Getting After Men's Hosiery To-Morrow

This has been a record sale. Word-of-mouth advertising has spread the news of this event quite as much as our daily announcements. Every woman who sees and profits sends in her relatives and friends to get their share.

Now the particular relative and friend whom we'd like to see sent in for to-morrow's buying is the relative or friend WHO WEARS SOCKS. The values we have for men are quiteas unusual as those for women. If the men haven't the time to come and choose their own socks, to-morrow is the time you can do them a good turn, by shopping here for them.

Of course there'll be fres! hosiery items for women and children as well, to-morrow; but we want to see more men getting their share of this great sale.

Fall and Winter Wear

-New Knope Cheverons. -New Hopsac Wale Suit-

-New Two-Tone Cheviot Suitings.

Two of these new weaves might be fairly classed as variations on the theme "Homespun." "Homespun" as you know, is a polite fiction. The wise woman of the book of Proverbs and our less remote ancestors, arrayed themselves in garments spun and woven as well as fashioned by their own fair hands.

The demands of 20th century civilization preclude these occupations, but many women and most men still delight in women's garments which suggest the old home processes. The most celebrated power looms in France and Britain now cater to this taste. Our advance showing of suitings embraces their latest products, which it is claimed, are at the same time their masterpieces. Tailor-made is of course inseparably linked up with all modern homespuns.

Supplement your early choice by prompt instructions to our tailoring department and you'll solve your problem without worry or delay.

"KNOPE CHEVERONS." Something new in suitings just arrived for fall wear, in the newest shades, Venetian blue, new taupe, nickel grey, wintergreen, new rose and nectarine, beautiful full rich colors, specially adapted for coats and suits, thoroughly shrunk and permanent dyes, 46-inch, \$1.25 yard,

TWO-TONE CHEVIOT SUITINGS. Undoubtedly fashion's favorite suiting for fall and winter wear, nice heavy suiting weight, in full range of new two-tone blendings, handsome and reliable quality, pure wool and thoroughly sponged, absolutely fast dyes, ncn, \$1.25 yard.

HOPSAC WALE SUITINGS. A new departure in suitings, very stylish and distinctive suitings in a lovely range of fall colors in new shades, Burgundy, taupe, marine navy, olive green, thew rose, ravens-wing, military blue, reseda, green; these fabrics tailor particularly well and retain the original shape; carefully sponged and permanent finish and dyes; 52-inch; \$1.50.
