SUBJECTS OF BRITAIN.

The Law of the Empire Covering Birth tight little islands, should jealously guard the social advantages, the protection and field for advancement which are enjoyed by those who can claim to be British subjects. But in the eves of the law there is considerable confusion as to the necessary qualifications which outsiders must show before they can be admitted to all the privileges of citizenship. On this account the Home zenship. On this account the Home

The real dangers of bronchitis are sometimes overlooked. It is too serious a disease to trifle with, and for that reason everybody should be familiar with the symptoms.

Children are most liable to contract bronchitis, and, if neglected, it becomes chronic, and returns year after year, until it wears the patient out or develops into some deadly lung disease.

The approach of bronchitis is marked by chilis and fever, nasal or throat catarrh, quick pulse, loss of appetite and feelings of fatigue and languor.

Bronchitis is also known by pain in the upper part of the chest, which is aggravated by deep breathing weepin."

The real dangers of bronchitis are sometimes overlooked. It is too serious a disease to trifle with, and "You see, it's like this," he began. "I had a girl that I loved, and we was going to git married. She had her things made up, and we was all but ready when she was taken ill and died. And what I wanted was a picture of me sittin' on her grave weepin."

I was touched at the homely story

Brochitis is also known by pain in the upper part of the chest, which is aggravated by deep breathing or coughing, until it seems to burn and tear the delicate linings of the bronchial tubes.

The cough is dry and harsh, and is accompanied by expectoration of a frothy nature, which gradually increases; is very stringy and tenacious and is frequently streaked with blood.

There is pain, not unlike rheumatism, in limbs, joints and body, constipation and extreme depression and weakness. In some people, the exhaustion amounts almost to nervous collapse, delirium follows, and in young, children convulsions may follow.

Dr. Chase's Syrup of Linseed and Turpentine, is, we believe, the most effective treatment for bronchitis that money will buy. This fact has been proven time and time again in many thousands of cases.

It is the most effective remedy for bronchitis, because it is far-reaching in its effects on the whole system, not merely relieving the cough, but actually and thoroughly curing the disease. It loosens the cough, frees the chest of tightness and pain, aids expectoration and permanently cures.

There are other preparations of turpentine and linseed put up in imitation of Dr. Chase's Syrup of Linseed and Turpentine. To be sure you are getting the genuine see the portrait and signature of Dr. A. W. Chase on the box you buy, 25 cents a bottle, family size, three times as much, 60 cents. All dealers, or where."
