Ald. Denison appeared in his professional capacity, and thought it absurd that the bylaw should preclude the erection of buildings of more than 20 feet frontage, and cited the T. Eaton Co. and Robert Simpson stores as glaring violations of the regulation which was now binding him down.

Chairman Sheppard told him that the former building was outside the limit, and the latter was supposed to be fireproof.

The architect intimated that his profession did not recognize any buildings as fireproof. He technically described the one he proposed to erect as of the "slow burning class."

He will be allowed to go on with the work of construction, and meanwhile legal opinion will be courted as to the validity of the bylaw. If it is valid it will probably be abolished, Chairman Sheppard will calli a special meeting to deal with this matter, as well as with the application of the Elias Rogers Company to put up a 50x24 foot coal shed some yards north of the C. P. R. tracks on Yonge-street. On this last matter a report from the City Commissioner is awaited.

Ald Dunn characterized the application to the latter are proof that a "True Bill." Inprecedented Rush of Orders.

Fire Protection for Bertram's.

Ald. Sheppard and Chief Graham strongly favored granting the application of the Bertram Engine Works for a hydrant and extra 1000 feet of water main from the foot of Bathurst-street for fire protection purposes. The Grand Trunk Railway had consented to allow the mains to cross their property. Ald. Frankland was also favorable, on the ground that it would help a new and growing industry. Ald. Dunn opposed it because it was creating a bad precedent. Ald. Davies sided with Ald. Dunn, and the matter had to be laid over till the next meeting.

Will Compete vith Electricity.

Acknowledging an instruction from the City Solicitor to remove all unused lamp posts, the Consumers' Gas Co. wrote asking the committee to reconsider this decision. They claimed that there were 1000 unused posts not removed, because there was a prospect of future use. The city might, it was stated, return to the use of gas in certain localities, and the work of replacing would occasion heavy expense and thereby preclude the company from tendering, as it proposed to do, at the expiration of the present street lighting franchise for a greatly improved light at the same or a lower rate than is now being charged. This would be to the disadvantage of the city, so 'twas stated. This matter was also left in abeyance.

The recommendation of Chief Graham that 150 feet of pipe with attached hydrant be laid at the foot of Spadina-avenue was sent on to the Board of Works.

and Strength Regained.

Mr. F. J. Brophy, employed in the money order department at the General Post Office, Montreal, Que., says he had a very severe attack of La Grippe, which left him all run down, nervous, without appetite and very weak. How many

people all over Canada, who have been victims of La Grippe have been left in the same serious condition. Mr. Brophy goes on to say that often he could not sleep at night—a fact that shows how disordered his nervous system had become; but, he continues, "hearing of the good effects of Milburn's Heart and Nerve Pills I began taking them and Nerve Pills, I began taking them, and much to my gratification they have braced me up, invigorated my entire system and made me feel like a new man."

That's the way Milburn's Heart and Nerve Pills always act. They lay a solid foundation of good health by strengthening the heart, invigorating the nerves and enriching the blood. Anyone suffering from the serious after consequences of La Grippe, or any severe sickness, can always depend on the restorative action of Milburn's Heart and Nerve Pills to give them back old time strength and vigor. "The Sign of the Cross" has brought to the playhouse more clergymen and non-theatregoers than any or all of the moral plays of the present day. Prominent priests and clergymen in both England and America have written and preached of the power for good that the play possesses. Its lofty sentiments, examples of the sufferings and awful martyrdom of the followers of a faith that was then in its infancy; the cruelty and profligate luxury of the Roman court and Nero the corrupt ruler, and the final triumph of Christianity over Paganism, are presented so powerfully and with such a wealth of beautiful scenery and magnificent costumes that, entirely aside from the lesson it teaches, "The Sign of the Cross" is said to appeal to all lovers of a powerful and beautifully staged production.

The sale of seats for the engagement of Wilson Barrett's beautiful religious drama, "The Sign of the Cross," will begin to-morrow morning at the box office of the Grand Opera House,
