beautiful level tract but slightly ele-vated above the lake is held by an English company, which has a steam pumping outfit, which clears an acre day, and in due time it will be settled. There are also industrial possibilities n the waterpowers."

Mr. Ryan has spent considerable of his time on the Canadian prairie during the past four months, and he stated his COUNTRY CLUB MAY clusions thus:

"The development that is now going on in the prairie provinces, particularly in the newer provinces, finds no parallel in the history of the American republic, not even in the western states. A feature that has an interest for Priving ture that has an interest for British Columbia and particularly the Koot-enay is the enormous demand for lumber, which will of necessity continue to

"This means a great deal to the lun ber industry in the Kootenay. When one considers that the average rate on ne considers that the average umber from the coast is forty cents, and the average rate from the Kootnay twenty cents to the prairie market, our position in the prairie market victoria sports, and racegoers generally be apprehended. The decay readily be apprehended to hear that the mand for mine timber alone cuts a George A. Fraser, manager of the large figure. The mills of the Kootenay Victoria Country Club, has been able are practically operating at capacity now, and without doubt they will do their best to meet the demands of the occasion, which seem to demand an inrease in capacity. There will be a great development in the lumber in lustry in the Kootenay within the next three years, based upon the soundest

# MACHINE GUNS TO GUARD SEALS

ROOKERIES ARE BEING ZEALOUSLY PROTECTED

ing Seals on Guns in Behring Sea.

If the Japanese poachers, or any others for that matter, attempt to raid the Pribyloff Island seal rookeries this year accomplished coachman with pair been received here that the American As the meetings will never overlap. government is mounting machine guns at the rookeries, and anyone attempting to land will be treated to a fusilade

tempts to raid the rookeries have been made at different times, sometimes with iccess. This year, however, special preparations are being made, and it will go hard with anyone attempting to take the

No orders have yet been received at Esquimalt in regard to either of the sloops of war going to Behring Sea this year, neither has Captain Vivian, who is in charge of the station, been notified whether or not the Behring Sea award is still in force. It is not custmoary for the British boats to go to the sea until the open season commences in August, the ject then being to prevent the British sealers from doing anything in contraven-ion of the award. Probably the Algerine will be dispatched later.

Discussing with a Times representative the question of the rights of sealing schooners which were otter hunting at this season of the year, Captain Vivian said that, according to the Behring Sea award, the provision for sealing the guns was put in for the protection of the quest of the skippers, and there was no penalty for breaking the seals except that;
