A MISSES' OOSTUMI

A hyacinth blue marquisette frock made in one piece and trimmed with ice and buttons of its own material. Hyacinth blue is one of the fashionable hues of the new season and when combined with white there is nothing out of the ordinary. In the cotton and silk suit it is highly favored by well-dressed women of all ages. This misses' frock is in hyacinth blue marquisette with a two-piece skirt draped across the front.

COLUMBIAN MASTER PAYS TRIBUTE TO THE MANHATTAN MEN

The Imperial Merchant Service Guild have received the following communications from their member Captain J. McDonald, who lately commanded the Leyland Liner "Columbian":

Atlantic Transport Line
 S. S. "Manhattan"
 At Sea, May 18th, 1914.
 T. W. Moore, Esq., F. R. G. S.,
 Secretary,
 The Imperial Merchant Service Guild.

Dear Sir:—The late S. S. "Columbian" under my command has been blown up and I have barely escaped with my life. But for the exertions of Captain F. W. Lasell, commanding the above steamer, I would be counted as one of the missing. Will you please look over the enclosed statement and make such use of it as you see fit.

Yours truly,
 (Signed) J. McDONALD.
 The statement which Captain McDonald refers to is:—
 On board the S. S. "Manhattan," Atlantic Transport Line, May 12th, 1914.

This is to certify that after the S. S. "Columbian" caught fire and exploded in Lat. 41 deg. 30 minutes, Long. 59 deg. 00 minutes W. on May 4 at 10 hours 5 minutes a. m., that I with fifteen other members of the crew left the ship in No. 4 boat (one man was drowned and another died) leaving a total of fourteen alive in the boat. Strong winds were blowing and a heavy sea was running. It was a very cold day. We were in the boat for fifty hours. Captain F. W. Lasell of the Atlantic Transport Liner "Manhattan," bound from New York to Antwerp, intercepted a message from the Cunard Liner "Franconia" stating that he had picked up one of the boats of the "Columbian" and the two were still adrift. Captain Lasell deviated from his course for seventy miles and picked up my boat on May 6 at 2 a. m. while I was lying too with oil bags out in a heavy sea and bitter cold weather; taking us on board without any mishap, and continuing the search for No. 3 boat for eighteen hours afterwards.

May 11 5 a. m. C. E. Roberts, chief engineer, with bad injury to head, and E. Delf, greaser, badly burned and scalded, were transferred to the R. M. S. "St. Louis" bound to Southampton, for better medical treatment and we got to the hospital quaker.

Captain Lasell, his officers, engineers, stewards and crew did all they possibly could to relieve our sufferings and make us comfortable. We sincerely hope that the crew of the "Manhattan" may live many years to come to act the part of good Samaritans.

(Signed) J. McDONALD.
 Member of the late S. S. "Columbian."

CAROLINE COE'S TESTED RECIPES

Tea Cakes

Cream one heaping tablespoon of butter with one cup of light brown sugar, beat in one egg, one cup of sour milk, into which stir one teaspoon of soda. One cup of raisins put into two cups of flour. Add milk and flour little at time, beat hard, put in muffin pans. Put chocolate marshmallow on top and bake twenty-five minutes in moderate oven.

Codfish Toast

Shred one cup of salt fish and soak over night. In the morning drain thoroughly. Put two cups of rich milk in double boiler, blend two tablespoons of flour with a little cold milk until perfectly smooth. Add to the milk in double boiler. Allow to cook fifteen minutes.

HOUSEHOLD HELPS

When incandescent mantles are used the ceilings immediately above often become blackened, while the rest remains quite clean. If whitewashed, the place can be cleaned by being rubbed over with a mixture of starch and water of the consistency of cream. A soft flannel cloth may be used. When quite dry spread a newspaper underneath, and

Refrigerator Economy!

Look out for tainted food in hot weather. Look here for Refrigerators that are guaranteed to keep it wholesome and sweet. But that is not all—Look here for refrigerators that will save needless outlay for ice which often melts quicker than it should, and one that will not retain odors.

Right now, when you are planning for hot weather, we have ready for you to choose from numerous different designs of refrigerators in various shapes and sizes, from the little—but dependable—ice-box for a small apartment, up to the big, roomy chest for the large country home. We list the following notable examples of Refrigerator Economy. They will

JUDGE McLEOD TO INVESTIGATE

One of Official Board on Empress Disaster
 DISPUTE BETWEEN CAPTAINS
 Royal Gifts to Fund — President Wilson's Sympathy—Liner Can be Raised—Virginian Takes Her Place—Salvation Army Plans

Montreal, June 1—Now that the first burst of excitement and grief at the loss of life through the sinking of the C. P. R. steamer Empress of Ireland has partially spent itself, and the general public is settling down to await the government inquiry before giving judgment as to the responsibility for the frightful accident, an unhappy controversy between the commanders of the two vessels involved is looming large on the horizon.

