TAKE PACIFISTS AS BAD JOKES

British Labor Men in Washington Express Views—Would Not be Permitted to Enter English Gathering

New York, Feb. 16.—The delegates to the Inter-Allied Labor Conference in London, which the pacifists have announced they will visit at a meeting in this city next Saturday and Sunday, will be able to get into the English gathering, and, if they did, they would probably be glad to get out again in a hurry, his was said today by W. A. Appleton, secretary-general of the Federal Trades Union of England, who is here a member of the British labor mission. Mr. Appleton added that the Inter-Allied Labor Conference will be a setting of Allied labor unions of England, a regular scheduled meeting, to talk over labor matters, and will have nothing to do with the international aspects of the war.

"Yes," said D. L. Messer, of the Pattern Workers' Union, another member of the mission, as he referred to a note, "that meeting will take place on Saturday, Feb. 21. If your good pacifist is to send delegates they elect next day they will have to travel as fast as their imaginations did in thinking the meeting would welcome them. It is a regularly adjourned meeting to discuss a proposed new constitution. I trust you are not joking me, but it is not laughable."

Here Charles Duncan, M. P., a third member of the mission, said: "You may say to your dear pacifists that, if they love peace, they should by all means not attend the meeting they plan to honor. British labor is not pacifist, despite some dimes which seem to be prevalent here. We are going to 'carry on' and our pacifists would not be cordially entertained. I understand, of course, that they must think that this is a meeting of labor delegates from the Allied nations or from all nations. It is not, I don't know whether this is a good joke or a sorry joke, but I say it is a joke."

The pacifist convention has been called by "the national conference of members of labor, socialist and radical movements," which is a camouflage for the so-called pacifist council, whose pacifist propaganda has grown a bit stale recently. In the list of the delegates, the names of Scott Nearing, the moving spirit of the People's Council, and David Starr Jordan, well-known pacifist; Morris Hillquit, late pacifist candidate for mayor of New York; and among others, Dr. John Haynes Holmes, Dr. Holmes today took pains to repudiate his role in the matter. While the British labor leaders were discussing the faux pas of the American pacifists today, the People's Council press agents were sending out a lengthy statement which began by stating: "Radical ideas, no less far-reaching than those of the Bolsheviks and of the British labor movement, will form the basis of discussion at the sessions of the national conference of members of the labor, socialist, and other radical movements in New York, Saturday and Sunday, Feb. 16 and 17. While one of the functions of the conference will be to select a delegate or delegates to attend the Inter-Allied Conference of labor, socialist and radical adherents, suggested by the British joint labor congress for some date in the immediate future, another and even more important function will be the formulation of suggestions for the American wing of the democracy and peace movement."

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend a Few Cents! Dandruff Disappears and Hair Stops Coming Out

Try This! Hair Gets Beautiful, Wavy and Thick in Few Moments

If you care for heavy hair, that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily; get a small bottle of Knutwin's Danderine at any drug store or toilet counter for a few cents; apply a little as directed, and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knutwin's Danderine. If eventually—why not now?

QUEBEC "FARMERS" AT WORK IN HALIFAX

Halifax, N. S., Feb. 15.—Twenty-two men were arrested today at South End terminals and marched to the Citadel under military escort. They are men who had failed to comply with the provisions of the military service act, and the first to be arrested in Halifax since the work was turned over to the civil authorities. Inspector Rideout, of the Dominion police, also took the names of a number more whose cases are "doubtful" and will be further investigated. The men are all outsiders who came here to work. A feature of the examination was the large number found working on construction with exemption certificates as "farmers" in their possession. With few exceptions they were French-Canadians from Quebec.

RECENT WEDDINGS

S. Howard officiating. Mr. and Mrs. Kirkpatrick spent their honeymoon in Douglastown and Newcastle.

Mr. McGuire of the Ruggie street Baptist church officiating. Mr. Morgan is a recent graduate of Boston City Hospital.

Charles William Stephens, formerly of Oxford, but now of the Depot battalion, and Miss Margaret McNeil, now of St. John, but formerly of Scotland, were united in marriage yesterday at the home of the officiating clergyman, Rev. J. A. MacKinnon. They were attended.

NO OFFENSIVE YET.

Friday, the date set by influential German newspapers for the starting of the much advertised German offensive, has passed, and no aggression on the part of the enemy materialized. On the contrary both the British and French armies delivered at widely separated points on the western front smashing at the German line. These attacks, although they were merely in the nature of raids, were successfully carried out and resulted in the capture of prisoners and the infliction of casualties on the enemy.

For the first time in South Jersey, where glass factories have flourished for more than a half century, women and girls are being employed in every branch of the industry except that of blowing, but in this they are prevented accepting positions by the Federation of Labor.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If Tongue is Coated Give "California Syrup of Figs"

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When this little system is full and cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "fruit cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a child tomorrow. cently been appointed to an important post under the ministry of labor.

During the past year the representatives of the National Federation of Women Workers have arranged over 100 settlements of disputes between the members of the organization and the employers either in the form of agreements or by arbitration awards. Of the cases taken before the special arbitration tribunal 92 per cent were successfully established. The year 1917 was the banner year for organization work among the women workers of the United Kingdom, as shown in the increases of membership in the following trades: National Union of Printing and Paper Workers, 1,233; Postman's Federation, 4,000; National Amalgamated Union of Shop Assistants, Warehousemen and Clerks, 7,899; United Garment Workers, 5,000; Amalgamated Tailors and Tailor-esses' Society, 8,000; Liverpool and District Dressmakers' Association, 700; Boot and Shoe Operatives' Union in Rushden, Northampton, Leicester, and Kettering, 2,800; Leicestershire Amalgamated Hosiery Union, 8,000; Ilkerton and District Hosiery Union, 2,800; Postal and Telegraphers' Clerks' Association, 1,500; Women Clerks' and Secretaries' Association, 5,000; Male and Female Pottery Workers' Society, 4,000; Amalgamated Society of Female Leather Workers, 800; Yorkshire General Union of Weavers and Textile Workers, 4,000; Dundee and District Union of Jute and Flax Workers, 4,000. The National Union of General Workers has now a female membership of 20,000. The league is engaged in the organization of all women workers, but where the organized women should be the existing trades unions, the league agrees to transfer them at the request of the officials of these trades unions.

In the Newcastle area, where there are thousands of women munition workers, the wages have been increased as much as 85 a week through the good offices of the Women's Federation. Something like a revolution has been effected in the laundries of the city of Bristol, where the weekly wage paid was as low as \$1.92. Under the present scale of wages the minimum wage for girls of eighteen years of age is \$2 a week, and an advance of 30 per cent has been given to all women over 18 years of age.

The work on which the federation prides itself the most during the year 1917 is the securing of the extension of the statutory wages order to Ireland, this being done in the first instance by an agreement between the Dublin shell factory and the federation. Prior to the reaching of this agreement the munition workers of Ireland were not treated as generally as the munition workers in England, even in the factories under government control, but the influence of the federation was strong enough to compel the government to treat the Irish munition workers as fairly as they treated those employed on similar work in England and Scotland.
