PROVING ITS CHARGES. The Washington Post follows up its charges against the Civil Service Commission.

WASHINGTON, Oct. 7.—Some time ago the Washington Post charged that the Civil Service Commission was being violated by the civil service commission.

It subsequently made more serious charges of examination papers being stolen and sold by a clerk in the commission.

The matter was brought up, although it was called to President Cleveland's attention.

Campbell was subsequently promoted at the time when Lyman was sole commissioner.

Lyman's attention. The published account says that the next morning, Commissioner Oyster had his Lyman's name in his pocket.

NO FACTS YET.

Another Batch of Poisoning Rumors. AUTHORITIES LIPS SEALED. THEY WILL TELL NOTHING OF THE EVIDENCE THEY HAVE.

It is generally believed to be the chief of Police Marshall says the Police Department has received a number of reports of poisoning.

The arrest of Wm. McDonald on suspicion of having been the cause of the death of Mrs. Dr. Macrae caused a genuine sensation on Saturday evening.

The withholding of the actual facts in connection with the case gave rise to the wild rumors which continued without cessation all day Sunday.

The public from obtaining any reliable news of the cause leading up to the arrest of McDonald.

That the police got a clue to the perpetrator of the crime on Friday is generally conceded.

That day informed a Gazette reporter that he expected important developments before long.

That the facts in the case have been made public. What follows is largely conjecture, but all from persons who ought to have some knowledge.

Said a gentleman who told his story of the case to a Gazette reporter this morning.

"It is my opinion that the police have no one learned who the candy was made by a St. Stephen manufacturer and was one of his most expensive mixtures.

Immediately upon ascertaining this he visited the various places in the city where the candy was sold.

"Whether they got the information from this source is not known, but the boxes used for mailing the candy were from boxes from the Scottish Canning Company.

SECOND EDITION.

A BRUTAL FATHER. BELIEVED TO HAVE CAUSED THE DEATH OF HIS SON.

AT WINDSOR, Ont., Oct. 6.—A case which is likely to prove to be murder has been discovered in Farmington, near West Gairdner, four miles west of Hallowell.

A well-to-do farmer resides there, who is the father of several children, one of whom is a boy sixteen years old.

On the 25th of last August, while working at the barn the man seized a pitchfork, in a passion of anger and struck the boy a terrific blow over the head, exclaiming, "O—d—n—y—o—u—; I will kill you if you don't let Willie alone."

A big gash was cut on the temple and a man who was present suggested that a doctor be sent for.

The cruel father objected but a physician was summoned regardless of this. The boy lived until Friday, the 27th of September, when he died, being buried the next day, no one but the family seeing the face of the corpse.

Detective Ira M. True and Officer Madrox of Hallowell, have been working on the case and the county attorney has been consulted concerning an autopsy, which will undoubtedly be made.

It is suspected that the skull may have been fractured. The dead boy was subject to fits and the neighbors think his ill-fated father caused them by knocking him down cellar with a hammer when young and an old lady once saw the man strike the poor boy thirty-eight times with a rawhide, and another time he lashed the little fellow around the neck with a heavy whip bringing the blood.

The man's wife is an inmate of the insane asylum, her insanity having been caused by the man's violence. The whole matter is being carefully worked up by the officers and further developments may be looked for soon.

More Laws for Settlement. AT WINDSOR, Ont., Oct. 6.—Word has been received from the Indian commissioners at Mills Lake reservation that these Indians have at last signed a treaty which will open some of the richest land in the country to settlement.

This adds about four millions of acres to the domain in addition to that secured from the Sioux.