The truth, it is hoped, will be drawn by the official inquiry, which will open on June 8 or 9 in Quebec or Montreal. A preliminary inquiry was begun today in Montreal by Captain Lindsay, wreck commissioner. He is privately securing for the government information to be used by the investigating board.

This board will be composed of two judges of the Canadian admiralty court, Sir Adolphe Routhier, judge of court of admiralty, Quebec, and Hon. E. McLeod, chief justice and judge of admiralty court, New Brunswick, appointed by the dominion government; Geo. Vaux, representing the British board of trade, and probably representative of the British admiralty.

London, June 1—The king has donated \$2,500, the queen \$1,250, the Prince of Wales \$1,250, and the Queen Mother Alexandra \$1,000 to the Empress of Ireland fund.

Washington, June 1—President Wilson today sent a message of condolence to the dominion government; Geo. Vaux, representing the British board of trade, and probably representative of the British admiralty.

Montreal, June 1—Discussing the possibility of raising the Empress, Thomas Hall, of the Hall Engineering Works, stated today that the Empress is an excellent sailing proposition.

London, June 1—Arrangements have been made to have the Allan liner Virginian take the place of the Empress of Ireland, which was due to sail from Liverpool on June 12. All the bookings have accordingly been transferred.

Following the Empress of Ireland disaster in which so many of the leading officials of the Salvation Army in Canada went to a watery grave, Colonel

STRIKERS IN UGLY MOOD

Palermo, Sicily, June 2—A strike at the sulphur mines reached a climax yesterday when a mob at Porto Empedocle destroyed half the town. They set fire to the sulphur stores, destroyed the depots, tore up the railway tracks and cut the telephone and telegraph wires. Troops and police were sent to re-establish order.

RECENT WEDDINGS

An event of no little interest to the people of Jacquet River, took place at the residence of Doctor Ellis, on Thursday, May 28, when Miss Muriel Brown and G. M. Ellis, were united in marriage by Rev. J. Coleman. The bride was most becomingly attired in a tailored suit of blue cloth, with hat to match. The parlor was beautifully decorated with white, pink and red roses. Mr. and Mrs. Ellis left on the west-bound train for a tour which will include visits to Montreal, Toronto, Hamilton, Winnipeg, Edmonton, Banff, Vancouver, Seattle, Prince Rupert and other cities. There was a large number at the station to see them off and to wish them "bon voyage."

Ecuador Has Earthquake

Guayaquil, Ecuador, June 2—A heavy earthquake occurred here on Sunday morning and was also felt severely at Quito. Many houses were damaged and the people were terror-stricken. Through out Sunday there were continuous shocks at Quito but less intense than the first one.

Sore Corns Dissolved

Removed Without Pain
 The best remedy of all, no blisters or pads or burning salves—they are all relics of the dark ages. The only sure corn doctor—the one that never fails to lift out a sore corn by the roots—is Putnam's Painless Corn Extractor. Apply it at night and it dissolves away the painful corn while you sleep. Nothing to equal the painless removal of corns by Putnam's Extractor. Get a 25c. bottle from any druggist.

Doctor Tells How to Shed Bad Complexion

We cannot restore degenerated facial tissue any more than we can restore a lost limb. It is useless to attempt to convert a worn-out complexion into a new one. The rational procedure is to remove the complexion instead—remove the degenerated tissue. Not by surgical means, however, as the underlying cutis is too thin, too tender, to withstand immediate exposure. Applying ordinary mercurial wax will gradually absorb the offending cuticle. By degrees, a new, youthful skin appears; a skin soft and delicately tinted as a rose petal.

No lady need hesitate to try this. Procure an ounce of mercurial wax of the druggist. Spread on a thin layer before retiring, removing this in the morning with soap and water. In from one to two weeks the complexion is completely transformed.

An approved treatment for wrinkles is provided by dissolving an ounce of powdered exfolite in a half pint of witch hazel. Bathing the face in the solution brings prompt and remarkable results.—Dr. R. Mackenzie in Popular Medicine.

Hair Falling?

Then stop it! Stop it now! You can do it with Ayer's Hair Vigor. Does not color the hair. Ask Your Doctor.

A Stove You Can Always Depend On

The Gurney-Oxford has a nation-wide reputation for reliability. It's a thoroughly well made stove. During its long life it never fails to do its work. It can be depended to cook each meal with little trouble and no worry.

The Gurney-Oxford Economizer (with which every Gurney-Oxford is equipped), enables you to keep the fire in perfect control always.

The grates are designed for perfect combustion. The divided flues convey the heat from the fire to all sides and corners of the oven. The owner of a Gurney-Oxford does not know what it means to take a roast or a batch of biscuits from the oven with uncertainty.

We want to demonstrate the features of the Gurney-Oxford that have gained for it first honors in everything that makes a stove valuable.
