NO QUARTER TO LEADERS

Reactionary Elements in Army Will Be Swept Away.

Berlin, Mar. 29 .- Chancellor Mueller, in a speech outlining his program, told the national assembly today that "the reactionary elements in the army will be swept away with an iron broom."
The new chancellor devoted half of his speech to consideration of the recent revolution.

No quarter will be shown to the mili-tary leaders who violated their oath said the chancellor. The terms of the peace treaty were responsible for the reactionary sentiments still prevailing in many quarters in Germany, he added. The chancellor asserted the added. The chancellor asserted the government would oppose the French demand for allied occupation of Frankfert, Darmstadt and other cities, in return for the privilege of sending German troops into the neutral zone. The government, he continued, "does not propose to subject these peaceful communities to the terrors of occupation."

The new government was fully represented at today's session of the assembly. Gustav Noske, the former minister of defense, and Dr. Schiffer, former minister of justice, occupied seats with their party factions. The assembly recessed for two hours to

permit the parties to prepare their responses to Dr. Mueller's speech.
Dr. Mueller declared that the government was determined to prosecute the conspirators as well as "the in-tellectual instigators" of the revolu-tion. The chancellor addressed his remarks to the right side of the house without making any specific reference to individuals

The swift collapse of the Kapp regime, the chancellor continued, was due to the fact that there are still democrats in Germany. "Our duty now is to put them in

the leading official positions," said Dr. Mueller. He announced the government forthwith would take up the problems of socialization, the first of which would be the seizure of the coal
