments in regard to the relations of the United States with Germany had a decided bearish effect today on the wheat market here. The close was heavy at 31-8c to 4 1-8c under last night. Corn was 3-8c to 5-8c, and sats 7-8c to 1 1-8c lower, In provisions the outcome varied from 21/2c off to a like advance.

At first the diplomatic outlook seemed to have little if any influence on the wheat trade. Attention turned almost wholly to reports of frost and of unseasonable low temperatures thruout the domestic spring crop belt.
A quick bulge in prices followed, the
bearish crop report being virtually ignered as having been discounted in advance. Later the receipt of advices that growth in the northwest was not far enough advanced to be injured by the cold wave, led to a change of sentiment, and it was at 

Sympathetic Declines. In the corn pit, the effect of wheat weakness finally proved more than an offset for adverse crop reports and unfavorable weather. The lowa Etate report showed the condition of corn to be the poorest at this time in six years, barring a single instance.

Oats merely reflected the course of other grain. Rural offerings increased to a considerable extent, and especially so tenders of the new crop-Higher prices for corn and hogs lifted provisions. The bulge, however, failed to last when corn fell with wheat.

# MINING SHARES WEAK

Some of the Almost Forgotten Stocks Revived in Yesterday's Trading.

Short selling by professionals caused some further weakness on the Stand-ard Mining Exchange yesterday. The public, for the time being, are pretty much out of the market and the shorts are not fearful of losing stock. Misapprehension as to the McIntyre output is still being used to depress this issue, but well posted market critics predict a rude awakening for the shorts at the right time. A similar prediction is made as to Timiskaming. These two issues and Vipond are about the only free operating stocks on the market, and to these professional traders are practically devoting all their interest.

The day saw a number of transactions in the older issues, some of which were almost forgotten, such as Hargraves and Dobie. The market for Kerr Lake active issues closed weak and clearly at the dictation of those buying to de-
