THE GOVERNMENT'S

LOGS MUST BE MANUFACTURED IN ONTARIO AFTER APRIL 29, 1898.

FORCED BY THE WISHES OF THE PEOPLE.

The Government Has at Last Made a Move in the Right Direction—The Bill Read a First Time in the Legislature Yesterday—The Important Provisions in It.

At least the Ontario Government has broken the silence it has long maintained on the subject of compelling the manufacture in Ontario of all logs cut on Crown lands in the province. The announcement is made in the form of a bill introduced in the legislature yesterday by Hon. Mr. Gibson, Commissioner of Crown Lands, and read a first time.

The chief fault found with the measure by the Opposition is that if it passes the House it will not go into effect until next spring, and that, therefore, during the present season, the Americans will take advantage of the short time left them and take out an enormous quantity of timber.

One of the points the Commissioner of Crown Lands insisted upon was that the bill was not intended to be retaliatory in its object, but rather to have as its main end the preservation of Ontario pine.

The import of the act, which is to come into force on April 29, 1898, is best conveyed by citing its main clauses. It provides that:

(1) All sales of pine timber limits or berths by the Commissioner of Crown Lands shall be made subject to the condition that no so much or granted subject to the condition set out in the first regulation of the schedule, and that if such condition shall be sufficient if such condition be cited or mentioned.

(2) The Lieutenant-Governor in Council may make any further regulations in connection with the act, and may also make any regulations necessary to enable the Commissioner of Crown Lands to carry out the object of the act, and the regulations contained in Schedule A.

The first regulation of Schedule A referred to reads:

(1) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(2) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(3) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(4) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(5) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(6) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(7) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(8) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(9) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(10) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(11) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

(12) No person shall be permitted to cut pine timber on the ungranted lands of the Crown, or to cut or remove any pine timber from the Crown lands, except as provided in the regulations made by the Commissioner of Crown Lands, and such regulations shall be subject to the approval of the Lieutenant-Governor in Council.

THE DIOT THICKENS.

Mr. J. Israel Tarte Is as Full of Fight as Ever.

KICKERS CAN'T PUT HIM OUT.

'Poor Laurier, Poor Laurier! He Has No Backbone,' Says the Minister.

AND YET DESPACHES FROM QUEBEC SAY THAT THE PREMIER'S SUNNY WAYS WILL PREVAIL—IDENTITY OF THE CHAPLEAU LEEF ADMITTED—SIR WILFRID HULL KNOWLEDGE OF ALL THAT HAS TRANSPASSED—IF TARTE DOESN'T GO THE GOVERNMENT IS DOOMED.

Montreal, Dec. 20.—(Special.)—There does not appear to be any immediate prospect of a let up in the hostilities now being carried on between the Tarte and Anti-Tarte sections of the Liberal party. The Minister of Public Works is back here to-day and seems as full of fight as ever. He declares the kickers are not able to put him out of the Government, but in replying to a friend he said: "Poor Laurier! Poor Laurier! He has no backbone."

In spite of the fact that despatches from Quebec say that Laurier's sunny ways will prevail, Mr. Tarte opens fire here to-day in La Patrie, accusing Mr. Langelier of injustice and ingratitude. He adds that the Government members will continue to support the Ministry as it is at present constituted.

On the other hand, Le Signal, edited by Mr. H. Lemaire, M.P. for Gaspe, and others, makes up the cudgels for the member for Quebec Centre and his cause.

The Chapleau Letter. Mr. Tarte to-day admitted the identity of the famous Chapleau letter, and when asked what it contained, made the following carefully worded statement:

"You will understand that it is not for me to give the contents of a private letter written by a man occupying such a position as does Sir Adolphe Chapleau. All I can say is that the letter contained nothing of a damaging nature it would have been published long ago. In an instance of this kind I never had any relations with Mr. Chapleau that were not to the full knowledge of my colleagues, and our distinguished leader and our colleagues. This country has passed through very difficult religious crisis, and it should not surprise anybody to find such men as Sir Wilfrid Laurier, Sir Adolphe Chapleau, and other men of like mind as they are, conferring as to the best means of securing to this country peace, harmony and union between its citizens and civil liberty."

Laurier's attitude is deemed. Mr. Tarte to-day admitted the identity of the famous Chapleau letter, and when asked what it contained, made the following carefully worded statement:

The Greater Trade in Pineneers. The extent by the number of salesmen employed regularly. It is an easy matter to count the number employed in the sale of any of the fur and hat stores in the city and the combined number of clerks in the fur and hat stores. At Dineen's, 130 Yonge-street, Cor. Temperance, there are employed 100 men, and for house, twenty salesmen, nearly all old-time employees, are in attendance on the store. This is more than twice the number employed in any other fur and hat establishment in the combined fur and hat departments of the various fur stores in the city. Dineen's are employing more people than they require or doing the greatest work in the fur trade. Every department of the house from the store up remains open for the convenience of patrons and visitors until the end of the year.
