Note.—A special feature of this stock is a choice display of Ready-to-Wear Plain and Figured Muslin Suits.

COAL DRIVERS' UNION

Will Ask For an Increase of \$2 a Week.

The Coal Drivers' Union will present an agreement to the local coal dealers shortly, asking for an increase of \$2 per week.

A strenuous organization campaign has been going on for several weeks back under the direction of Thomas Minahan. Twenty-seven members were taken into the organization last week, bringing the total up to over 100.

The new agreement will call for no reduction from the present 10 hours per day. The men are now paid \$11 per week for single horse rigs and \$12 for teams.

The union has never had a signed agreement.

I.C.R. TRAIN JUMPS TRACK.

NEWCASTLE, N. B., April 24.—(Special).—A bad wreck occurred on the I. C. R. this afternoon near Milton, N. B., when an accommodation train jumped the track, several cars going over the bank into the South-west Miramichi River. Fireman Cameron Smallwood was buried under the engine and had his legs broken in several places. It is believed he will die. The engineer was only slightly hurt and most of the passengers escaped injury.

To Exhibit at Jamestown.

The Newcombe Piano Co. have received from the Bureau of Inventions at Jamestown, N. B., a request to exhibit one of their instruments made with the Howard Patent Straining or Tension Rods. The company has learned of the invention through a description of it that appeared in the United States Patent Gazette.

The company have decided to acquiesce in the request of the Exposition authorities and send one of their pianos. Mr. A. T. Lawson, manager of the company, left last evening for Jamestown, to install the instrument, and he will be present at the opening ceremonies of the Exposition.

This request comes as a compliment not only to the Newcombe Piano Company, but to the musical industries of Canada, in the unusualness of the United States asking for an exhibit of the result of Canadian inventive genius and manufacturing skill.

This new invention, that is controlled by the Newcombe firm, has aroused interest not only in Canada but among manufacturers of high-grade pianos in the United States, and the makers have reason to feel justly proud of their being solicited by the Jamestown Exposition authorities to come down and show their visitors something new.
