Inmates Take Fright and Huddle Like Sheep Around Fire Escape Which Had Not Been Lowered—Police Club Them Back and Many Lives Are Saved.

NEW YORK, Sept. 8.—While trying to save his two children, a son and a daughter, both under ten years of age, from a fire in a crowded tenement building in East 74th street early today, Antonio Coletto and both children were suffocated by the smoke. The body of the father was found lying in the hallway of the fifth floor with the children clung to his arms, where he had fallen in an effort to reach the window when the firemen were taking others down their ladders. Coletto had already helped to carry his invalid wife to the roof, where she expired to an adjoining building.

Serious Rioting Occurred on Wednesday—Rioters Burned Street Cars—Eight Hundred Arrests Made and Six People Killed—Tokio Rapidly Becoming as Bad as St. Petersburg—Comments of the Press.

SIX HUNDRED MEN MADE FROM RUINS

Widespread Destruction and Great Loss of Life From Earthquakes in Italy—Many Victims Sent to Sudden Death.

TOKIO, Sept. 8.—Last night's rioting was not particularly serious. Thirteen cars and one railway truck were destroyed. Thirty persons were arrested during the rioting, and many others were slightly wounded by stones and the crush of the crowds. The disturbances in the Kanda district of the city proved not to be serious. The crowd first threatened to burn the Russian consulate but a sergeant of the guard drove the crowd back by telling them that if the consulate were destroyed he and the guard would commit suicide. The crowd agreed not to touch the consulate. There was considerable disorder and noise in the district but there was no destruction of property and no serious clashes between the crowd and police. Demonstrations against the metropolitan police headquarters continued until a late hour. Crowds swarmed around the jail and looted and threatened. The newspapers generally assailed the police authorities for withdrawing street patrols and leaving the city unprotected. Soldiers are proving to be more effective than the police in handling the crowds. The soldiers are popular and the crowds generally obey their orders. Accompanying the ordinance declaring martial law is an urgency ordinance increasing the restrictions on the press and giving authority for the suspension of papers guilty of increasing the excitement and other breaches of order. Under this ordinance the government has suspended the publication of the Miyako, the Yurusu and the Meishu.

SEVERAL VILLAGES DESTROYED

Loss of Life May Reach One Thousand—Feared That One Hundred People Are Under the Ruins in One Village—Six Hundred Bodies Removed from Another.

POLICE COURT

There was a brief session in the police court this morning.

George Clarke was given in charge yesterday by George Sweet for breaking and entering his home on the corner of Ludlow and Water streets, also with making indecent proposals to his wife, Mabel Sweet. This morning Clarke was remanded, as the magistrate stated that the remainder would give him time to get the run out of him. Mr. and Mrs. Sweet were in court, but were not required to testify. Clarke complained of heart trouble, and Dr. Bryman will visit him. Henry Davis was arrested for being drunk and using obscene language on Water street. He was fined \$8. Wm. Daley was arrested for wandering about St. John street and giving a satisfactory account of himself. White that was going on board his ship between eleven and twelve o'clock was given in charge by Patrick Fitzpatrick for stealing a bottle of whiskey from his wagon, standing on Main street. The case did not come up this morning. Wm. E. Earle, of the Earle Publishing Co., was reported for having three barrels on Drury street on Aug. 1st and Sept. 1st, and allowing the papers to blow over the street. Mr. Earle appeared in court and stated that young boys digging among the rubbish in the barrels were causing the papers to fly about the street. He stated that in the future he would have the rubbish hauled away.

THE CARLETON BURNED AT THE STAKE

Judge Barker Opened Court at Woodstock This Morning—Arguments of Counsel.

WOODSTOCK, N. B., Sept. 8.—(Special.)—Justice Barker opened his court at the court house, Upper Woodstock, this morning at 10 o'clock in the election petition trial against Hon. W. P. Jones as a member for Carleton. Attorney-General Pugsley and E. B. Carvell represented the respondent, and J. B. Connell, K.C., the petitioner. J. H. Sims, Fred Devine was the stenographer. Mr. Connell addressed the court and Attorney-General Pugsley replied. In reply to his honor Mr. Connell quoted several authorities to prove that the 6th section of the election act was not imperative but simply directory and that the sheriff could receive nominations after 12 o'clock. The substance of these opinions was that the people should have every opportunity to vote on the names of candidates and they should not be deprived of that right through any technicality. Attorney-General Pugsley replied that the authorities quoted did bear on this case, as the former cases were where the act had been done, but in the case at issue the sheriff had not received Mr. Sims's papers, and no act had been committed. The law says the sheriff shall not receive nomination papers after 12 o'clock. Your Honor is asked by the counsel for the petitioner to place yourself in the place of the sheriff and to say whether you would, in such circumstances, receive the nomination papers after 12 o'clock? In the matter of the disappearance of the Bible, the sheriff and other officers had no part in the disappearance of the Bible and it was not their duty to have the Bible present if he knew that his papers had been taken. He suggested that one of the officers of the party who had been present at the time that Mr. Sims's papers had been taken should be interviewed and a report made to the court. The witness stated that he had seen the sheriff counted the money given him and appealed to Mr. Sims. Mr. Connell commenced his speech in rebuttal after Mr. Carvell had finished at 2.50, when court adjourned until 2.30.

