Rivalry With the Great Northern Railmay May Result in Low Kinter Freight Rates Which Will

Benefit St. John.

NEW YORK, Nov. 26.-James J. Hill denies that his co-operation with the Canadian Northern in the establishment of the so-called "bullet" service between St. Paul and Winnipeg indicates an intention on his part to fight the Canadian Pacific. He says he hs not the least objection to the extension of the Soo line northward. He adds that it was always intended to put on such a service as this as soon as the Canadian Northern was ready. It is purely and simply a traffic matter, and will not, says Mr. Hill, lead to any trouble with the Canadian Pacific.

Pacific people, on the contrary, say that if Mr. Hill is not looking for a fight, he is certainly in a fair way to get one. They take the ground that Mr. Hill is now and always has been the aggressor.
They say that ever since the Canadian
