Re: Caughnawaga Council Resolution 3072.

It is noted that you and Chief Councillor Harry Beauvais have taken up with Shawinigan Water and Power Company the matter of the extension of their power line from Caughnawaga quarry to supply Indian farmers on the Malone-New York Highway.

Presumably this is outside the Company's present right of way and they will require a new right of way. A surrender would be required before a right of way lease could be given to the Company. The Company should supply a plan and a description of the proposed right of way.
