ST. THOMAS, D. W. I. May 11, 530 p. m.

A despatch received here from the island of Dominica (B. W. I.) says that a man who has trict of that island went within a hundred yards of the lake and found that the water had disappeared, and found that from a vent ten feet in diameter in the centre was arising a column of steam to a height of thirty feet before spreading into the atmosphere. That district, otherwise, was apparently unchanged, but the sulphur gases were strong.

Eric Walter, the 8 year old stepson of Henry Warring, was found gullty yesterday by Magistrate Baker of the theft of \$2 from his stepfather. His stepfather said he had been unable to do anything with the boy, and for the boy's own good wished to have him feel the arm of the law. Mr. Baker gave the boy a very instructive lecture on obedience, and the outcome of bad conduct in boys, and said that he would suspend sentence in his case, but believed the best thing that could be done was to have the lad strapped. An order for this was made out, and the boy is now in the police station wards waiting until the police can find someone to chastise him.

The Fredericton Gleaner rebukes this journal of the fireside because it dares to criticise the local government's course occasionally. Such a rebuke matters little. It was Lemuel and not Boaz who captivated the fair "Gleaner" at Fredericton. He said, "At meal time come thou hither and eat of the bread and dip thy morsel in the vinegar," and then added to his henchmen "Let her glean even among the sheaves and reproach her not." After that "The Gleaner" went into the threshing floor and uncovered Lemuel's feet. What then happened is a matter of history.

REV. DR. GRANT.

The strenuous life was well exemplified in the career of the late Rev. Dr. Grant. Theologian, teacher, author and in a limited sense a politician, h labored without ceasing. A thorough Canadian and imperialist, he employ his great gifts for the advancement of his country. He was not a politician in a party sense, for now one and nov sparing criticism. He was wholly un questions. That he was much in the public eye was not due to any desir for notoriety. His restless energy brought him into keen advocacy of one principle or opposition to another, and with. While the world has not devised a better system of government than that by party, it is beyond question a benefit to have here and there a daring free lance, of strong convictions and fearless mein; for, even if he does no more, he sets those whom he opposes the task of putting up their best defence, and of searching their own armor for any evidences of weakness. Such a man does not attain popularity with either party. Dr. Grant, however, was

HAD A WARNING.

FORT DE FRANCE, Island of Martinique, May 10.—Advices received here from the vicinity of St. Pierre (ten miles from here) contain further details of the terrible volcanic upheaval which resulted in the utter destruction of that town and the death of nearly all of its inhabitants.

The crater of Mont Pelee had been wearing its "smoke cap" since the third of May, but there was nothing until last Monday to indicate that there was the slightest danger. On that day a stream of boiling lava burst through the top of the crater, plunged into the valley of the river Blanche, overwhelming the Guerin sugar works, and killing twenty-three work people and the son of the proprietor.

But about eight o'clock on Thursday morning a shower of fire rushed down on St. Pierre and the coast from Le Carbet (which had a population of 5,000) to Le Precheur (which had a population of 4,000), burning up everything in its path.

Throughout Thursday the heat in the vicinity of St. Pierre was so intense and the stream of flowing lava was so unremitting that it was impossible to approache the town during the early part of the day. As evening approached, the French cruiser Suchet, atter a heroic battle with the heat, suffocation and sulphur fumes, succeeded in making a dash toward the shore, nearing the land close enough to enable her to take off thirty survivors of the disaster, all of whom were hosted to the survivors of the disaster, all of whom were hosted to be a survivors of the disaster, all of whom were labeled to the survivors of the disaster, all of whom were hosted to be a survivors of the disaster, all of whom were labeled to the survivors of the disaster, all of whom were labeled to the survivors of the disaster, all of whom were read to be a survivors of the disaster, all of whom were labeled to the survivors of the disaster, all of whom were labeled to the survivors of the disaster, all the complete the survivors of the disaster, all the complete the survivors of the disaster, all the survivors of the disaster of the survivors of the disaster of the survivors of the disaster of the survivors of the survivors of the survivors of the disaster of the survivors of survivors of the survivors of survivors of survivors of survivors of survivors of survivors have as a representative the hero of Lake Pehnachong. which was only partially accomplished by the lava.

The inhabitants of Fort de France were panic-stricken, the morning of the disaster, when the sky suddenly blackened until it was as dark as at midnight. The sea shrank back 30 yards, hot rain began to fall, while gravel the size of walnuts poured down on the town. This lasted about 15 minutes, and then the town began to resume its normal aspect. The 450 survivors who were brought here yesterday from the vicinity of St. Pierre by the French cable repair ship Pouyer Guertier came from the town of Le Precheur, where, surrounded on all sides by flowing lava, they were nearly roasted to death and expected momentarily to be engulifed. HAVE YOU A SPARE ROOM?

THE COMPARATIVELY EARLY DATE OF THE COMING EXHIBI-TION (August 30th to September 6th), brings it at a time when, in the ordinary course, the hotels are well filled with the usual number of summer visitors. It is therefore an urgent necessity that some provision be made for dation of those for whom the hotels may be unable to cater during the Fair. It thus behoves that any of our hospitable citizens who may have a room to spare, should assist the success of their Exhibition by opening their doors for the reception of such visitors.

The management wish to include in the Prize List going to press shortly, the FULLEST POSSIBLE LIST OF THE HOUSES WHERE ACCOMMODATION CAN BE HAD.

Householders would therefore confer a favor by sending in a statement of the number they can put up, and whether they can furnish lodging, or board, or both—and their rates.

The wishes of those who do not desire the publication of their names will be respected, and an office list made which will be put in the hands of a competent official at the time of the Exhibition.

This was not due to any lack of appreciation of the project, but as there were a number of other matters of a similar kind under consideration which also had to be delayed pr. account of the general desire to close parliament as speedily as possible. This no doubt applies to the shipbuilding industry as well as to those who have been tooking for railway subsidies.

REV. MR. CRAIG'S FARBWELL. In Trinity church yesterday morning Rev. W. W. Craig preached his farewell sermon and referred very feelingly to the pleasant relations that had existed between himself and the congregation, and between himself and the rector, who had been a friend and a brother to him.
