Tyrus Cobb, for nine years. Tyrus Cobb, for nine years the leading batsman of the American League, yester-day conceded that Tris Speaker of the Cleveland Club would be the 1916 cham-pion. Speaker now has a margin of near-ly thirty points over Cobb, according to unofficial averages. Cobb said it was a human impossibility for him to try to cut down this lead and at the same time to co-operate in team-play to the fullest extent of his ability.

Shortstop Rawlings of the Toledo Club of the American Association has been drafted by the Boston Nationals. When the curtain rings down on the 1916 baseball season, there is a strong possibility that "Cactus" Cravath, Phila-delphia National's right fielder, will re-tire.

which the United States soldiers have learned on the Mexican border is that a certain type of machine gun which is supposed to be air-cooled scarcely cools at all when subjected to steady service for any length of time. The barrel is provided with radiating flanges like the exterior of an air-cooled gas engine cylinder. Water is now applied to these guns with long-handled sponges which have been provided for the soldiers for this purpose. These weapons each

same inninges so five of the six swats, divided equally among the trio, were wasted. Same made one of his count for our sole tally. Mays had a big advantage over the Detroit slab men in that his control was perfect. He passed only one man and dia that purposely to help himself out of a facklish situation. Carl Propaoly would have had s shut-out if he had re-sorted to the same sort of strategy ear-lied. He made the m istake of grooving the ball to Burns in the fifth, when Burns had him in the hole, and the big first-baseman busted it. Next tim up, no such opportunity was given the Those boy, for he walked on four of the widest balls ever thrown, amid hoots of deri-sion from the fans, who never will be educated up to this sort of maneuvring. You can't Dalme them, at that, for they go to the park to see batting and field-ing, rather than the gillette system of paying the game. There was not a duil moment in the context, for Boston was always threat-ening and the Tigers were getting on the bases often enough to keep a crowd of nearly 15,0000 on pins and needles. No particulary spectacular pieces of first and none out in the firth, Lewis hit a short fly to centre. Ty naturally was playing deep for Duffy, who is a long-dist and none out in the firth. double killing as you are apt to see in a season. Both pitchers were well supported and all of the runs were earned. Detroit presented a makeshift infield, with Hell-man at second and Young at third, but the two men who piayed the strange po-sitions gave satisfactory service. Young had very little work to do, but Harry accepted eight or nine chances, booting one of the easiest offered him. He was not altogether familiar with work of cov-ering the sack, and once forced Bush to make a sensational play because he fail-ed to get over in time to take a throw. But, all things considered, he did very well.
