

OF MILITARY M. C. A. HAS NOT ENDED WITH WAR

Honor Roll of Local Branch
Also Unveiled With 126
Names Including 26 Who
Have Fallen—Ladies Aux-
iliary Serve Banquet.

inner given in the Y. M. C. A.
last evening by the directors
association in this city, with the
vice of the Ladies' Auxiliary,
W. Bishop, the National Coun-
secretary of the Young Men's
Association, delivered an ad-
dress on the future aims of
association with reference to their
among the returned soldiers. He
introduced to those present by the
chairman, H. S. Miller, who said that Mr.
Bishop was largely responsible for the
great measure of success which had at-
tended the war efforts of the Y. M. C.
A. overseas.

Mr. Bishop, in a very forceful manner,
told his audience that the work of the
Y. M. C. A. among the returned men
was by no means finished for in the days
of reconstruction now taking place, the
discharged soldier needed the help of
their organization more than ever. He
said that petitions had been received
from the many large centres where Red
Triangle Huts were open, not to close
these huts.

Mr. Bishop went on to say that even
more important than the work of the
Red Triangle Huts was the association's
work in the hospitals. He stated that
the Y. M. C. A. had even yet representa-
tives in forty different hospitals through-
out Canada, and it was very essential
that this work should not be abandoned
but should be kept up all next year and
even longer in some of the larger hos-
pitals.

He spoke of the relation of the Y. M. C.
A. to other agencies and especially to
the Christian church and that a confer-
ence between a joint committee from the
five principal Protestant churches and
the Y. M. C. A. would soon be held and
the probable results of this conference
would be the formation of a status be-
tween the churches and the association
and a working arrangement by which
the efforts of the latter would be linked
up with the former. He concluded by
exhorting all to work together for the
general benefit of the association.

Ernest Barbour moved a vote of
thanks to the speaker which was sec-
onded by F. A. Dykeman and the chair-
man to the guest of honor by the chairman.
Mr. Barbour also congratulated the St.
John branch on the addition to their mem-
bership and on behalf of the staff of who
welcomed the new boys' secretary, F. I.
Woodworth, and the new physical direc-
tor, Thomas Armour.

Two very enjoyable solos were well
rendered by Louis LeCacheur and by
Harry Holmes.
Rev. M. E. Conron, of the Zion Meth-
odist church, was then called upon by
the chairman to unveil the memorial

tablet to the members of the local
branch who had answered the call of
king and country, and Mr. Conron, whom
the chairman explained had served in
the army as both private and chaplain,
with an eloquent and touching address
the dead drew aside the Union Jack lay-
ing bare the tablet of 126 names. The
tablet was designed by C. H. Flewelling
and at its base on one side was the fig-
ure of a soldier and on the other side that
of a sailor. Beneath was the following
inscription: "I pray that God who has
pleased to grant us victorious and to this
great crusade for justice and right, will
prosper and bless our efforts in the im-
mediate future to secure for the gener-
ations to come the hard-won blessings of
peace and freedom."—His Majesty the
King.

AVOID ALUM IN FOOD

Baking Powder is one
of the most important
food ingredients. Alum
or other injurious acids
are frequently used by
some concerns to lower
the cost of production.

MAGIC BAKING POWDER

It is a pure phosphate
baking powder and is
guaranteed to be the best,
purest and most health-
ful baking powder
possible to produce.

W. Matthew Williams, in
"Chemistry of Cooking," says:
"Phosphates are the bone-
making material of food and
have something to do with
building up of brain and
nervous matter."

CITY CORNET BAND FAIR NOW IN FULL SWING

Interior of St. Andrew's Has
Been Transformed Into
Scene of Rare Loveliness—
Niagara Falls in Operation
Tonight—The Committees
in Charge.

With a record-breaking crowd the
seventh Around the World Fair of the
City Cornet Band was opened in St.
Andrew's Rink, last evening, and will be
continued each evening during the week.
Veterans in the band predict that from
the success of the opening night the big
indoor event will be a record breaker
in every respect. The official estimate
of the attendance last evening was
1,500, fully a third more than that of
any previous opening night.

Past masters in the art of entertain-
ment, the bandsmen had left little
undone that would go to fulfill all pre-
dictions made. True there were a few
things which it had been impossible to
complete in time but these defects will
be all remedied for tonight and the rest
of the week. It was a lively and in-
teresting assembly at the ring and the
patronage extended goes to show the
place occupied by the band in the public
estimation.

One must see to appreciate the beau-
tiful decorative effects secured in the ar-
rangement of the spacious interior. The
great space had been converted into a
paradise of light and colors and hunt-
ing. The far end of the rink, which,
in past years, it has been found some-
what difficult to "touch up" was the
best part of the effect secured. By
means of the large arch which occupied
the head of King street during the visit
of the Prince of Wales, and which is
now historic, the western end of the rink
was completely enclosed and beautifully
lighted. One half was devoted to the
stage whereon the juvenile band enter-
tained the crowds with a fine musical
programme.

Niagara Falls Reproduced.

The other half was devoted to a
replica of Niagara Falls. To the great
regret of those in charge of the fair it
was found impossible to have this in
complete working order in time for the
opening. The background of the scene
was painted by Fred Stringer, the Im-
perial Theatre artist, he took his idea
from one of the excellent paintings of
the falls and produced a canvas some
thirty feet high by more than forty feet
wide showing the waterfall. Lighting
effects produce an idea of reality but,
because of the fact that the pump re-
fused to work at the last minute, the
great natural effect, a screen of real
water, could not be put in operation and
there were lacking some of the neces-
sary details in the way of trees and
grass. This, however, will be completed
in time for tonight and visitors will then
have presented for their inspection a
truly natural view of the great and
mighty Niagara.

However, there was plenty to interest
the great throng. The variety of booths
offered endless attractions and refresh-
ments were obtainable by all who de-
sired to partake. The display of bun-
ting and the interplay of the electrical
effects produced a splendid result set off
neatly by the prize winning float design
of Christie Bros. in the "Joy Day" parade
which occupied the centre of the floor
and was a rally point for all.

The Juvenile Band formed up at the
head of King street and marching to the
rink was followed by hundreds who
spent the evening most enjoyably at the
fair. During the evening they played
several selections more than confirming
the splendid opinion already formed of
them.

The Around the World trip tickets,
or their equivalent in cash, found ready
purchasers, and in fact, the demand for
these tickets was so great as to make
a serious tax on the supply on hand.
In addition tickets were sold at ten
cents each for a \$100 Cremonophone
donated to the band for the fair by the
Amherst Piano Company, and these
tickets, needless to say, were also in
great demand.

Edward Beck is deserving of credit for
the effects he secured in the decorations
of the booth and Hugh Beck and Fred
Driscoll did much in the way of securing
lighting effects.

Defends Sunday Games
London, Sept. 30.—"Unless men and
women are fit to take their places at
work on Monday there is something
wrong in the way they spend their Sun-
day," said the Rev. T. Pym, head of
Cambridge House. He said he could not
understand why there should be any
prejudice against games on Sunday, par-
ticularly for those who could not play
them during the weekdays.

A strip of land eight inches wide and
forty feet long in the central part of
Hawton, Penn., has just been transfer-
red by deed to a man who needed this
small piece of ground to get access to
his large tract of land behind it.
