

" Mr. Editor,

" I would have preferred not to write in the newspapers when I have just received an unanimous testimonial of confidence from my electors of L'Islet, but, it is impossible for me to be loyal towards the Conservative party, to let it be said that I have been elected as a supporter of the Government.

" I did not run as ' Liberal ' candidate and I have not been elected as such ; I ran as an independent.

" I am ready to support the Government in their good measures, but I reserve all my independence, which has so well served me since six years, and with which both parties have accepted in the election which has just been held.

" Yours truly,

" (Signed)      Jas. Ed. CARON, M.P.P."

Here is a fine sample of the sincerity of all these good Liberals who form part of the Gouin Cabinet!

Cabinet composed of hypocrites, knaves and political assassins.

Lomer Gouin and J. Ed. Caron are a nice pair, birds of one feather flock together.

Gouin assassinates Parent, and Caron binds himself to kill Laurier!
