WILL ATTEMPT CHANNEL SWIM

Mrs. C. E. Semple, of Toronto, Confident of Achieving a Crowning Natatorial Triumph—Stay Two Days in Water.

(Toronto Globe.)
Toronto people, particularly those who are interested in swimming, will be glad to hear that Mrs. C. E. Semple, president of the Toronto Ladies' Swimming Club, is preparing for the great feat of swimming the English Channel. This arduous test of skill and endurance, at which so many swimmers have failed, she will attempt in the third week of August, and will leave Canada for the Old Country on July 21.
Mrs. Semple looks forward to her great adventure with much confidence and hope, built on the sound foundation of a tremendous enthusiasm for her favorite sport and her previous splendid achievements in it. All her life she has loved the water and for the past five years she has specialized in swimming. Swims For Ten Hours.
Last September, in Chicago, she car-

ried off the challenge cup in the ten-hour endurance contest, which meant that she remained not only in the water, but in constant action, for ten hours. Endurance in salt water, Mrs. Semple assured The Globe yesterday, is much easier than in fresh, and so she antici-

pates no difficulty in remaining in the Channel for a long period.
"As a matter of fact, I shall go prepared to stay in the water for two days," said Mrs. Semple. "I am leaving shortly for Muskoka, where I shall practice on twenty-four hours swims and thus prepare for my venture overseas. I am sure I shall be able to make a high record at least, since Annette Kellerman's, which is the highest so far, stands only at six hours."
When asked as to food and sleep during the two days in the choppy waters of the English Channel, Mrs. Semple explained that she expected to cross the Channel with an old and very reliable pilot, who would watch her progress, from his boat and keep her supplied with food as she required it. Every swimmer, she stated, was accompanied by a boat in which traveled a nurse, who acted in case of emergency or need.

Will Not Need to Sleep?
Meals for the swimmer here are served from the end of an ear every four hours and consist of solid chocolate, English household grapes and beef extract. As for sleep, Mrs. Semple seemed to think that life "in the brim" was so invigorating that such a necessity could be dispensed with for a day or two.

"I never was tired in the water in my life," she said. "I suppose I am sort of a fish. Anyway, I do love swimming."
Canadians will watch with keen interest the outcome of Mrs. Semple's adventure in the English Channel, and if she succeeds, or makes the highest record ever made by a woman, her fellow-countrymen will be tremendously proud of her.

J. P. HYNES, Of Toronto, who was elected President of the Town-Planning Institute of Canada at the annual dinner held in Ottawa.

The fire department responded to a still alarm last evening for a fire which was discovered burning under the verandah of Joseph E. Arthur's home, 10 Pitt street. One of the pillars of the verandah was charred and some of the flooring torn up, but otherwise there was no damage.

SLOW PROGRESS WITH U. S. TARIFF

(Bradstreet's.)
Progress with the tariff bill in the Senate continues to proceed at a very slow pace. A glance at the despatches from the national capital indicates that the action on the amendments to the house bill proposed by the finance committee bears but a small ratio to the amount of time consumed in debating. This halting method in disposing of the bill has provoked many complaints from Senator McCumber, the finance committee chairman, who has the measure in charge. At times he feels called upon to contrast the length of time expended in oratory with the meagre results achieved, as when on Wednesday he reminded the Senate, with a view to ending a discussion, that that body had been in session for six hours without taking a single vote. On that day Lenroot's opposition led him to withdraw the high rate on barytes ore. On an earlier occasion, when attacks of Republican newspapers at the bill formed the subject of debate, he called attention to the fact that in the course of a six-hour session the Senate had only passed on one item. A vote of more than usual interest was had on Monday of this week when the committee rate on citrate of lime, namely, six cents a pound, was sustained by a small majority against an effort of the farm bloc to increase it by fifty per cent. An effort was made by the Republican leaders on Tuesday to secure a unanimous agreement on the part of the Democrats to begin voting on amendments to the bill without de-

bate on June 1, but this endeavor was fruitless. The Senate has been holding night as well as day sessions with a view to speeding the passage of the measure, but up to the present there has been no marked gain in celerity, and

many members fear that the struggle to get the bill to a final vote may consume the greater part of the summer, and that too, in a year of congressional elections when fence mending is more or less of a pastime in vacation weather.

TESTS FAST-FREIGHT ROUTE.

Chicago Plans to Make Deliveries in England in Seven Days.
Chicago, May 25—Products manufactured in Chicago may be delivered in Europe in seven days if the race started last week under the auspices of the Chicago Association of Commerce proves successful. It is hoped to establish a record for the fastest freight shipment from Chicago to Southampton, England, and to prove the necessity for a fast package freight service from here to Europe.

By use of a special forty-eight hour freight train over the New York Central, a car float loading arrangement in New York and the world's largest steamship, the Majestic, they hope to make the shipment in exactly one week.

A. W. McLaren, traffic manager of Morris & Co., has charge of the experiment.
Lumber is Moving.
Amherst News—E. I. Beer of the Douglas Rogers Co., has returned from St. John and towns in northern New Brunswick. Speaking to the Newsmen at noon today, Mr. Beer remarked that business conditions in the timber districts of New Brunswick were showing visible improvement.

Going-Out-of-Business

BAIG'S WALL PAPER STORE

At 74 Prince Edward Street
