DYKEMAN & CO. of that state. One hour, two hours, three hours passed, but no train pulled in. I was about to negotiate for a Other Views vehicle to drive me to the place I wished to make when the station agent said: even in middle life dies, the names of province classing women's skirts and the children are mentioned in the church organizations with "any form obituary paragraph in the Press. It is of barrage"—he must be a midget to the hearned that in great numbers of barbage"—he must be a midget to borders of them live beyond the Doctor Myles speaking out regarding term-time entertainments for school in the United States. They go when the relegraph-Journal office: a local Apart altogether from any redress citizen overturning his car because of grievances as old as Confederation, brakes and steering-gear both failed the matter wasted opportunit, simultaneously—and nobody worrying. THE WESTERN VIEW. which would soon heat the tank enough to kill the fish. To keep the water supplied with oxygen for the fish to breathe, it is absolutely essential to have a generous supply of growing water plants. By water plans is not meant any plant that has roots in the water and the leaves in the air, but only plants that live wholly under water all the time. Such plants may be bought where you buy your goldfish or gathered from the bottom of any permanent pond. There are many varieties and any of them will do. These plants generate oxygen for breathing, and the fish keep clean and healthy by rubbing against them. Queer Quirks of Nature HOW TO KEEP GOLDFISH HAPPY. or grievances as old as confederation, brakes and steering-gear both failed there are too many wasted opportuni-ties in these provinces. These are not dependent on governments or on other provinces. They lie at the doors of the people, and are not seized because there OCICS ANDEERCONS OCICS ANDEERCONS OCICS ANDEERCONS DESCRIPTION Tailed ally—though not, unfortunately, legally -to the western provinces, it can be urged on quite sound grounds that the west will itself meet every dollar of what might be called the experimental stage of the development of the H. B. Toute. Tasked. "What's the matter?" I asked. "Oh, a boyish trick. "Well, some boys were on the way home from school and one of them raid he would remove a value and said he would remove a valve and blow one of the tires up still more." "Ah, and I suppose this is the tire ROAD DESTROYERS. (Peterboro Review.) The spectacle of two heavily-laden trucks mired to the "Ah, and I suppose the beau up?" "Ah, and I suppose the beau up?" Filipino Justice (Manila Times.) Our people must arouse themselves for the sake of their children, and when time to see a thief climbing out of the hubs, almost side by side so that only a fish keep clean and nearthy by rubbing against them. I have kept goldfish alive and per-fectly happy for two and three years without once changing the water ex-cept by adding a little now and then to keep it at the required level, and cleansing of the bottom by the use of a syphon for which a small rubber tube was used. There is one great don't to rememthe sake of their children, and when someone says: "It can't be done," be prompt to answer: "Let's do it." Dis-trust, prejudice, apathy—all these must be overcome. Our resources must be developed. The business men of every city and town should be in close and sympathetic touch with the farmers. More should be done to develop our fisheries. Markets must be found for men we have accomplished that, even when we have accomplished that, even There is one great don't to remen ber and only ouc. Don't over feed. Fish grow according to the amount of food available, but the house pet of food available, but the house pet needs very little to keep it alive and Give Her An dren with us in their own land; and, when we have accomplished that, even in part, the consciousness of success will spur us on to still greater achieve-ments.