RIOTING IN THE STREETS

TOKIO, Sept. 6, Wednesday, 9.30 p. m.—(Delayed in transmission)—The city was in a state of excitement and a tempest of feeling everywhere manifested. Nightfall brought a verification of the prediction of rioting. The streets in the centre of the city began filling at dark. The first disturbance occurred in the vicinity of the residence of Minister of Home Affairs Kato. A mob, again attempted to fire the structure, but were restrained by the guards. Considerable roughness and fighting followed, resulting in the destruction of the residence of the metropolitan police headquarters. They refrained from attacking on account of the presence of a strong police reserve. The passage of street cars through the crowded streets angered the people and they began attacking and destroying the cars. They drove off the crews and passengers and set fire to the cars. The large cars were speedily destroyed. Later an outbreak occurred in the Kanda district of the city, where a fire was started. Because of popular enmity, largely directed towards the police, street patrol officers were withdrawn and the police have been centred at the danger points. The withdrawal of the patrols has left the streets unguarded and has given license to such minor disorders. Up to tonight the number of arrests totalled 80. They are on charge generally of rioting and inciting riot.

Word of a suicide in one of the cars in the I. C. R. yard has reached this city as the paper goes to press. The body was discovered in the closet of a second-class car on the Sussex express train which was standing on the tracks near the round house. It could not be learned what his name was, but he was an employee of a conductor in the St. John Railway Co. Coroner Roberts has been notified and Chief Clark is now at the scene of the tragedy. It is not known what prompted the rash act, but an investigation will be made at once by both the police and coroner. The street railway officials have sent a man down to see if they can identify him. Later Further particulars of the tragedy in the I. C. R. yard have been received. The young man's name is said to be Manfred Golding, who looks at the Ferris Hotel, Lindalton. He is about 20 years of age. The body was found in the toilet room by one of the car cleaners who was making his rounds. He tried the door of the closet which was found to be locked. He then procured a ladder and got in through the window. When he had opened the window a ghastly sight met his view. Crouched on the floor of the box like room, was the body of a man, white on the floor at his side lay a deadly looking Colt's revolver. Clambering in through the window he was able to make a close examination of the body. He found that the man had shot himself through the head. He was attired in the uniform of a conductor on the St. John Railway Co. The official who made the discovery immediately gave the alarm, and word was sent to Coroner Roberts, who arrived shortly after.

CONDENSED DESPATCHES

James J. Jeffrey says he will retrace the Brit-Nelson contest and that there will be a final fight. The San Francisco Chronicle says there is no side bet. Four new cases of cholera were reported in New Brunswick towns today. Three deaths will result from a railway strike on the Pres. Marquette road in Michigan today. George Gorham, who was recently appointed harbor master at Indiantown, signed the necessary documents this morning and will be sworn in probably tomorrow. DIPHHERIA IN THE SOUTH END

Four cases of diphtheria have been reported to the board of health since yesterday, three of which are in the house of Michael O'Leary, on Britain street, and it is rumored that there are several other cases in the same locality. There is also a case in a house on Germain. No case for the outbreak has as yet been discovered. Two of the cases have been sent to the hospital. Physicians say that the type of the disease varies. Some cases are pretty bad, while others are very mild. According to scientific men, the disease is contracted very largely by contact. The board of health have been investigating the matter, but up to the present time no definite cause can be assigned. Some think the disease spread from one family by the intermingling of the children, and authorities say that this would not be improbable. This same district had a scourge of the disease last year, and the authorities should look very carefully into the matter. A veteran, having gone out with the second contingent, he was a son of Gilbert Golding of Wickham, a well known and respected farmer. He also leaves one brother at Wickham. Previous to engaging with the Street Railway Company, he was employed as a spare driver with the American Express. An inquest will be held by Coroner Roberts tonight.

SAVAGE FIGHTING AND GREAT SLAUGHTER

Maddened Crowd Charges and Captures the Guns and Deluges Gunners With Burning Oil—Cossacks Driven Back—Hospital Wrecked.

ST. PETERSBURG, Sept. 8.—(Special.) The Car has caught a Tartar. The outbreak of yellow fever in New Orleans and of cholera in Germany had led to the impression that the Emperor would have something soon. He is in quarantine at Tansko-Selo. A CLEVER DUCK. There is not a particle of truth in the statement that Mr. James J. Jeffrey, who yesterday and today a wild duck. He might have done so if the fowl had perished in getting between his gun and the target, but it was wise enough to be somewhere else each time he fired. He says it acted with great discretion, and refused to spoil his sport by being shot.
